GOLD WASHERS.

H. PARRY has infended a machine for washing application of the second of Party, Scott & Co., No. 103 Wood attest, Pittaburgh.

Adventurers to California are invited to call and oxamica these labor-saving machines. They are sumple in their construction, easily transported on the back of mules or horses, weighing eighty ponds each, and can be put in operation in half an hour. They can be liked with provisions. It is the opinion of those who have seen the trial of one of these machines of smallest and worked by water or mule power, if expedient. The operators work without going linto the water of being exposed to wet, and consequently without endangering their health. They will require but a small stream of water, and can be used the whole season, and can be put into operation where there is not sufficient water to wash in the usual way.

Fince of smallest size Sis. Orders from abroad, accompanied by eash, will be promptly Bided.
