To all Coptains and Communders of a ships acting by commission from the Congr the United States of America, now in war Great Britain. story Committee send the patients, appoint the physicians and possess the entire direction of the medical treatment of the Cholera Hospital. The fact that Mr. Passavant it is the building to the Sanatory Committee, and flust he has his Infirmary in another part of the talking; has led some persons to suppose, errone tady, that he was in some way connected with the control of cholera patients, which is not the trace. As our Passavant's institution is of a profely behavoient character, and is, we have reason to believe; judiciously conducted, we hope it will control to receive the liberal support of the public.

We fear our readers are not; sufficiently awake to the importance of a correct summeration of the simportance of a correct summeration of the simportance of

From the New Orleans Bulletin, June 11.

Late and Important from California

ARRIVAL OF THE GRESCEST CITY,

WITH ONE MILLION OF DOLLARS IN GOLD.

The Isthmus Clear of Passengers. The fine steamer Crescent City, Capt. Stoddard, arrived yesterday afternoon, from Chagres, and we are indebted to Mr. Wildins, her purser, for the following interresting details.

about the 15th June, for San Francisco and the coast.

From arrangements made for a supply of coal, there is now no doubt of a regular communication between Panama and California. The only difficulty apprehended, is the descrition of the crews, but as the company are determined to run the steamers, the difficulty will be overcome by the payment of the high wages demanded by seamen. This was done in the case of the California, and will be resorted to whenever found necessary.

cia, and will be resorted to whenever found necessary.

Panuma was deserted. With the exception of a few persons waiting for the California, (to sail on the 15th.) sil had gone up the ceast, no doubt, "on their way rejoicing." Pansana was healthy.

The road from Cruces to Panama is the one now travelled, although the rainy season had not fairly set in, that is it raised only occasionally.

The Crescent City brings, (by special order,) three mails, consisting of fifteen mail begs from California, some of them as far back as March last. The causes of their delay has been the detention of the steamer at San Francisco, from want of tool and hands, and the want of regularity in the departure of the mail steamers from Chagres.—These mails doubless will bring corroboratory evidence of the correctness of the attements respecting the auriferous regions, and ere long the papers will be full of letters from "our correspondents in Galifornia." The public is much indebted to Martine Canada and Canada and the same of the papers will be full of letters from "our correspondents in Galifornia." The public is much indebted to Martine Canada and Canada and the same of the agentions.

road across the istimus. We learn from Colonel Hughes that he has been successful beyond his most sanguine expectations, having ascertained, and fully explored and surveyed a splendid route, from Limou or Navy Bay to Panama, the whole distance of which from ocean to ocean, is but for yax miles, and the summit clevation only 276 feet above the Pacific—the greatest grade on the Atlantic slope being only twenty feet ber mile, and on the Pacific side forty feet with shuadant of the finest timber and other materials along the route.

and once weather material-plots of Ferniques and the second of the secon

Our very popular and excellent Governor, Wm F. JOHNSTON; has consented to visit Pittsburgh during the course of the next two or three weeks in compliance with a contraous function extended to him by the late Whig Nominating Convention, which met in that City. Why can we no have the property a visit from our Chief Magistaric.

> removed from the Hospital. I immediately left, having made no effort to administer or cause to be During the afternoon, a room had been procur-ed and fitted up, and arrangements made for re-moving him from the Hospital; but the report from the Sanitary Committee prevented; and thus oblig-

era. The dejections from his bowels were of nearly a natural appearance and consistency. He was wreching but not vomiting while I was in the room. His head was hot—tongue covered with thick brown coating—pulse full, hard and rather frequent—features full—face flushed; and there were many other symptoms, none however, any more indicative of Cholera. At So'clock, when I called the second time, the condition of the patient was nearly the same, except a stupor which had mysteriously come over him, and from which he aroused at times in a delirous state. To show that the views which I have expressed are not altogether peculiar to myself, I will here introduce a statement given by M. Cote, M. D:

"On the 13th inst, between 7 and 8 o'clock P. M., I was at the office of Dr. Dake, when two gentlemen entered with a message from a friend of Mr. Tibbetts, desiring the Doctor to go immediately to Rev. Passavann's Hospital, where he would find a permit to treat Mr. T. Dr. Dake invited in was found; but instead a mersage from a friend of the representation of the patient was found; but instead a mersage from D. Malans, at still greater reduced prices. I yard wide best make black folks at 120 cits; summer Shawis at 30 and 50 cits; of the company tim. When we arrived, no permit to treat Mr. T. Dr. Dake invited in an affect of the patient and found him apparently under the influence of narcotic stimulants. The pulse was astrong, the analysis of the conversation while I was present, that could in any way affect the patient, for his injury.
