We do certify that Dr. Loone Wicker, of York, Pa., I took under his care and management, on or about the first of October lust, a young man laboring under a severe attack of "Assatic Cholera." That we examined the said patient, and found him to be in the collapsed state, of that disease, with frequent and copious rice waiter discharges. That we pronounced it a case of genuine Cholera, and declared moreover that we believed the said patient was beyond the hope of medical and. In fact we thought the patient would die, and so declared at the time.

We turther certify that the said Louis Wickey pursued his own mode of treatment, and administered his Cholera Remedy, and effected a cure of the patient. We think is four days hereafter the said young man was at work, and perfectly well.
