kirk. An advertisement appears in the Philadelphi-papers, of the Catawiss, Williamsport, Eric Rai-road Company, propositig for a loan of \$1,000,000, for the purpose of completing the road of that Com-pany to the Susquehanna. The North American in commenting on the means Philadolphia has t reach the Lakes, says that they have as good a road as any state can boast on the route in queion to Tamaqua, via Reading Railrord, a dispance of 99 miles. There is a short, unfinithed link of my miles from Tamogilly to the Catebrar Bend which, can be constructed in a short time and at a comparatively small expense, and which the Latis Schuylkill Railroad and Conf Company are the Schuyikill Railroad and Coal Company are is bound to construct, on the completion of the Cat. | g wissa road. They have then only 36 miles of the Catawissa road left to provide with superstructure and rails to reach the Sinquehanna. It is for this object the loan in question is proported. 45 miles to Williamsport on the West Branch, surveyed a few years since by Edward Miller. Eso., and from Williamaport to Ralaton, h distance of 26 miles, there is a rail road siready in operation. From Ralston to Blossburgh, a dis 25 miles, a route has been surveyed; from Blossburg to Corning, a distance of about 40 miles a railroad has been constructed, and is mow in use at which latter place is provision is made for junction with the New York and Eric Road. The whole distance from Philadelphia to Dunkirk on Lake Erie is 433 milest being 37 miles less than from Dunkirk to New York. The whole expenditure, thus far, on the New York and Rrie Read, is about \$13,000,000, and the additional cost to Dupkirk will swell the amitint to about \$ 6,000,000. Of the 438 miles from Philadelphia 10 Dunkid. 161 are finished and in operation, seaving 27miles unfinished; the expense of complet e 175 miles of which will be borne exclusively by New York; so that there remains but 102 miles for Pennsylvania's share in the accomplishment of this great work; and even on this unfolished perior the sum of \$1,200,000 has been expended. A sum less than the New York and Erie Road will expend in completing their line from Corning to Dunkirk, will perfect the whole line from Philadelphi to the same place. The New York and Erie road is aiready comple ted and in operation as far as Oswego; by October it will be extended to and in operation as far as Elmira; and before the close of the year, if will reach Corning; leaving a last link of phily 175 miles to Dunkirk, on Lais Brie, the whole of which has been contracted for, and will be constructed within two years.

Entrope are integrating internet and bootseter. Some if the vision to throw of the galiting yoke of an oppression sace. Some if the vision Without Webers, we will be a set of the people of the Oriver Webert. United States of America, in the enjoyment of the people will be tioned by the practice of ages, the people of the United State of Anticics, in the enjoyment of a much pure Bad rational thery, and of as services prosperity areas be expected on this earth, can gelebrate they nation's birth with becomes heaving with gratimo to the Giver of all Good, with heart fill joy, and with fervent sympathy with the lovers of high if fervent sympathy with the live services are services and the services of the services of the following odd, which we take from the live services are services on this glad morning fermotions, by but readers, on this glad morning For the state bio, by a lady of New York.
