The coach was loaded with 13 passengers and a heavy lot of baggage, and in descending the bill at the entrance upon the bridge, leverage was put down to check the speed, when the brake broke; throwing the driver heavily on the ground, and of course leaving the horses free of all control. They immediately dashed into the bridge at headlong speed, and when a hittle more than haif way through they struck some of the wood work with frightful force, throwing the stage over and patching the passengers who were on too amongst the timbers, the trunks folling upon them, and the coach getting broken to atoms.
