HUNGARY.

The Hungarians continue to carry on the angular struggle with indomitable energy and courage. Addices from Vianna of the 7th have been received, which state that the report of a victory won by Jellachich proved to be altogether unfounded. Intelligence had been received by the Nation, a Belgian Journal, to the following effect—On the lat and 2d of July, Dembinski, with his own corps, those of Darnel, and all the reserve of veteran troops, amounting altogether to 50,000 men, attacked the Russian army, consisting of 110,000 men, commanded by Prince Paskewitch, in the defiles between Miskoloz and Othen. We have not received any details of this important battle. Dembinski, with 55,000 men, was in pursuit of the remains of the struy of Paskiwitch, and it is probable that immediately the news of Dembinski's victory became known, the warilke population in the defiles in which the Russian Prince has imprudently engaged himself, will rise on exasts to further a difference of the Caule Trade of the Weat, and will were driven from the discontine of the struy of the analysis of the Caule Trade of the Weat, and will were driven from the discontine of the struy of the analysis of the carries of the were driven from the hard of the weet of the struy of the carries of the carries of the were driven from the hard of the weather the properties of the weet of the struct of the Atlantic cities. HORRISLE CARE OF INVASTICIDE.—From information which reached the Mayor yesterday afternoon, he, accompanied by some of the police, felt it his duty to call at the bouse of Mr. George B. Jones, on Water Street, where a woman named Mary Catharine Stephens was suspected of having been delivered! of a child, with which she had made away.

The woman had become suddenly sick, and a physician was called in, who pronounced her disease dropsy. Some time after, the family physician was sent for, who at once declared that the woman had been delivered.
