This shows an increase over the aggregate amount this year, over last, of \$55,368 90. Although this is not discouraging, yet, as the Harris-burgh Intelligencer remarks, when we take into ration the fact that about one mouth of the the canala were opened earlier and have been enthe canals were oponed earlier, and have been en-tirely uninterrupted, it does not really indicate any great increase of trade. The Gazette alludes to a sentence in our commercial column, charging that paper with manufacturing a New York Market Report, and save that the imputation "is a false as it is malicious."

We do not complain that the Gazette fabricates reports, for we dare say the editor is not cognizant of the fact, as we believe he would not sanction the act.
