A Day with the Canterbury Shakers.

Canterbury, Merrimac Co., N. H. }
Sept. 1, 1849. }

This town is about four miles North of Concord, and contains a population of about 1700.—The first settlement was made in 1727.—My purpose, however, is not with the town any farther than as the seat of the community called Shakers, to which I paid a visit on Thursday last. I had heard so much about this sect that I was curious to see for myself, and so, being in Gilmanton, which is within 7 or 8 miles of their village, I formed one of a party of four to pass a day with the Shakers. The drive from Gilmanton brings to view some of the most romantic scenery in New England, and, were not your columns preoccupied, would be worthy of a particular description.

On approaching the Shaker village, which lies in the Northeast part of Canterbury, it was remarked that the farms along the road exhibited more than ordinary neatness. There was an appearance of thrift which surprised us. This was attributed to the influence of the Shakers, who were styled the very "pattern" of neatness. On reaching the village, our first inquiry was for the "Church family," which appears to be the highest order of Shakerism, and having ascertained that it was at the farther end of the village, we proceeded thither.

The community is divided into three families or degrees. First, the novitiate order, into which are first admitted all who evince a desire to connect themselves with the Shakers. The novitiates are required to live up to certain rules of the society, but they can manage their own temporal affairs, and even live with their families. The society exercises no control over their persons or property, but when they desire to make a "donation" of their property to the society they are at liberty to do so.

The second class, often called the junior class, comprises persons who, not having the charge of families, unite together in the community order, contracting to devote their services to the interest of the family, receiving support in health, sickness and old age. On the withdrawal of a member he may resume his property, according to the contract.

The senior class, or Church family, is composed of such as covenant to devote themselves and services, with all they possess, to the society.

At present the community numbers nearly 300 members—the Church family about 150, and the two other families from 60 to 70 each. The buildings are situated on either side of the road, each "family" occupying a separate group. Our first visit was to the trustees' office, where we were received by a lady whose station corresponded with that of *elder*. The spiritual affairs of the society are directed by four elders, two males and two females, and the temporal affairs by trustees who are invested with the fee of all the real estate.

We were invited to examine the buildings and grounds, and one of the ladies accompanied us—Every thing appears to be on an extensive scale; there are a steam engine, to aid in the washing of [illegible]; a mill, where the fire wood is sawed; a grist mill, turning mill, saw mill, and mills for the manufacture of linen, cotton, and woolen cloths—[illegible] all, I believe, there are eight mills, situated on [illegible] stream. We found some of the Shakers [illegible] of soap making, and they had filled seven large casks, each containing 100 gallons of soft soap. The dairy was a wonder; one hundred [illegible] cheeses were exhibited as intended for family consumption.

In the yards and gardens the granite walks were [illegible] even from dust. There was a nicety about every thing which was almost painful—not a stone [illegible] the street—the fences all in perfect order—I [illegible] in vain for some kind of rubbish. The [illegible] were thrifty, and no old trees encumbered [illegible]. I never before saw a farm exhibiting such [illegible] high state of cultivation.

[illegible] one of the rooms we found about twenty girls, [illegible] four to fourteen years. They were occupied [illegible] needle work, with the exception of one who was weaving lace. They were examined in arithmetic, geography, and grammar, and manifested a praiseworthy proficiency. At the request of their teacher they repeated some doggrel, detailing their names, ages, the towns of their birth, and the circumstances under which they came in charge of the Shakers. The following will serve as a specimen:—

"If being good will make a Shaker,
I'll be one, says Anna Baker."

These children did not appear happy. Not for a moment did any one of them smile. They all appeared sad and careworn, as was the case of with most of the females, old and young. I should say that they are under very great restraint. In the community, the females considerably outnumber the males. In Summer, the female children in the three families unite in one school. The teacher, a remarkably comely young lady of about five and twenty, and very enthusiastic in her calling, informed us that the children in her charge were more proficient than the average of the attendants of our New England common schools; thirty seven were attending the school this season. The boys are schooled in winter, and employed about the farm in summer; we saw several groups of them, apparently happy and cheerful.

Having expressed a desire to attend a "Shaker meeting," we were directed to the lower family. We entered the chapel at 8 o'clock, and here we found about thirty females, and a somewhat less number of males. They were arranged in rows, —three separate rows of each sex—and facing each other. They all knelt and passed some minutes in silent prayer, and then commenced chanting a mournful sort of air, keeping time with their hands and feet. By degrees the music assumed a livelier strain, and the shakers commenced a movement round the room, at first marching, increasing in speed according to the rapidity of the music, and ending in a regular "shave down." Six of the most powerful singers stationed themselves in the middle of the room, and "did" the music with a power which some of your opera singers might have envied. The Shaker dance is unlike any thing else, and is difficult to describe. The males had divested themselves of their coats, and united in the exercise with great gusto. The singing and dancing ceased, and after a few minutes passed in silence, the spirit moved some of the brethren to a speech, or more properly an exhortation. What was said was well said, and not unlike the exhortations in our Methodist meetings in seasons of strong religious excitement.—One of the speakers had been a Methodist clergyman, a very popular preacher in his day. Disappointment of some kind had driven him from the "work." The services were concluded at half past nine o'clock.

The Shakers cultivate about 1500 acres, as we were informed, and they also own several large farms which they lease to the "world's people."—They are deemed very shrewd, and as one of their neighbors said, "dreadful chipper fellows at a trade." Their garden seeds, wooden ware and clothes find ready sale at a price about 20 per cent. higher than the goods of the outsiders, though it must be acknowledged that they manufacture none but superior articles.

The inhabitants of the surrounding towns entertain strong prejudices against the Shakers. We visited the cemetery, which contained about 150 graves, each marked with a marble slab, recording the name and age of the deceased. These were all the deaths which had occurred in the community since its establishment, about half a century ago.

One of the elders was quite communicative, and let us into the secret of the organization of the community. It appears that, besides the elders [illegible]

PITTSBURGH BOARD OF TRADE
COMMITTEE FOR SEPTEMBER.
JAMES DALZELL. W. W. WALLACE. R. J. TOTTEN.

REVIEW OF THE PITTSBURGH MARKET,

FOR THE WEEK ENDING SEPTEMBER 11, 1849.

The weather, during the greater part of the week, has been cool and dry, and our rivers have again become quite low. Consequently every thing has been dull, and we find no marked change in the general quotations of the market. The rains which fell in the early part of the week, had, very contrary to our expectations, no effect upon the river, and the water has gradually receded, until the depth in the channel is very nearly approaching the low water mark; as a consequence, business in that quarter has been very light, and must continue so until we have another rise, which is now most anxiously looked to as the only means of a general revival in trade. As the fall season has already set in, we may venture the prediction, that after so long a spell of dry weather and low water, we will not have to wait long for an abundant rise in the river, when our business men will again be set to work, and trade generally will assume all its wonted activity and bustle.

The receipts of Breadstuffs and Provisions have been very light; supplies are barely sufficient to the demand, and prices in every respect, continue very firm at last quotations.

ASHES—In Soda Ash, a fair business has been done in the way of general sales, while other descriptions have remained quiet, though prices have been firm at our last quoted rates. Some 20 tons of Soda Ash have been disposed of at 3½@3¾c for best brands, and 3¼@3½ for ordinary. We continue our quotations of Saleratus at 5¼; of Pearls 5¼@5½; of Pots at 4½@4¾c, and of Scorchings at 3@3½c ꝑ lb.

ALE—The demand continues fair, and regular sales have been effected at $6,50@8,50 for common to best, casks included

BACON—The receipts of bacon, to be sold in this market, have been moderate; the present supplies are inadequate to the demand, and prices have continued very firm. The sales of the week have amounted to about 80 hhds at the following figures. Plain hams, 8[illegible]@9c; Shoulders, 6@6½c, and Sides at 6½@6¾c ꝑ lb. Sales of 30 tierces of prime bagged hams at 10c, and of choice sugar cured canvassed hams at 10½@11c. The supplies of common country cured bacon continue very light, and sales have been limited at ¼ to ½c below the above figures. The shipments of Bacon east via Canal, during August, amount to 1,025,100 lbs.

BRAN AND SHORTS—We note sales of Bran from store at 11@12c, of Shorts at 20@22c ꝑ bushel. Receipts continue light, and supplies are limited

BUCKETS AND TUBS—We continue our quotations at $2,25 ꝑ dozen for Buckets, and $8,50@9 ꝑ doz for Tubs.

BROOMS—With light supplies in market, we note moderate sales at fully quoted rates, say, for a good merchantable article at $2,37@2,50, and for best quality $2,50@3,00 ꝑ doz.

BEANS—We note regular limited sales from store at prices ranging from 62½ to 75c ꝑ bu, for common to prime.

CHEESE—Receipts from the Western Reserve have been fair, and considerable quantities are passing to the eastern market. The shipments by Canal during August, were 194,200 lbs. We note sales of common W. R. at 6½@6¾c, and of Cream at 6¾@7c. At the latest dates Cheese was quoted in the Philadelphia market at a range of 5½ to 10½c; at Baltimore, 7½@10½c; and in Cincinnati, for W. R., 6½c ꝑ lb.

COTTON SHEETINGS—Best quality Brown Sheetings, Pittsburgh manufacture, are sold at 7½, and ordinary or Nonatook at 7¼c ꝑ yard, at which figures the demand is good, and prices very firm.

COTTON YARNS—We notice no further change in prices, and continue our quotations as follows:

POUND YARN.

Castor Oil, bbls,	$150@1,55	Sal Soda	4@4½
Quinine, oz	$4,25@4,30	Glue, common "	11@13

FLOUR—The receipts of flour during the week have been barely worth noticing, and sales, either from first hands or from store have been very limited, and confined only to the regular trade demand. From store we notice a slight improvement from our last week's quotations, with sales in dray load lots at $4,81@4,87@4,90 ꝑ bbl. From first hands we may quote at $4,75@4,80 ꝑ bbl. The shipments east during August were light, amounting only to 1,204 bbls.

RYE FLOUR—We continue our quotations from store at $3,37@3,50 ꝑ bbl. Supplies are light

FISH—We notice fair supplies in the market, with sales of Salmon at $18 ꝑ bbl; of new No. 2 Mackerel at $10, and of old No. 2 at $7,50; sales of No. 3 at $5,75@6, and of Herring at $5,50@5,75 ꝑ bbl; the market closing firm at those figures.

FEATHERS—The market continues quiet, with moderate sales at 32@34c ꝑ lb.

FREIGHTS—Owing to the continued low stage of the river, freights to Cincinnati continue high, 75c per 100 being the lowest rate. For some of the principal articles of shipment east, the following are the charges on the Canal:

Butter, Bacon, Lard and Tallow		45c
Tobacco Leaf, Ohio, ꝑ 100		50c
do " Ky,	"	50c

WHISKEY—The market continues very quiet, with sales of Rectified at 25c, and of Raw, which is exceedingly scarce, at 25c.

Cattle Market.

Allegheny, September 10, 1849.

The market on Monday manifested no change from our last quotations. The offerings of Beef Cattle were fair, and prices ranged from $4 to $5 ꝑ 100 lbs net. Sheep were sold at prices ranging according to quality from $1 to $1,75 each

London Iron Market, Aug. 25.—The British Iron market has been rather firmer this week, and a fair trade has been done at very full prices. Scotch pigs are held for rather higher prices, but not much business has been done, No. 1, 46s to 46s 6d, Garthsherrie 47s, and mixed 45s 6d. A fair business has been done in Welsh bars at £5 to £5 2s 6d. Rails are quiet at £5.

Liverpool Iron Market, Aug. 25.—We have to report an active market in Metals of all kinds, pig iron excepted, which is quite a drug; prices are gradually giving way, and are likely to recede further. 43s 6d to 41s in Glasgow, and 50s to 51s 6d here are present prices. Orders from America by the Europa being heavy for manufactured iron, have given the market a fillip, the prospects are in favor of a moderate advance

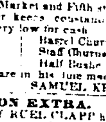
CAUTION EXTRA.

A man by the name of RUEL CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. He is sending out cards headed "Tricks of Quacks," in which he says, I have sold the use of my name for $7 a week. I will give S. P. Townsend $500 if he will produce one single solitary proof of this.—This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms, and his signature across the coat of arms.

JACOB TOWNSEND

Principal Office, 102 Nassau st, New York City

OLD JACOB THE ORIGINAL OF THE



DOCTOR TOWNSEND, DISCOVERER GENUINE

TOWNSEND SARSAPARILLA.

Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value. This GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land.

Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of Chemistry, and the latest discoveries of the Art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains medicinal properties, and some properties which are inert or useless, and others which, if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover these volatile principles, which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which gives to it all its value. The

GENUINE

OLD DR. JACOB TOWNSEND'S SARSAPARILLA is so prepared, that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

CURE OF INNUMERABLE DISEASES.

Hence the reason why we hear commendations on every side in its favor by men, women and children. We find it doing wonders in the cure of Consumption, Dyspepsia, and Liver Complaint, and in Rheumatism, Scrofula and Piles, Costiveness, all Cutaneous Eruptions, Pimples, Blotches, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and cold hands, cold chills and hot flashes over the body. It has not had its equal in coughs and colds; and promotes easy expectoration, and gentle perspiration, relaxing stricture of the lungs, throat, and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of fluor albus or whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the menstrual periods, and the like; and is effectual in curing all forms of the Kidney Diseases. By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and cures all forms of

NERVOUS DISEASES AND DEBILITY,

and thus prevents or relieves a great variety of other diseases, as Spinal Irritation, Neuralgia, St. Vitus Dance, Swooning, Epileptic Fits, Convulsions, &c. Is not this, then, THE MEDICINE YOU PRE-EMINENTLY NEED?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be COMPARED WITH THE OLD DR'S, because of the Grand Fact, that the one is incapable of Deterioration and NEVER SPOILS, while the other DOES, it sours, ferments, and blows the bottles containing it into fragments; the sour, acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system? What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know, that when food sours in our stomachs, what mischiefs it produces!—flatulence, heartburn, palpitation of the heart, liver complaint, diarrhoea, dysentery, cholic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the tender and delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.

Now, is it not horrible to make and sell, and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND!

and yet he would fain have it understood that Old Dr. Jacob Townsend's Genuine Original [illegible]

REPORTED FOR THE PITTSBURGH DAILY GAZETTE

View of Pittsburgh.

A large number of the inhabitants of Pittsburgh will remember that they subscribed for a view of their city in the spring of 1848. The young man who called on them, was an agent of mine named Geo. W. Smith, who, no artist whatever himself, even in the slightest degree, did, I understand, represent himself as such.—The drawing he showed was made by me, and I employed him as I would any other young man, paying him for his services as a canvasser. Since that time the business he has transacted for me has been of a very unsatisfactory character, especially that part relating to financial matters. In consequence I was compelled to resort, or rather threaten to resort to legal measures to compel a fair settlement of his affairs. In order to avoid this, he suddenly left for parts unknown, and I was unable for a long time to hear of his whereabouts. At length, much to my surprise, I learned that he was operating in Pittsburgh, endeavoring to get up a new subscription, to either a copy of my View or a new one which he by some means obtained, RETAINING, BE IT REMEMBERED, MY SUBSCRIPTION BOOK, to which he had no more right than the man in the moon. This book he has used in some way for his own purposes, and has managed, I understand, to TURN OVER MY SUBSCRIBERS TO HIMSELF, although he has been paid long since for his services in getting them for me.

Now, citizens of Pittsburgh, I leave it for you to say whether these unworthy and dishonorable designs shall succeed. I am here, prepared to substantiate all I say, and if he is in Philadelphia let him come on here, meet me face to face before a legal tribunal! He is, I understand, now in Philad'a. I will remain here until he has ample time to arrive, and test this question fairly. I shall be found at any time for the next week or ten days at the Monongahela House, where I shall be happy to see and more fully explain matters to any respectable person who may feel sufficiently interested to call.

My View is now ready for delivery.

E. WHITEFIELD.

Pittsburgh, Sept. 12, 1849.

Forestalling.—A Pittsburgh huckster was taken before the Mayor of Allegheny, yesterday, charged with forestalling. He had attempted to buy up all the good peaches in the Allegheny market, with the intention of re-selling them in Pittsburgh at an advanced price, but his knavery was detected, and he was fined five dollars.

Shocking Cruelty.—On last Saturday afternoon, we witnessed a spectacle which we would have thought could not have taken place in a community so refined as that in the neighborhood of Pittsburgh and Allegheny, is reputed to be.

A crowd of more than one hundred men and boys were engaged in driving a heifer to the shambles across the North Commons, in Allegheny, and when they were a square or two from Federal street, the animal fell, or ran into a large shallow hole which had been dug for the foundation of a house. It stood there patiently, without doing any harm, but its inhuman persecutors set a large bull dog upon it, which, flying at the poor creature's head, fastened upon its nose, and clung there. With deep bellowings of pain, it endeavored to shake the dog off, and at last, with its nostrils all torn and bleeding, it succeeded in the attempt. The bystanders then seemed to hold a consultation as to what was best to be done.—They surrounded the shallow sides of the pit, and as soon as the wretched creature manifested an inclination to turn to any point, evidently intending to escape and not to attack, all near it rushed away as if a lion instead of a calf had been near. They then set another ferocious dog upon it, and the patient creature, without ever attempting to resist, waited until the dog had caught it firmly by the nose, when it endeavored to shake it off, but in vain, until the flesh, by which the dog adhered, gave way. The valiant men who took the lead in this gallant exploit then attempted to throw a noose, after the fashion of a lasso, over its head but they tried in vain, until one, more skilful than the rest, got it fairly over the creature's horns.—Then the whole crowd of men and boys seized hold of the rope, and one of uncommon bravery caught the heifer's tail, which he twisted until the excess of pain caused the animal to rush forward, when all who held the rope dropped it, and "fled for safety and for succor." The leaders in this inhuman exhibition then set another dog upon it which caught it by the side and clung there until the great pain it endured gave the animal sufficient strength to shake it off. Thus this cruel scene was prolonged by the cowardice of the principal actors in it. The creature which they were endeavoring to capture made no resistance, but they set their dogs upon it, until torn and bleeding, it was pushed about without being able to walk.—We could not help thinking, as we gazed upon this brutal spectacle, that the days of barbarism have not wholly passed away, and that no punishment could be too severe for these who thus outraged public decency, and corrupted the morals of the younger portion of the community.

Mayor's Office, Pittsburgh, September 11th.—Four men and two women were brought before the Mayor to-day, charged with drunkenness and disorderly conduct. Both the women, and the husband of one of them, were committed to jail for thirty days. The others, not having been so noisy in their cups, were only sent to the hill for twenty-four hours.

Reservoir in Allegheny.—Owing to some unforseen event, the water will not be let into the pipes in Allegheny until next week. We will give due notice of the time at which it may be expected.

Shakesperian Readings.—We call the attention of our readers to the advertisement of Professor Kennedy, who will give a series of Shakesperian readings at the Fourth Ward School House, this evening. He is a gentleman of great talent, and we hope that he may have as good a house as he had on Monday night.

Sewer.—The Street Commissioner is now busy constructing a new sewer in Garrison Alley, where one has been much needed.

Larceny.—A man named Samuel Humes, a journeyman hatter was yesterday arrested, charged by Mr. Keevil, of Fourth street, with stealing a lot of hatter's tools from him, valued at $20. Humes had sold the articles to Mr. Dillon, a dealer in old iron, brass and copper.

Court House.—The workmen are now engaged in taking down the wall in front of the Court House on Grant Street, with the design of making such alterations upon it as may adapt it to the new grade.

Supreme Court, Sept. 11, 1849.

Wagner vs. Baker. District Court. Argued by Mr. Ritchie and Mr. Shaler for plaintiff in error. Mr. Forward and Mr. McCandless for defendant in error.

Assault.—A man named Jesse Jones was yesterday taken before the Mayor, charged with committing an assault upon Mrs. Jones, his former wife, who had been divorced from him. Notwithstanding this divorce he persists in going about the house, and quarrelling with her, and hence the present suit.

Fire.—The roof of the house on Penn street, occupied by the Hon. H. Hepburn, caught fire yesterday afternoon. The Engines were quickly on the ground, and the flames were subdued before much damage had been done.

Burglary.—The dwelling house of the Hon. Moses Hampton, in Allegheny, was entered by thieves on Monday night; but the inmates having become alarmed, they fled without obtaining any booty.

Premium Lemon Sugar.—Prepared by J. W. Kelly William street, N. Y., and for sale by A. Jaynes, No. 70 Fourth street. This will be found a delightful article of beverage in families, and particularly for sick rooms

Baker's Broma.—An improved Chocolate preparation, being a combination of Cocoa nut, innocent, invigorating, and palatable, highly recommended particularly for invalids. Prepared by W. Baker, Dorchester, Mass., and for sale by A. JAYNES, at the Pekin Tea Store, No. 70 Fourth st mch14

RUST PROOF IRON.

THE undersigned have erected works in the city of New York, for the purpose of Galvanizing all articles of Iron, which it is desirable to PROTECT FROM RUST, such as Telegraph Wire, Bolts, Spikes, Nails, Wire for Fences, and any other article which may be required. For Hoops for Casks, as a substitute for bale Rope, for Clothes Lines, Lightning Rods, and a host of other applications, it will be found cheap and durable. They would particularly call attention to the Galvanized Wire for fences; it requires no paint, and will not rust. Also to Spikes and Bolts, the preservation of which is of so much importance, that it will commend itself to the notice of all those interested.

Dr. Brown would inform those afflicted with private diseases which have become chronic by time or aggravated by the use of any of the common nostrums of the day, that their complaints can be radically and thoroughly cured; he having given his careful attention to the treatment of such cases, and succeeded in hundreds of instances in curing persons of inflammation of the neck of the bladder, and kindred diseases which often result from those cases where others have consigned them to hopeless despair. ☞ ALL GOOD CITIZENS are honorably assured that the following are the actual qualities of a 3s bottle of Jones's Coral Hair Restorative. If they doubt our word, they cannot these highly respectable citizens who have tried it:—

Mr. Geo. Becket, 41 Elm st, New York.
Mrs Matilda Reeves, Myrtle av, Brooklyn.
Mr. Wm. Tompkins, 92 King st, New York.
Mr. Thos. Jackson, Montours Island, near Pittsburgh
H. E. Cullen, late barber steamboat S. America

And more than a hundred others state, though this must suffice, that it will force the hair to grow on the head or face, stop it falling off, strengthen the roots, removing scurf and dandruff from the roots, making light, red, or gray hair assume a fine dark look, and keeping dry, harsh or wiry hair moist, soft, clean and beautiful a very, very long time.

☞ THE SLIME OF A VILE REPTILE is not more repulsive than a bad, putrid breath, or dark, yellow diseased teeth. If persons have these it is their own fault—they can, for two shillings, buy an article that will make their breath pure and sweet as *the Spicy Air of Arabia*.

It cures diseases of the Gums, spongy or ulcerated, and for the Teeth it is unequalled, removing the tartar, fastening the teeth in the gums, and clean them as white as the *snow of the frozen North*

Such, reader, are the properties of Jones's Amber Tooth Paste, and, without praising it ourselves, hear what one of our most respectable and scientific Dentists, Mr. E. Field, of New York, says:

"I have both used and analized this beautiful and impalpable article, (Jones' Amber Tooth Paste,) and can recommend it as possessing all the qualities claimed for it." Reader, we can say no more to convince, only that if you try this once you will be well pleased.

It is put up in beautiful English China Pots, for 25 cents. Sold by the Agent, WM. JACKSON, 89 Liberty street, Pittsburgh. aug6:d&wT

☞ LADIES ARE CAUTIONED AGAINST USING COMMON PREPARED CHALK.

They are not aware how frightfully injurious it is to the skin! how coarse, how rough, how sallow, yellow, and unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of Lead!

We have prepared a beautiful vegetable article, which we call JONES' SPANISH LILY WHITE.

It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth. ☞ ERUPTIONS AND SKIN DISEASES.—JONES'S Italian Chemical Soap causes a free perspiration, and at the same time mollifies, softens, and whitens the skin, giving it the texture and beauty of an infant's.

Scurvy, Salt Rheum and Sores, are soon not only healed, but cured by its use, as at least seven Physicians in New York know, who use it in such cases, and find it unfailing—as also in

Pimples, Blotches, Freckles, or any other skin disease. The reader is assured that this is no useless puffed nostrum, as one trial will prove. I could enumerate at least 90 persons cured of

Sore Head, Sore Legs and Sore Beard.—Buy it, and use it, and the reader is again assured I would not cruelly sell it for the above unless I knew it to be all I state. Those who are liable to

Chafed, Cracked, or Chaped Flesh, will find this a cure. Any one afflicted with any of the above, or similar diseases, will find this all and even more (admirable in its properties) than I state.

But, reader, the stores are flooded with imitations, and be sure you ask for JONES'S Italian Chemical Soap. Sold by WM JACKSON, 89 Liberty street, Pittsburgh. aug6 d&wT

Facts for the Public.

In relation to that unrivalled family Salve,

DALLEY'S MAGICAL PAIN EXTRACTOR.

TESTIMONY of a respectable Physician.—Read the following, addressed to my Agent, Mr. F. Merryweather, Cincinnati.

Cincinnati, Feb. 12, 1849.

Sir: A sense of duty compels me to give my tribute to Dalley's Pain Extractor. Being opposed to quackery and all nostrums having for their object sinister motives—but realizing much good from the "King of Pain Killers"—I am induced to tender you this certificate. I have used it in my family, in my practice, and with all the happy and wonderful effects that could possibly be imagined. H. J. Brodie, M. D.

Dr. Brodie is the senior partner of Brodie & Levi, Druggists.

Inflammatory Rheumatism.

The following testimonial comes from a source familiar to many of those traveling on our Western waters. Mr. Glime, the well and favorably known proprietor of the Parkersburg Hotel, is husband to the lady whose letter I annex.

Parkersburg, Va., April 13, 1849.

To Henry Dalley, Chemist, &c.—Sir: Having formerly been long afflicted with violent inflammatory Rheumatism which appeared so firmly seated as to defy all ordinary appliances to allay the severe pain attending it, I was induced to try your Magical Pain Extractor; and it having effected, almost as if by magic, an immediate relief, and also, to all appearances an entire and perfect cure. I am induced for the benefit of others who may be affected with pain, caused by any kind of inflammation, to write to you, declaring that in my opinion, founded on actual experience, your Magical Pain Extractor is the most valuable discovery of the present age for the immediate extraction of bodily pain. It is an almost immediate and a perfect cure for Burns and Scalds, and all external inflammation.

Having many acquaintances formed by their visits at my husband's hotel in this place, I have supposed by your showing them these few lines, it may possibly be of benefit both to them and yourself.

Elizabeth Glime.

[I entertain the hope that Mrs. Glime will pardon the publicity I give to her letter, as well on the score of humanity as of its being the surest mode of bringing it to the notice of her friends.—H. Dalley.]

Extract of a letter, dated

Belmont, Ky. Nov. 29, 1848.

Mr. H. Dalley. "I have tried your Pain Extractor in a case of felon, in my own family, which it relieved and cured in a very short time." In haste, yours respectfully, Jas. M. Young.

☞ Burns and Scalds, Piles, Sore Nipples, Broken Breast, Eruptions, Sores, Cuts, Wounds, and all inflammation, yields readily to the wonderful properties of this unrivalled family salve. But, in the same proportion that you will receive benefit from the genuine, you will be injured by the deleterious effects of the counterfeit salves.

CAUTION.—Be sure and apply *only* to the inventor, H. Dalley, 415 Broadway, New York, or to his authorized agents. JOHN D MORGAN,

General Depot, Pittsburgh

Henry P. Schwartz, Allegheny, Agent; J. Baker, Wheeling, Va.; James W. Johnson, Maysville, Ky.; F. Merryweather, Cincinnati, O., General Depot.

N. B.—In the severest Burns and Scalds it extracts the pain in a few minutes—it never fails. oct4

Roofing.—Galvanized Tin Plates.

THE subscribers beg to call the attention of Builders, Architects and owners of Buildings, to the many advantages which these plates possess over all other metallic substances hitherto used for roofing, &c., as they possess at once the lightness of iron, without its liability to rust, having now been tested for several years in this particular, both in this country and in Europe. They are less liable to expansion and contraction [illegible]

Extension of the Baltimore and Ohio Rail Road.

PROPOSALS ARE INVITED FOR THE GRADUATION AND MASONRY of the part of this road not already under contract between Cumberland and the Tygart's Valley river—a distance of about 103 miles. The number of sections now to be let will be about 5-, of which 23 occur between Cumberland and the mouth of the Savage river—16 in the glades, and the remainder on Raccoon and Three Forks creeks.—The work will generally be moderate, although there are a number of sections worth the attention of contractors accustomed to heavy jobs.

Specifications and plans will be ready at Cumberland, on and after the 27th of August current. The proposals, addressed to the undersigned, will be received at Cumberland, Maryland, up to Saturday the 15th of September inclusive. Further information may be had at the Company's Office in Cumberland. Full testimonials will be required from those unknown to the undersigned. By order of the President and Directors. BENJ. H. TO FARMERS AND LUMBERMEN.

THE undersigned offers for sale in M'Kean county Pa., 1800 acres of well timbered LAND, with an excellent Saw Mill nearly new, and two new Frame Houses, one 41 feet front by 47 back; the other 32 feet front by 21 back. Also, good new frame Barn, thirty by forty feet. The mill and land are situated four miles from the Allegheny river. A great deal of PINE TIMBER of the best quality, and also a vast quantity of the very best hemlock. Also, one acre on the bank of the Allegheny, near a cove, most admirably adapted for rafting, where lumber can be rafted on the ice in winter, and be perfectly safe from all freshets.—Price $9,000, or $5 an acre. Terms easy. Will take a well cleared small farm, with good house and orchard upon it, as part payment, if location is suitable, and the balance in lumber, or as may be agreed on. This is an excellent opportunity for lumbering; and the probability is great that in two or three years this property will double its value, in consequence of its proximity to the New York and Erie Railroad. Timber sufficient to wear out several saw mills—and several mill sites on the stream which runs nearly through the centre of the land. About fifteen acres in grass. No hill to rise in hauling lumber from mill to river. Trout and game in abundance. For further particulars, address, (post-paid,) P. B. TEMPLETON,
