REPORTED & TELEGRAPHED FOR THE PITTSBURGH DAILY GAZETTE Prom the Boston Journal. "Lake Superior Copper.?" stated, as will be seen by reference to the printed freport of my remarks, made at the meeting of the American Association for the advancement of Sciences, at Cambridge.

I would here birefly sum up my statement as made at Cambridge.

I endeavored to demonstrate that native Copper Mines hold proved valuable, and stated that the only one that had been opened to a sufficient depth had established the fact, beyond contestation; and romarked that there were other veins yet unwrought, that would probably prove nearly as valuable, and mentioned those which seemed the most promising. as they proceed in depth.

I stated that the working of native copper mines was a now business, not only in this country, but for Europe, and that it was impossible to predict with certainty the results of deep working; but that so far as experience had gone, on Lake Superior, it had proved that for the depth of a least 502 feet, the vein at the Chiff mine, on Eagle river, had carriched, and that they make a company of the country of the And the second of the second o
