ARRIVAL OF THE STEAMSHIP

EUROPA.

SEVEN DAYS LATER FROM EUROPE.

Sackville, New Brunswick, Wednesday Evening, Oct. 24.

The Europa arrived at Halifax to day, and left for Boston at one o'clock.

We have advices from Liverpool up to the 13th inst.

Excepting the excitement which prevails in the Cotton market, business has been inactive during the last week.

The Corn markets are firm with an advancing tendency, without, however, any extensive transactions.

A healthy state of trade prevails in and around Manchester.

The money market is liberally sustained and the rates for money easy.

Cotton—A good deal has been done in Mobile at 4½@6¼; 820 bales of New Zealand have been sold at 5½@11d. Committee's quotations, as declared at the meeting yesterday, are, for fair Orleans, 6¼; fair Upland Mobile, 6d; middling quality 5¼@5½. The stock on hand is 499,000 bales, including 319,000 bales of American, as against the stock of the same time last year, of 348,000 bales; of which 295,000 were American.

Grain Market—More firmness prevails in the grain market. Indian Corn is quoted at 28s@29s for White; 27@28s per quarter for Yellow.

Flour is not much altered in value. Western Canal and Philadelphia 23s 6d; New Western 19@21s; Ohio 24@25s. There is no Indian Meal in the market.

American cured provisions are in demand—The sales are large and reach to 100 tons, at 36s@36s 6d per cwt—a low price. Mess Pork is in demand at former rates, for shipping to Ireland—but little is doing in cheese.

At the quarterly meeting of the Iron Market, held at Birmingham on the 6th, it was determined to make no alteration in prices.

Havre advices of the 11th, state that the Cotton market is extremely animated—3000 bales sold at an advance of 2f.

The latest sales of American securities, U. S. loan of 1868, 103@105; Maryland, 1889, 87@88.—Penn's, 1870, 92.

Consols were quoted on Friday at 92½, and rose on Saturday to 92⅝.

TURKEY.

Pending the decision of the Czar upon the appeal made to him, respecting the extradition of the Hungarian refugees, and the English papers containing conflicting reports, concerning the issue.

Nothing definite can be arrived at until the resolution of the Emperor and his Imperial council be made known. The Emperor's reply was expected to reach the Turkish capital about the 10th or 12th of October.

Apprehending that the Czar's decision might be a declaration of war, the Porte was exceedingly impatient to learn the effect produced upon the cabinets at London and Paris, by the bearings of their representatives.

A large fleet of steamers is collecting in the waters of the Bosphorus and the harbor of the Golden Horn.

Between the entrance of the Black Sea, and Propontis in the Sea of Marmora, there are twelve ships of the line at anchor, fully equipped, plentifully provisioned, and strongly armed.

An army of 100,000 men is assembled around the Turkish Capital—they are reviewed from day break to dark. Letters dated 25th ult., state that before entering Turkey, the Turkish officers assured Kossuth, that he and his fellow refugees were welcome, and that they should be allowed to proceed to any part of the world that they pleased. A considerable number of the refugees have been put on board an American Corvette, and a French steamer, destined to sail for Greece.

An eloquent letter from Kossuth to Lord Palmerston, is published in the English Journals.—It appears from the news from Widden, that Ammillah had been sent there to urge the refugees to embrace Islamism and had not been unsuccessful. Kossuth, Guyon, Zemoriski, and others, swore that no person should induce them to apostacy; Bem, however, had no scruples.

The most unwelcome features in the news from Turkey are, that those Paschalics in Europe, who are partly Greek and partly Turkish, are in a state of foment, in consequence of the threatened rupture between Turkey and Russia, under the influence of Russian emissaries, (members of the Greek church) those vassals of the Sultan have betrayed serious intentions of taking advantage of the present opportunity to get up a revolt.

Great activity prevails in the tendency of couriers to and from the principal Courts of Europe; but the firmness of the public funds, allays apprehensions as to serious results.

FRANCE.

The Paris correspondent of the London Times, says "that a note has been addressed by the English government to its ambassador at St. Petersburgh, on the subject of the Turkish difficulty, couched in firm and moderate terms, and contains nothing calculated to wound the susceptibilities of Nicholas, but announces its determination to support the Porte against any exigency that would compromise the dignity of an independent government.

Lord Palmerston likewise sent proper instructions to Sir Stradford Canning, and placed the Mediterranean Fleet at his disposal. The French government has intimated that between it and the English Cabinet the most perfect unanimity exists.

In consequence of the illness of M. Fallaux, discussion on the Italian question, and the American and Turkish difficulties, has been postponed in the French Assembly.

The only allusions, made in any of the papers, received, to the difficulty between the French and American Governments, are the following, copied from the Paris Presse—"Some explanations of affairs are necessary. The French Government demanded an indemnity for losses caused to French subjects by the war in Mexico. This demand having met with some difficulty, the French Government charged our Minister to announce to the American Government, that the indemnities claimed would be kept out of the annuities not yet due, for which we were the debtors of the United States. It appears that the letters written on the subject, by M. Poussin, were couched in rather unsuitable language, of which the French Government, still maintaining the claim, has expressed its disapprobation."

ROME.

It is stated that the French Government intends to recall a portion of the army in the Pontifical States, and the Spaniards are to enter Rome.

It is reported that the Pope has taken alarm at the numerous assassinations which are committed in Rome, and believes that there is an extensive plot for his assassination, should he return.

SWITZERLAND.

Recent letters from Geneva, state that Garribaldi had some intentions of settling in the United States.

SARDINIA.

It is officially announced that the Legislative Chamber at Turin will be dissolved. Reports say that a formidable conspiracy had been discovered in Piedmont, which was to have broken out on the occasion of the landing of the body of Charles Albert.

AUSTRIA—HUNGARY.

It is rumored that the Hungarian refugees near Widden, the leaders excepted, had applied for leave to return within the Austrian territory, and that their request will be granted.

The statement that Georgy had been shot is contradicted.

The previous accounts of the surrender of Comorn are fully confirmed; not, however, until the patriots who held possession of the fortress had succeeded in making very favorable terms with Austria.

Several Hungarian ladies, besides Kossuth's mother and Georgy's wife, are kept in close confinement by the Austrian authorities.

WIRTEMBURGH.

The government has formally intimated to the Prussian Ministry that it will not join in the federal league proposed by Prussia.

HANOVER AND SAXONY.

Hanover has already announced its intention of withdrawing from the confederation.

SICILY.

The political affairs of Sicily have been nearly arranged. The Island is said to have an administration entirely distinct from that of Naples.

ENGLAND.

The papers have nearly ceased to chronicle the ravages of cholera.

IRELAND.

A faint effort has been made to revive the political agitations in this country. John O'Connell is said to be at the head of the movement.

NEW YORK MARKET.

New York, Oct. 25.

The steamer's news has unsettled the market.

EXTENSIVE ROBBERY IN BOSTON.

Boston, Oct. 25.

The Boston Union Wharf Company, Provincetown, was robbed of $20,000, on Tuesday night—the money stolen was principally in notes of the Fireman's Bank, Boston.

CINCINNATI MARKET.

Cincinnati, Oct. 25.

Flour—The market is quiet, but prices are firm.

Whiskey—Sales at 18¼@18½c per gall.

Bacon—Sales of 120 hhds. of Sides at 4½c, packed.

Groceries—The market is unchanged.

The river rose twelve inches since morning.

The offerings reached 2,000 head, of which 650 were sold to city butchers; 400 to packers; 100 were left over unsold, and 850 were driven to Philadelphia. Prices ranged from $1,50 to $3 on the hoof, equal to $3@5,75 net, and averaging $2,40 gross.

The Exports of Breadstuffs to Great Britain and Ireland during the past year appear large, and in quantity they are so, but in value the gain is small. For the year ending June 30, 1848, we sent to Great Britain and Ireland 952,744 bbls flour, 5,062,426 bushels corn, 221,600 bbls meal, and 1,531,949 bushels wheat, worth $12,255,245. For the year ending August 31, 1849, we shipped 1,114,016 bbls flour, 12,721,626 bushels corn, 85,355 bbls meal, 4,984,355 bushels wheat, which have probably not produced over $14,000,000. The difference in value, it will be readily seen, goes but a little way towards paying for increased importations, though the difference in quantity makes quite a flattering appearance.—Balt. Sun.

Collisions on the Lake—The steamer Fashion and the schooner Atlas came in collision near Erie last week. Both vessels considerably injured. The Fashion is undergoing repairs, and will be out in a few days. The collision is attributed to the carelessness of the officers of the Atlas, in not having a light at the customary place.

The Canadian schooner California, run into by the steamer Griffith, the Buffalo Commercial states, is ashore ten miles below Cleveland. She was loaded with 2,300 bbls flour, and is insured for $11,500 in the North Western Company. The flour will probably be saved in a damaged state.—Cleveland Herald.

LOCAL MATTERS.

REPORTED FOR THE PITTSBURGH DAILY GAZETTE

Ploughing Match.—We are pleased to learn that the ploughing match which comes off on the farm of Mr. Negley, at East Liberty, on Tuesday next, will be quite an interesting and exciting affair. We heard from Mr. Scott, of the Register's Office, yesterday, that there are fifteen ploughs already entered with him. We expect to see the best specimens of ploughing that we have witnessed for some time, and the largest crowd of spectators that has ever convened on such an occasion in this county. The whole operations of our Agricultural Society, so far, are big with auspicious promises for the future interests of our worthy farmers.

Quaker.—A quaker came into the Court of Quarter Sessions yesterday, whose dress was not like that of the generality of his sect, and who only differed from the outstanders in keeping his hat on. One of the constables, not knowing that he was a quaker, stepped up to him and politely requested him to take off his hat, when he very indignantly walked away, vowing that "this was no true Republic."

Man of the Court.—This singular genius. who regularly makes his appearance at every term of the criminal Court, and listens with great interest to the details of every suit, no matter how dull or unimportant, was seen for the first time this term, in his old station yesterday. We understand that his short absence was caused by indisposition, but have no doubt that he will, after this, stick to his post. The only change in his outward appearance is, that his old fur cap is supplied by a new head dress made of claret colored cloth.

A valuable catalogue of standard law books and choice London works is to be sold this evening at Davis' auction. It offers a rare chance for obtaining valuable law books.

Nuisance Case.—The case of the Commonwealth vs. Joseph Barker, Hugh Kirkland, and John Sharp, has, we understand, been postponed until next Monday. We learn from the Post, that Messrs. Forward, Eyster, and Barker, have been retained for the street preachers.

Court of Quarter Sessions.

October 25, 1849.

MORNING SESSION.

Present, Hon. Benjamin Patton, President, Judge and William Kerr, and Samuel Jones, Associate Judges.

The first case taken up was that of the Commonwealth vs. J. M. McCurdy, Surety of the Peace.

Wills for prosecution. Marshall for defence.—Case continued till next term.

Commonwealth vs. Hugh Garvey. Surety of the peace. This was a common case of quarreling between two neighbors. The testimoney in the case was rather amusing. One of the witnesses testified that the prosecutor had called her Judas Iscariot.

Each party was sentenced to pay his own costs, and the defendant to pay the docket costs.

Commonwealth vs. John Friezer and A. Zipp, Surety of the peace, on oath of Andrew Emma. Wills for prosecution. Appleton for defence. The Court after hearing the case, sentenced the prosecutor to pay the costs.

Elizabeth Wallace, who had brought a suit of Assault and Battery against a neighbor, was sentenced to pay the costs, the Grand Jury having ignored the bill.

Commonwealth vs. Enoch Dice and David Clements, Cross bills. Magraw for Clements Thomas Mellon for Dice. Both these cases were tried together as the Grand Jury had returned true bills. The quarrel arose about a flock of turkies belonging to Dice, which Clements alledgd were trespassing on his farm in Plum township. He went to Dice to tell him to take them away, when, as Clements swore, Dice caught him and choked, gouged, and kicked him.

Dice swore that the assault was commenced by Clements throwing a stone at him, and threatening him, when, to save himself he caught him and pushed him down. He denied the gouging and kicking. On cross examination it came out that the witness was not certain whether he hadn't "gouged" a little, but if he had, it was because his opponent had attempted to take "sich strong foul holts." Witnesses were examined who proved the good character of both parties. Mr. Alden spoke in defence of Dice, and when he concluded, the Court adjourned.

AFTERNOON SESSION.

Messrs. Magraw and Mellon spoke, the one in defence of Clements, the other for Dice, which case was not concluded when the Court adjourned this morning, and the Jury retired.

Commonwealth vs. Thomas Ryan. Indictment, Larceny; committed in stealing a velvet vest from a Mr. McCoomby. Plea, Guilty. The sentence was, that the prisoner restore the property stolen, if not already restored, pay the costs of prosecution, and stand committed to the county jail for the period of six calendar months.

Commonwealth vs. Thomas Ryan—Indictment, Larceny; committed in stealing a pair of pantaloons. The prosecution in this case not appearing the Jury brought in a verdict of Not Guilty.

Commonwealth vs. Hugh Hoy, alias John McCoy. Indictment, Larceny; committed in stealing a pair of shoes. When the prisoner was asked whether he was Guilty or not, he said "he did'nt know how it was." Having no counsel, the Court assigned him one.

Mr. Muldoon, sworn—Am a shoe maker. On the morning of the 6th of July, prisoner came into my shop—

The witness was proceeding with his statement, when the prosecuting attorney concluded not to offer the testimony, as he believed that the prisoner was slightly deranged.

When the Judge told the prisoner to stand up and asked him what his trade was, he said, blubbering like a school boy, "a baker, your lordship. I lived for seven years in Ohio, your lordship, and had a difficulty with my wife and went to Mexico, your lordship, and fought the battles of my country your lordship. The Judge told him that he might go, and advised him to seek some employment.—Thank your lordship, said poor Hoy, and off he walked.

Commonwealth vs. Anne Whitney. Surety of the peace, on oath of Nancy Bolier, Mrs. Whitney's mother. Drunkenness seemed to be the fault of both parties, and as Mr. Whitney had been imprisoned for some months, not having been able to procure bail, she was discharged after receiving an admonition to behave better in future, and not go near her mother, unless the latter requested her.

"There is but a step from the sublime to the ridiculous," and poor old Mrs. Bolier fully exemplifies this, for she spoke in the same breath of her daughters, breaking her heart and her dishes, and threatening to burn her house, and actually setting fire to her cap.

The Court then adjourned to meet this morning at 9 o'clock.

ATTENTION BUILDERS.

AND OWNERS OF REAL ESTATE AND SPECULATORS, TO LICKENTHALER'S PATENT WINDOW APPARATUS.—A gentleman of Philadelphia, who holds from the patentee the right for the State of Pennsylvania, has entrusted to the undersigned the disposal of the right for the western part of the same. The invention is among the most useful of the age, enabling one to open, shut, bow, and bolt the windows from the inside, without raising the sash. The apparatus supplies the place of turnbuckles, rings, staples, and lower hinges. When the windows are nearly shut, they cannot be opened from the outside; when lowered, they are fast without tying; when open, they are fast without turn-buckles. Those interested in building improvements, should call at once and examine the model. LYND McGOFFIN,

ROUSSEL'S AROMATICK VINEGAR.—The highly sanatory, balsamic and tonic properties of this Vinegar render it far superior to Cologne water for the ordinary purposes of the toilet, surpassing the latter in its perfume. It prevents and removes pimples, tetter and asperity of the skin, it refreshes and whitens the skin, rendering it soft and smooth. It corrects the clammy and bitter taste of the mouth, imparting a fresh and pleasant breath. It cleanses and whitens the teeth, and hardens the gums. For all the above purposes, it is used with water in such proportion as may be found most agreeable. By inhaling it and rubbing it on the temples, it will remove headache. If applied instantly to a burn or bruise, it will eventually prevent mortification. It corrects vitiated air, and guaranties from contagion; it is therefore very useful for purifing and perfuming apartments. For sale by

The proposals may be divided into four parts, viz:
1st. Blankets.
2d. Dry Goods.
3d. Hardware, to include agricultural implements, &c.
4th. Northwest guns.

The lowest competent responsible bidder will receive the whole or any part of the contract according to the above scale, the Department reserving to itself the right to determine whether the bidder is competent and responsible, or not.

The whole amount in money to be applied to the purchase of goods will be about $90,000, but the Department reserves the right to increase or diminish the quantity of any of the articles named, or substitute others in lieu thereof, or to require, at similar prices, such as may be wanted for presents or other purposes, in the administration of the affairs of the Department.—Goods of American manufacture, all other things being equal, will be preferred; but as all the samples of blankets and cloths are of foreign manufacture, it will be necessary when a domestic article is bid for, that a sample of it should accompany the bid, to enable the Department to decide whether it is of equal quality with the samples to be exhibited.

The party proposing to supply the articles will make an invoice of all the items embraced in the above list, and affix the prices, in dollars and cents, at which he or they will furnish them, deliverable in New York, (or if the contractor prefers it, about one-half of the quantity may be delivered in St. Louis, Missouri, free of expense to the Government,) on or before the 15th day of May next, assuming the quantity of each article as specified in this advertisement, and extending the cost, making an aggregate of the whole invoice constituting the bid. The goods will be inspected in New York, (and in St. Louis, if any portion of them should be delivered there,) by an agent of the United States, who will be appointed by the Department for the purpose, and to ascertain the conformity of the articles purchased with the samples exhibited, when the contract shall be made, and with the terms of the contract itself, which shall contain a clause that if the articles are not furnished within the time prescribed, or if they are of insufficient quality in the opinion of the agent aforesaid, and if within five days after notice of such insufficiency the party shall not furnish others in lieu thereof of the required quality, the United States shall be authorized to purchase them of others, and to charge any increase of price they may be compelled to pay therefor, to the contractor, who shall pay the said difference to the United States.

Bonds will be required, in the amount of the bids, with two good sureties, the sufficiency of whom to be certified by a United States Judge or District Attorney, for the faithful performance of the contracts. Payment will be made after the contract is completed and the delivery of the goods as aforesaid to an agent of the Department, upon a duplicate invoice certified by him.

Communications to be marked "Proposals for Indian goods."

The bids will be submitted with the following heading, and none will be received that are not made in the form and terms here prescribed:

"I (or we) propose to furnish for the service of the Indian Department the following goods, at the prices affixed to them respectively, viz:

(Here insert the list of goods.)

Deliverable in the city of New York (or St. Louis) on or before the — day of —— next; and in case of the acceptance of his proposals, the quantity being prescribed by the Department, I (or we) will execute a contract according to this agreement, and give satisfactory security to the Department within ten days after the acceptance of this bid; and in case of failure to enter into such contract, and give such security, I (or we) will pay to the United States the difference between the sums bidden by me (or us,) and the sum which the United States may be obliged to pay for the same articles."

Each and every bid must also be accompanied with a guaranty in the following form, to be signed by one or more responsible persons, whose sufficiency must be certified by some one who is known to the Department, either personally or by his official position.

"I (or we) hereby guaranty that ——, the above bidder, will comply with the terms of the advertisement for 'proposals for Indian goods,' dated 29th September, 1849, if the contract should be awarded to him, and enter into bond for the execution of the same within the time prescribed."

Roofing.—Galvanized Tin Plates.

THE subscribers beg to call the attention of Builders, Architects and owners of Buildings, to the many advantages which these plates possess over all other metallic substances hitherto used for roofing, &c., as they possess at once the lightness of iron, without its liability to rust, having now been tested for several years in this particular, both in this country and in Europe. They are less liable to expansion and contraction from sudden change of the atmosphere, than common tin plates, iron, zinc, or any other metal now used for roofing, and consequently form a much better and tighter roof; requiring far less frequent repairs, whilst the first cost is but a trifle more.

A full supply, of all sizes, from 16 to 30 W. G., constantly on hand and for sale by

GEO. B. MOREWOOD & CO.,

RUST PROOF IRON.

THE undersigned have erected works in the city of New York, for the purpose of Galvanizing all articles of Iron, which it is desirable to PROTECT FROM RUST, such as Telegraph Wire, Bolts, Spikes, Nails, Wire for Fences, and any other article which may be required. For Hoops for Casks, as a substitute for bale Rope; for Clothes Lines, Lightning Rods, and a host of other applications, it will be found cheap and durable. They would particularly call attention to the Galvanized Wire for fences; it requires no paint, and will not rust. Also to Spikes and Bolts, the preservation of which is of so much importance, that it will commend itself to the notice of all those interested.

☞ Eruptions and Skin Diseases.—JONES'S Italian Chemical Soap causes a free perspiration, and at the same time mollifies, softens, and whitens the skin, giving it the texture and beauty of an infant's.

Scurvy, Salt Rheum and Sores, are soon not only healed, but cured by its use, as at least seven Physicians in New York know, who use it in such cases, and find it unfailing—as also in

Pimples, Blotches, Freckles, or any other skin disease. The reader is assured that this is no useless puffed nostrum, as one trial will prove. I could enumerate at least 80 persons cured of

Sore Head, Sore Legs and Sore Beard.—Buy it, and use it, and the reader is again assured I would not cruelly sell it for the above unless I knew it to be all I state. Those who are liable to

Chafed, Cracked, or Chaped Flesh, will find this a cure. Any one afflicted with any of the above, or similar diseases, will find this all and even more (admirable in its properties) than I state.

But, reader, the stores are flooded with imitations, and be sure you ask for JONES'S Italian Chemical Soap. Sold by WM. JACKSON, 89 Liberty street, Pittsburgh. aug6:d&wT

☞ The Slime of a Vile Reptile is not more repulsive than a bad, putrid breath, or dark, yellow diseased teeth. If persons have these it is their own fault—they can, for two shillings, buy an article that will make their breath pure and sweet as *the Spicy Air of Arabia.*

It cures diseases of the Gums, spungy or ulcerated, and for the Teeth it is unequalled, removing the tartar, fastening the teeth in the gums, and clean them as white as the *snow of the frozen North.*

Such, reader, are the properties of Jones's Amber Tooth Paste, and, without praising it ourselves, hear what one of our most respectable and scientific Dentists, Mr. E. Field, of New York, says:

"I have both used and analized this beautiful and impalpable article, (Jones' Amber Tooth Paste,) and can recommend it as possessing all the qualities claimed for it." Reader, we can say no more to convince, only that if you try this once you will be well pleased. It is put up in beautiful English China Pots, for 25 cents. Sold by the Agent, WM. JACKSON, 89 Liberty street, Pittsburgh. aug6:d&wT

☞ All Good Citizens are honorably assured that the following are the actual qualities of a 3s. bottle of Jones's Coral Hair Restorative. If they doubt our word, they cannot these highly respectable citizens who have tried it:—

Mr. Geo. Becket, 41 Elm st, New York.
Mrs. Matilda Reeves, Myrtle av, Brooklyn.
Mr. Wm. Tompkins, 92 King st, New York.
Mr. Thos. Jackson, Montours Island, near Pittsburgh
H. E. Cullen, late barber steamboat S. America.

And more than a hundred others state, though this must suffice, that it will force the hair to grow on the head or face, stop it falling off, strengthen the roots, removing scurf and dandruff from the roots, making light, red, or gray hair assume a fine dark look, and keeping dry, harsh or wiry hair moist, soft, clean and beautiful, a very, very long time.

Sold by the Agent, WM. JACKSON, 89 Liberty st, Pittsburgh. Price 37½, 50 cents, and one dollar.

aug6:d&wT

☞ LADIES ARE CAUTIONED AGAINST USING COMMON PREPARED CHALK.

They are not aware how frightfully injurious it is to the skin! how coarse, how rough, how sallow, yellow, and unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of Lead!

We have prepared a beautiful vegetable article, which we call JONES'S SPANISH LILY WHITE.

It is perfecly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white; at the same time acting as a cosmetic on the skin, making it soft and smooth. Sold by the Agent, WM. JACKSON, 89 Liberty st, Pittsburgh. Price 25 cents. aug7:d&wT

MEDICAL & SURGICAL OFFICE,
No. 65, DIAMOND ALLEY, a few doors below Wood street, to market.

DR. BROWN, having been regularly educated to the medical profession, and been for some time in general practice, now confines his attention to the treatment of those private and delicate complaints for which his opportunities and experience peculiarly qualify him. 11 years assiduously devoted to study & treatment of those complaints, (during which time he has had more practice and has cured more patients than can ever fall to the lot of any private practitioner) amply qualifies him to offer assurances of speedy, permanent, and satisfactory cure to all afflicted with delicate diseases, and all diseases arising therefrom.

Dr. Brown would inform those afflicted with private diseases which have become chronic by time or aggravated by the use of any of the common nostrums of the day, that their complaints can be radically and thoroughly cured; he having given his careful attention to the treatment of such cases, and succeeded in hundreds of instances in curing persons of inflammation of the neck of the bladder, and kindred diseases which often result from those cases where others have consigned them to hopeless despair. He particularly invites such as have been long and unsuccessfully treated by others to consult him; when every satisfaction will be given them, and their cases treated in a careful, thorough and intelligent manner, pointed out by a long experience study, and investigation, which it is impossible for those engaged in general practice of medicine to give an one class of disease.

☞ Hernia or Rupture.—Dr. Brown also invites persons afflicted with Hernia to call, as he has paid particular attention to this disease.

CANCERS also cured.

Skin diseases; also Piles, Palsy, etc., speedily cured Charges very low.
