It is a German translation, brought out in this country through Dr. Baird, of Dickinson College. It embraces all the branches of human knowledge, which can be illustrated by granged in strictly systematic order, on 500 large quarto steel plates, and are accompanied by lette press, printed in the finest style. The work is published in 25 parts, each containing 20 plates, with 80 pages of letter press. Each number is en-veloped in a nest portfolio. Both of these works can be had at Mr. Lockwood's, on Wood street.

P. Brown, late Democratic candidate for Door Kaeper of the House of Representatives, and a Captain Naglee were implicated, and in which Capt. Some inaccuracy having occurred in the statement of "Junius," we publish the following statement an lesters from the Dispatch, at Capt. Naylor's request The facts in the statement were furnished the editor of the Dispatch by Capt. Naylor himself.
