ing it punctually and well, and would be ashamed to be told whath cought to do with-ont telling. The drawling bey loses in fire minutes the most important advice; the prompt, wide-awaic boy never has to be targht twice, but strains hard to make him-self up to the mark, as far as possible, out of his own energies. Third-rate boys are always depending on others, but first-rate boys depend upon themselves, and after a little teaching, just enough to know what is to be done, they ask no further favors of anybody. Besides, it is a glorious thing for a boy to get this noble-way of self-reliance, activity and energy. Such an one is worth a bun-dred of the poor, draggling creatures who can hardly wash their own hands, without being told each time how it is done. Give me the boy who will do his own work promptly and well, without asking, except moce for all, at the beginning, any question ; the boy who hash is wits about him, is new-er behind-hand, and don't let the grass gree under his heals. - Cated.
