### Antimasonic and Whig County Convention.

In pursuance of the call of the Chairman, the Whig and Antimasonic County Committee of Correspondence met at the Court House. The following resolution was adopted, to wit:—

"Resolved, That the Whig and Antimasonic voters of the several Election Districts of Allegheny County be and they are hereby requested to meet at their usual places for holding elections, on Saturday, the 1st day of June next, then and there to elect two delegates to the County Convention to be held at the Court House, on Wednesday, the 5th day of June, at 11 o'clock, A. M. Said Convention to make the usual and necessary nominations for the ensuing October Elections, and also to appoint five delegates to represent the County in the State Convention to be held in the city of Philadelphia, on Wednesday, the 12th day of June."

The primary meetings in the Townships to be held between the hours of 5 and 7 o'clock, and those in the Wards and Boroughs between the hours of seven and nine o'clock, P. M.

A. HILANDS, Chairman.

JNO. E. FAHS,
ALEX. FRANKLIN, } Secretaries.
THOS. BYERLY,

Pittsburgh, April 10, 1850.

We understand that Hon. Thomas Ewing, Associate Justice of the United States Circuit Court, of the Western District of Pennsylvania, has resigned his office. He has filled this situation for a number of years, with acceptability.

The *Sun*, yesterday, made a lame attempt to apologize for the actors in the late riots. He might, on the same principle, apologize for theft, murder, robbery, and every other crime which injures and disgraces society. The sin of riot is even greater than these, in some respects, as it involves a whole community, and brings disgrace upon its citizens, and ruin upon its business. It has become imperatively necessary for the safety and peace of this community, that rioters should be treated with strict justice.

Good News.—We are gratified to learn that the Pittsburgh Railroad Bonds have been disposed of in New York, on very satisfactory terms, so that there will be no want of money to prosecute the work on the section of the Ohio and Pennsylvania Railroad between this city and Beaver. Contractors, with these prospects before them, will have every encouragement to bid low for the work. Gen. Robinson, whose successful negotiation has brought about this pleasing result, will, we presume, be home in a few days, and will indefatigably push on the great work he has in hand.

Apportionment Bill—Governor's Veto.—We are gratified to learn, by telegraph, that Gov. Johnston had interposed the veto to preserve the State from the consequences of the iniquitous legislation of the Locofoco majority. We expected this at his hands, and have not been disappointed. He will be most triumphantly sustained by an indignant people, not by the Whigs alone, but by persons of all parties; for no honest man, let his politics be what they may, can approve of such unjust legislation. If such a bill could be permitted to pass, without rebuke, the days of republican honesty, simplicity, and justice, would be numbered.

A great indignation meeting was held in Harrisburgh, on the passage of the bill, and among the resolutions adopted was the following, which states some of the most flagrant outrages attempted by this bill.

*Resolved*, That in apportioning the members of the House of Representatives among the various counties, the same marked injustice is manifested as in the case of Senators, and a system of gerrymandering has been adopted, by which, in the ordinary state of political parties, those who have framed the bill, have secured to themselves sixty-eight members, and left for their political opponents a possible chance of electing thirty two members; and this by the most palpable injustice.

1. The sixty eight Locofoco members are so arranged that they will be elected by a taxable population of 301,391, whilst the thirty two Whig members will be elected by a taxable population of 189,339: by which it will appear that the former will represent an average taxable population of 4,498, and the latter an average taxable population of 5,948; making a difference in the average throughout the State of fourteen hundred and fifty, which could not be but by *design*.

2. The county of Fayette, with a taxable population of 7,011 has two members of the House of Representatives, whilst the county of Dauphin, with a taxable population of 7,653, (honestly taken) has but one, and the county of Erie, with 9,434 taxables but one, while the counties of Columbia and Sullivan with 7,490 taxables have two members!

3. The county of Westmoreland with 11,618 taxables has three Representatives, while the county of Schuylkill, with 12,567 taxables has but two!

4. Allegheny county, with 23,517 taxables has but five members, while Berks with 16,252 taxables has *four*, having a fraction of only 1661 over the ratio for *three* members, and Allegheny 4222 over the ratio for *five*.

A committee was appointed by the meeting to wait upon the Governor, and present the resolutions to him. This duty was performed, and his excellency frankly informed the committee that he could not, with his views of the responsibility imposed upon him by the people of the State, and his regard for the Constitution he had sworn to support, give his sanction to a bill which so palpably violated the principles of equal representation.

What the Locofoco majority will do in this emergency remains to be seen. They can never commit so great an outrage upon the rights of the people as they contemplate, while we have an honest and independent Whig Governor at the helm of State. If they will not give us a fair and equitable bill, none at all can be passed. It is not probable, under the circumstances, that they can adjourn on the 15th.

### The Disunion Feeling.

The National Intelligencer has, with great perseverance and industry, continued to gather up, from week to week, evidences of public opinion in the South and Southwest, in relation to disunion, and the contemplated Nashville Convention.—These evidences show conclusively that the large majority of the Southern people are averse to the Nashville Convention, or to any movements favoring secession.

The course of the Intelligencer is, patriotic, and proper, as it is—annoys the Washington Union, and that paper has repeatedly assailed the Intelligencer for publishing this mass of evidence, and has lately, in very desperation, come out in favor of the Nashville Convention. On last Monday the Intelligencer replied to the Union, and administered to Mr. Ritchie a withering rebuke, which we charitably hope will bring that veteran editor back again to his allegiance to the United States.

Among other things, the Union says, it could furnish a mass of evidence ten times greater in favor of the disunion projects, than the Intelligencer could against them. To this the latter paper replies as follows:—

"To this it would be a sufficient reply, on our part, that we have not copied a tenth part, no, nor a twentieth part, of the demonstrations which we have seen in the Southern papers in support of the Union under all circumstances; nor do we believe that the Press in the South is up to the patriotic sentiment of the people. This would be a sufficient answer for us to give. But we have another: we challenge the "Union" to publish a list of the papers, in the fifteen Southern States, which approve of the Nashville Convention, and we will cap it with a list of five times as many papers in the South, which condemn or discountenance it."

The Intelligencer then calls to Mr. Ritchie's recollection that it has been a noted cry of the Richmond Enquirer, on the eve of an election in Virginia, "As goes Albemarle, so goes the State." Well! the issue has been made up and tried in Albemarle, and *Albemarle, County has gone—against the Nashville Convention*. The proposition to send delegates to the Nashville Convention was voted down by a majority of not quite two to one, in that county, most of the large slaveholders being against the Convention.

We hope the Intelligencer will keep up this vigorous war against the disunionists, until they hide their heads for very shame at the paucity of their numbers, and the weakness of their cause. Although the faction is already powerless it deserves no quarter. It is too serious an offence to be passed over lightly.

### The Election on Tuesday.

The Election on Tuesday.—By some singular coincidence, none of the papers of the city yesterday contained the result of the election held the previous day for delegates to the Nashville Convention. Indeed, the election passed off so quietly, that not only did we forget it, but it escaped even our sharp sighted news collector. The vote stood as follows:—

| | |
|---|---|
| Hon. James Hamilton Couper | 414 |
| Hon. George M. Troup | 432 |
| Hon. William C. Daniel (Alternate) | 428 |
| Whole vote, 432. | |

The usual vote polled in the county ranges from fifteen hundred to sixteen hundred.—[Savannah Republican, April 4.

The election in this city was rather a thin affair. The nominees received 115 votes!

In Bolivia county, we are informed, there were 47 votes polled.

In Columbia county, we learn, that no election was held.

If the other counties in the District have done as well, we imagine that the nominees will feel some delicacy in making their appearance in Nashville. The farce is over, however, and we shall soon have the result. We hope the Governor will publish the number of voters.—[Augusta Chronicle, April 4.

### The Boundary Survey.

The Commissioners and Surveyors, to run the boundary line between the United States and Mexico, under the provisions of the Treaty of Guadaloupe Hidalgo, met at San Diego on the 15th ult., and agreed to suspend operations till Nov. next, when they are to meet at Paso del Norte. The reason for so doing are that no grass, consequence of the drought, is to be found on the route between San Francisco, and San Diego. Col. Weller accompanied Mr. Bee. Col. Weller acted as the California agent of the Texas Commissioner, and will return to San Francisco, and Gen. Condy continue to act as the Texas Commissioner.—[Boston Atlas.

The Mexicans intend to erect monuments, consisting of marble and slab of cast iron, about 10 feet square at the base, and ten feet high, to weigh 4,000 lbs. The first marker was to be erected at the beginning of the line on the Pacific, and so to have the following inscriptions:—On the side toward the Pacific—"The initial point of boundary between the United States and Mexico, established by the joint Commission, 10th of October, A. D. 1849, agreeably to the treaty dated at the city of Guadaloupe Hidalgo, Feb. 2, A. D. 1848."

JOHN B. WELLER, U. S. Commissioner.
ANDREW B. GRAY, U. S. Surveyor."

Under this, the same inscription will be put in Spanish, signed by the names of the Mexican Commissioner, Pedro Garcia Conde, and the Surveyor, Jose Salazar Ylarregui. The face toward the north is to bear the words "United States of America," with an arrow cut beneath it, and the words "Direction of the Line;" the southern face has "Republica Mexicana," the arrow and "Direccion de la Linea." On the eastern side is inscribed:—

"North latitude 32° 31m. 59s. 53. Longitude 116. 58m. 21s. 1 W., of Greenwich, as determined by Wm. H. Emory, on the part of the United States, and Jose Salazar y Ylarregui, on the part of Mexico."

The other marble monument will be placed near the mouth of the Gila, with similar inscriptions, and the iron ones, (which are to be made in this country) will be at intervals between them.

Dying Words of Mr. Calhoun.—An extract to report of the last hours of Mr. Calhoun, in the Charleston Mercury, states that a few hours before his death, he uttered the following remark:

"I cannot avoid thinking of the political affairs of the country. If I could have but one hour to speak in the Senate, I could do more good than on any previous occasion of my life."

Mr. John C. King, a senator of Washington, has just completed a bust, in marble, of the Hon. Daniel Webster, which is said to be a very truthful representation of the gentleman.

The annual report of the Board Health shows that the total number of deaths, in New Orleans, during the year 1849 was 2,963; of which 2,173 were from cholera; and 769 from yellow fever.

## FROM WASHINGTON.

Correspondence of the Pittsburgh Gazette.

Washington, April 6, 1850.

### The Investigation—Slavery and Population in New Mexico—Wheeling Bridge—Mason, of Virginia, Calhoun's Successor—His Debut in that Character.

The investigating committee had a meeting yesterday, and, it is reported, came to some understanding as to the mode of proceeding. One allegation of which they will probably take cognizance is, that the arrangement by which Mr. Crawford received the larger portion of the amount paid, was made subsequent to the delivering of the Attorney General's opinion, deciding that the claim for interest was valid and legal. I hear it stated that the committee have taken measures to procure the correspondence relating to this part of the affair. The investigation promises to be a long one;—it is not improbable that many other matters referring to transactions under past administrations, may be enquired into.

Mr. Spaulding, of Buffalo, N. Y., made an excellent speech in the House on Thursday last, upon California and kindred topics. I allude to it now, because in the course of his remarks, Mr. S. introduced a correspondence with Hugh N. Smith, Esq., delegate from New Mexico, which has an important bearing upon the question of Slavery in that territory—Mr. Smith says it cannot exist there to any extent, on account of the cheapness of labor, the soil, climate, and elevation of the region in question, the want of pursuits congenial to the institution, and the facility with which slaves could escape into Mexico. He says a regular census was taken two years ago, from which there is the best reason to believe that the population amounts to between ninety and one hundred thousand, of whom about fifteen hundred are voting Americans, who have emigrated there from the old States.

I had a conversation this morning with Mr. Walker respecting the decision of the Supreme Court on the Wheeling Bridge case. Mr. W. has no knowledge as to when a decision may be expected, and of course can only speculate upon the character of it, when it shall be given.

Mr. Mason, of Virginia, has set himself up, as leader of the extreme southern party, in place of Mr. Calhoun. His attitude, yesterday, was that of a man who was determined that his adversary shall not agree with them. His object seems to be to declare the dissolution of the Union inevitable, unless concessions be made to slavery which he knows cannot be made. This was Mr. Calhoun's policy. Mason followed the example of his great predecessor, when he declared, yesterday, in substance, that the Union must fall if California be admitted with her present boundaries. He would not even listen to any proposition of compromise based upon this condition. He required not only that the measures sought by him to be necessary for the security and extension of slavery should be passed upon before the bill for the admission of the new State were considered, but that a part of her territory on the south should be cut off and reserved for the formation of a slave State. There can be but one object in advancing pretensions so audacious. It is to render a peaceable arrangement and an amicable settlement of the pending question impossible. Mr. Mason announced that four States were already prepared for secession in the contingency described by him. They were Virginia, South Carolina, Georgia, and Mississippi. Great and noble States they are, great in personal power, when constitutionally and lawfully exercised, and the three first noble in historical renown, but wretchedly imbecile and contemptible would they appear standing isolated from their sixth sister, and outcasts almost of humanity, but ailing with the freest republic that now lives ever has been, for the privilege of blighting and polluting other lands with slavery! Why the ranksmen of such infamy "smells to heaven," and the very naming of such a purpose should brand the man proposing it with reprobation.

JUNIUS.

### Death from a Newspaper Attack.

Death from a Newspaper Attack.—The Cleveland Herald mentions the death of Dr. Samuel Strong, of Elyria, after a short illness, the exciting cause of which arose from an attack upon his character in the Courier newspaper, published at that place.

Report of Sir John Franklin's Safety.—The New York Commercial, of Saturday evening, publishes the following for what it is worth, from a Mr. Randall in his brother in New York, a fur trader, which, being the latest news from the quarter it refers to, it does not feel at liberty to withhold:

"St. Paul, Minnesota, }
March 12. }

"A dog train arrived here yesterday, from some distance above Lake Superior, bringing news that an American vessel had been seen by some of the Indians and had sent letters saying that Sir John Franklin was found. The particulars I cannot learn. However, they say he is safe."

The dog train, mentioned some days ago as having arrived at St. Paul, was from Selkirk settlement, which lies quite in another direction from Lake Superior.

Lieut. M. F. Maury, of the National Observatory, at Washington, has addressed a letter to the National Intelligencer, under date of April 1, on the subject of the return of the great Comet of 1264, which is supposed to have returned in 1556, and which is expected to reappear about this time. Lieut. M. says that Messrs. Barber and Hind, of England, who have expended a vast amount of labor in calculating the return of this comet, think it a possible that it may be retarded by Saturn, Uranus, and Neptune, till 1851. The Baltimore Clipper has had the Rev. Mr. Jenkins, of Georgetown College, who sailed from Baltimore, in October last, for the benefit of his health, write to Prof. Curley, that on the 28th of Nov. at 7½ P. M., (no latitude or longitude given) he saw distinctly a comet to westward, nearly in the track of the sun, and about 14 degrees above the horizon, as measured with the quadrant; the nucleus very distinct, and about as large in appearance as Mars, the tail curved and pointed towards the south, (S. W.) quite bright, and nearly a degree in length, as visible to the naked eye, but much larger when viewed with the spy-glass. It was seen by all the crew for twenty minutes, when a cloud intercepted it, and it never more was seen.

### From the Sandwich Islands.

We have Honolulu papers to the 26th of January, inclusive.

The Polynesian of that date, mentioning that the mortality of the islands is about 8 per cent—in a population of 80,641, the deaths according to the last census exceeded the births by 6,465—says that the mortality is not owing to the introduction of disease by foreign sailors, and adduces in proof that the mortality has been greatest at Lahaina, where foreign vessels scarcely ever touch.

On the 25th of January, the King gave an audience to the United States Consul, the officers of the United States schooner Ewing, and others of the U. S. navy.

The islands are henceforth to have a monthly sealed mail direct from the London post office.

The Polynesian continues to comment with severity upon Mr. Ten Eyck's conduct.

A regular line of schooners was about to be established between Honolulu and San Francisco, by Macondary & Co., of the latter place.

At the January term of the Superior Court, 3 persons—Henry Cottrell, F. Howland, and James D. Dykes—were tried for aiding in the escape of the American whale ship Dover. The jury decided that the case was out of Hawaiian jurisdiction. The prisoners were handed over to the American Consul for transmission to the U. States.

The 31st of December was observed as a national thanksgiving day, by proclamation of the King. The children of the schools assembled, and there were other festivities.

A severe gale visited the different Islands of the Pacific on the night of the 16th of December last. At Maui, 50 houses were blown down, 25 at Waihee, and a like proportion all around. The trees have been stripped, and look like winter. It was equally severe at Kohala.

At Maui, on the 17th, a final quake was experienced. In Kula and Hamakua, seven or eight school houses, and some of them large and valuable, used occasionally as places of worship, were destroyed. The meeting house being old and weak, was prostrated with the rest of them. The houses of the natives, which were old, have disappeared.

The schooner Chance was sold at auction, in Honolulu, for $3,615. She was of 150 tons burden.

A grand compliment'ry ball was given, on the 21st inst., to Capt. Geo. Nye, of the ship Sarah Sheaf, on his departure for China.

Dr. Hawks, formerly rector of Christ Church, New Orleans, has announced his intention of emigrating to California, and has given his New York Congregation notice to that effect.

The prize of $1200, offered by the International Art Union, has been awarded by the Academy of Design to Mr. Alexander H. Rutherford.

We learn from the California correspondence of the New Orleans True Delta, that there were six vessels in San Francisco from the 1st of last November to the 28th of January, a little more than two months, most of which were American.

The hospitalities of New Orleans have been tendered by the Mayor and General Council, to the distinguished visitor, Father Mathew; but the Governor understands that he will remain the guest of the Reverend Mr. Mullon while sojourning there.

California Emigrants.—According to a recent order of the Grenadian Government, published through its charge d'affaires and consuls, persons sailing from the United States, en route to California, via Nicaragua and Panama, are required to procure passports. This order cannot but cause much annoyance.

John M. Barrett, Esq., who was arrested in South Carolina, on suspicion of being opposed to slavery, and subsequently released on bail, died at Dublin, Indiana, on the 25th. The Newberry Courier says, he died of a disease brought on by long confinement within the damp and unwholesome walls of a Southern prison.

Horrible Depravity of a Child.—A girl only thirteen years of age, named Ann Tinker, was sent to the House of Refuge, in Philadelphia, on Friday, for poisoning the family of Mr. Samuel H. Gillingham. Mrs. Gillingham and her two children were taken dangerously ill, after eating some mashed potatoes; and finding a paper of white powder in the girl's pocket, she was questioned, and finally confessed that she had deserted to kill the two children because they offended her on the previous day.

☞ Triumphant testimony to the value of Dr. McLane's Vermifuge.—Read, all that follows:

"A ferret, when placed at the entrance of a rat hole, enters the aperture, travels along the passage, seizes upon the rat, exterminates his existence, and drags the animal's defunct carcass to the light. And in like manner have I found Dr. McLane's American Vermifuge to operate upon worms, those dreadful and dangerous tormentors of children. This remedy, like the ferret, enters the aperture of the mouth, travels every passage until it reaches the stomach, lays hold of the worms, shakes the life out of the reptiles, sweeps clean their den, and carries their carcasses clear out of the system. This is based upon both the effect of the vermifuge upon my children.

WILLIAM ROULATT.

Naples, January, 1847."

"This is to certify that I have used Dr. McLane's Vermifuge, and have found it to operate in the manner upon my children.

JOHN BRIGGS.

Naples, June, 1847."

☞ For sale by J. KIDD & CO, No 68 Wood street. ap5-d&w8

### Another Witness on the Stand.

CHRONIC RHEUMATISM.

Mr. S. M. Kirk—Allow me to express to you my heartfelt thanks for the great benefit I have received from an article called PETROLEUM, or Rock Oil, of which you are the sole proprietor. I had occasion to use it about the 1st of January, in a violent attack of Rheumatism, which was very painful, flying about from place to place, accompanied with much swelling, so as to keep me in constant torture. I used the Petroleum externally, a few applications of which removed all pain, and every symptom of the disease. I am now entirely well, and would take this occasion to recommend the Petroleum to all who may be suffering under the agonizing pains of Rheumatism or kindred diseases. [Signed] GIDEON WIMAR,

near Perry House, Pittsburgh.
