There was little change in trade at Canton. The market for manufactured goods was rather low, or but expected to recover. Very little was doing in teas.

CONGRESSIONAL.

YESTERDAY'S PROCEEDINGS.

WASHINGTON, May 15.

SENATE—After the presentation of various petitions and the transaction of other morning business, the bill to promote the progress of useful arts, was made the special order for to morrow.

The bill for the relief of Gen. Roger Jones was taken up and passed.

The Senate then resumed the consideration of the bill for the admission of California, and the establishment of Territorial Governments.

Mr. Douglas expressed a desire to get a test vote upon the separation of the measure for the admission of California from the territorial bill. With that view, he moved to lay this bill under consideration, on the table, with a view to taking up the bill for the admission of California, which was negatived, yeas 24, nays 28.

Mr. Dayton (Whig) then moved that the tenth section of the bill be amended, by striking out the provision preventing the proposed Legislature from passing any law in respect to African slavery, and substituting a provision declaring that Legislature from passing any laws interfering with the rights of property which grow out of the institution of African slavery.

Mr. Clay opposed the amendment, stating his reasons, and thinking why Senators should embarrass the pending proposition by an attempt to secure a provision for protecting slavery where it could not and would not go.

Mr. Dayton said he was contending for a principle—the rights of the South.

Mr. Yulee discountenanced the entire scheme presented by the Committee of Thirteen.

Mr. Foote said he was gratified to find that Yulee was the only Southern man who, by a direct vote had felt himself called upon to express his entire disapprobation of the report. He spoke at length in favor of the compromise.

The debate continued between Messrs. Foote and Yulee until 4 o'clock, when the Senate adjourned.

HOUSE—Mr. Stanley, from the Select Committee to inquire what persons who held office under the last administration, were correspondents of newspapers, and interfered with elections—asked that the committee be authorised to employ a clerk and have power to send for persons and papers.

After considerable debate, and the proposal of several facetious amendments, the resolution was adopted.

After some unimportant business the House then proceeded to the consideration of the business on the Speaker's table, being a motion of Mr. Brooks, made some weeks ago, to reconsider the vote by which the communication from the Secretary of State, enclosing the letter of the British Minister, were referred to the Committee on Foreign Affairs.

Mr. Brooks advocated his motion at some length.

Mr. Calvin spoke in favor of the tariff of '42, and denounced any interference on the part of the British Minister, as impertinent and reprehensible He moved that so much of the Message under consideration as relates to the tariff be referred to the Select Committee, with instructions to report by bill or otherwise.

Mr. Bayley moved that so much of the letter of Mr. Bulwer, as related to the Tariff, be referred to the Committee on Ways and Means.

The House then, after some debate, without taking the question on the pending amendments, adjourned.

WASHINGTON, March 16.

SENATE—The Senate resumed the consideration of the bill to admit California as a State, and the establishment of the Territorial Governments of Utah and New Mexico.

Mr. Davis, of Mississippi, modified his amendment submitted yesterday, by substituting a proviso to the 10th section, giving to territorial legislatures the power to pass laws necessary to the nomination of the right of her citizens of the territories to their African property.

Mr. Foote resumed, and concluded his speech of yesterday, in reply to Mr. Yulee, and in vindication of his position that the abolition laws of Mexico are defective.

Mr. Yulee demanded that the rights of the South should be expressly guaranteed by the bill, before he could support it. He asked no compromise, but only that the constitutional rights of the South should be secured to them.

Mr. Foote resumed, and concluded, at great length, with additional pungent and sarcastic remarks in opposition to Mr. Yulee, and in defence of the bill.

In conclusion, he expressed his conviction that the day was not far distant, when this compromise bill would pass both houses of Congress, and be hailed by an universal shout of public acclamation.

Mr. Clemens desired to say, that the bill never would pass, in its present form.

Mr. Foote, replied to Mr. Clemens, and said that he was not opposed to the amendments to the Bill.

Mr. Clemens said that, unfortunately, they could never get any amendments which were satisfactory; and proceeded with some remarks, for the purpose of showing that Mr. Foote had not been consistent. In this connexion, he compared, Mr. Foote's declaration, yesterday, that the admission of California was nothing but the bill, had to complain of, with positions assumed in the letter signed by him and his colleagues, in which that measure was pronounced to be equivalent to the Wilmot proviso.

Mr. Foote, interposed, and a triangular cross fire ensued between him and Messrs. Clemens and Jefferson Davis, which continued until 3 o'clock, when the Senate went into Executive Session, and soon after adjourned until Monday.

HOUSE—Various reports of committees were presented.

Mr. McLane, from the committee on Commerce, reported a bill to admit free of duty, certain articles, the growth and production of Canada, on condition that like articles, the growth and production of the United States, shall be admitted free of duty in Canada, accompanying the report, was a correspondence between Mr. C. Layton and Sir Henry Bulwer.

Mr. Jones moved to lay the Bill on the table, which was not agreed to, and it was referred to the committee of the whole on the state of the Union.

Mr. Brooks, motion heretofore made, was so amended, by a vote of 59 to 63, as to refer that portion of the British Minister's letter to Mr. Clayton, in January last, protesting against the increase of duty on iron, and other British productions, to the Committee on ways & means, instead of manufactures. The part asking for a British coasting trade from the Atlantic to Pacific, was referred to the committee on Commerce.

Mr. Bayly moved to reconsider the votes, and moved to lay the motion on the table.

The question being taken, it was decided affirmatively, yeas, 66 nays 50.
