FROM WASHINGTON. e of the Pittsburgh Gazetta WASHINGTON, June 17 WARDNORS, Jude 1. President's Message upon New Mexico-votes in feaste and House on Califor-nia-Census of California. An important message from the President was his day received by the Senate, relative to New bis day received by the Senate, relative to New exico, in answer to its resolution requestin accutive to state whether he had given orders accounce to state whether he had given orders to be military officers stationed in New Mexico to re-ist or embarrass the efforts of the State of Texas at or emberrass the chorts of the chort of the o enforce her claim, to jurisdiction, and to take ossession of flast province. The President says, a brief, that he had not given such orders, but that in lurief, that he had not given such orders, our that he considered that while the right of juridiction and the boundary remained in dispute between Texas and New Maxico, the right of possession ar-quired by the General Government by conquest and occupancy, should be maintained. He refers to the arrival at Stanta Fe of a "certain Robt. Neighto the arrival at Santa Fe of a "contain tool, roog-bors, styling himself Commissioner of the State of Texas," but does not attach any particular conne-quence to his mission, and says that he does not believe that Texas will succeed in acquiring any possession that will conflict with that of the United tates. The meaning of this appears to be simply is. The United States have conquered this t

this. The United States nave computed insta-ritory and hold it as the common property of the Union; Texas also claims it, but it is my duty to hold it as the trustee of the United States, until that dispute is settled, and I shall do it. Texas is mak-ing seque effort to wheedle me out of the posses-sion of it, but they will be fraitless, and while they sion on n, but they will be traities, and willo dry are as harmless and as impotent as the sending so called Commissioners to assert the claim of Texas within the territory. I shall not consider them matthe of sensial builder worthy of special notice. This message is accompanied by important cor-respondence, from which it appears that some dombt has existed as to the location of the line by dombt has existed as to the opence, the late admindoubt has existed as to the location of the me of which, immediately after the peace, the late admin-turation undertook to mark the sonthern lunit of New Mexico.
