Sir James Murray's Fluid Magnesia.

PREPARED under the immediate care of the Inventor, and established for upwards of thirty years.

This simple preparation is recommended in all cases of bile, acidities, indigestion, gout, and gravel, as the most safe, easy, and effectual form in which Magnesia may, and indeed the only one in which it ought to be exhibited, possessing all the properties of the Salts in general use, without being nauseous or disliked, to often dangerous corrections in the bowels, as frequently cures heartburn without injuring the coats of the stomach, as soda powders, and other effervescents are known to do; it prevents the food of infants souring in the stomach, and is more a pleasing aperient, and is peculiarly adapted to females.

Sir Humphrey Davy testified that this solution forms soluble compounds with the acids and bases of sugar, gout and gravel, thereby counteracting their injurious tendencies when alkalies, and even Magnesia itself, had failed.

From Sir Philip Crampton, Bart., Surgeon General to the Army in Ireland.

"Dear Sir—There can be no doubt that Magnesia may be administered more safely in the form of a concentrated solution than in substance; for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable addition to our Materia Medica.

Sir James Clarke, Sir A. Cooper, Dr. Bright, and Messrs. Guthrie and Herbert Mayo, of London, strongly recommend Murray's Fluid Magnesia, as being infinitely more safe and convenient than the solid, and free from the danger attending the constant use of soda or potass.

Great American Mechanical Work.

D. Appleton & Co., New York, have in course of publication, in parts, price twenty five cents each,

A DICTIONARY

Of Machines, Mechanics, Engine Work, and Engineering, Designed for Practical Working Men, and those Interested in the Engineering Profession.

EDITED BY OLIVER STERE.

THIS WORK is of large dyo. size, and will contain two THOUSAND PAGES, and upwards of six THOUSAND ILLUSTRATIONS. It will present working drawings and descriptions of the principal machines now used in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine Work, and Engineering; with all that is useful in more than one thousand dollars worth of folio volumes, magazines, and other books.

The great object of this publication is, to place before practical and inquiring men, in a condensed form, as much available information in the work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information that is brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within its range which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.

The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the best work of the kind issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1852, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1852. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.

"To our numerous Manufacturers, Mechanics, Engineers, and Artizans, it will be a mine of wealth."—Providence, (R. I.) Journal.

"Young men, arm yourselves with its knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artizan.

"We unhesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy, (N. Y.) Budget.

"It is truly a great work, and the publishers deserve the hearty support of every friend of science and the mechanic arts, for their liberal patronage received from his western friends, while in business, that he now begs to assure them that every effort on his part shall be given to administer to their comfort and happiness.

JULES HAFEL'S MEDICATED NYMPH SOAP.—The skin of many persons is disfigured with slight eruptions, as pimples, morphew, &c, and when this is merely a local affection, as it is in ninety nine cases out of every hundred, it is easily removed. Jules Hasell's Nymph Soap is expressly adapted to diseases of the skin, as it acts directly upon the minute pores which cover its surface, cleansing them from impurities, and by its balsamic properties healing and eradicating the disease, and rendering the darkest and roughest skin soft, fair, and blooming.

Persons who have been in the habit of using ordinary soap, will be astonished at the beautiful effect produced by the Nymph Soap, in imparting a delicate bloom, preventing the neck, face, or hands from chapping, allaying all irritation, and removing all cutaneous eruptions. It possesses an exquisite perfume, and is the only article which can be used with safety and comfort to the nursery.

All those who have faces or necks are disfigured with pimples, blotches, tan, morphew, &c., should, without delay, use Jules Hasell's Nymph Soap, as the proprietor positively assures them, that its use will render the most discolored skin white, the roughest skin smooth, and the most diseased skin healthy, pure, and blooming.

Jules Hasell's Nymph Soap is the only article which will effectually remove freckles in so short a time, and the only one which is at the same time powerful and entirely harmless. Prepared only by

PETROLEUM, OR ROCK OIL.

"There are more things in heaven and earth Than are dreamp of in philosophy."

THE VIRTUES of this remarkable remedy, and the many cures it performs, are truly astonishing, has induced him to have it put up in bottles, with labels and directions for the benefit of the public.

PETROLEUM is known throughout the world, as well in this country, as a depth of four hundred feet, is a pure unadulterated article, without any chemical change, but just as it flows from Rock Island, Venango County. That it contains properties reaching a number of diseases, is no longer a matter of uncertainty. There are many things in the arcana of nature, which, if known, would be of vast usefulness in alleviating suffering, and restoring the blessing of health and vigor to many a sufferer. Long before the proprietor thought of putting it up in bottles, it had a reputation for the cure of diseases. The constant and daily increasing calls for it, and several remarkable cures it has performed, is a sure indication of its future popularity and wide spread application in the cure of disease.

We do not wish to make a long parade of certificates, as we are conscious that the medicine can soon work its way into the favor of those who suffer and wish to be healed. Whilst we do not claim for it a universal application in every disease, we unhesitatingly say, that in a number of Chronic Diseases it is unrivalled. Among these may be enumerated all diseases of the mucous tissues, such as CHRONIC BRONCHITIS, CONSUMPTION (in its early stage) Asthma, and all diseases of the air passages, LIVER COMPLAINT, DYSPEPSIA, Diarhœa, Diseases of the Bladder and Kidneys, Pains in the Back or Side, Nervous Diseases, Neuralgia, Palsy, Rheumatic Pains, Gout, Erysipelas, Tetter, Ringworms, Burns, Scalds, Bruises, Old Sores, &c., &c. In cases of debility resulting from exposure, or long and protracted cases of disease, this medicine will bring relief. It will act as a general TONIC and ALTERATIVE in such cases, imparting tone and energy to the whole frame, removing obstructions, opening the sluggish functions, which cause disease and a broken constitution, and giving increased and renewed energy to all the organs of life! The proprietor knows of several cures of PILES, that resisted every other treatment, yet will under the use of the PETROLEUM for a short time. The proof can be given to any person who desires it. None genuine without the signature of S. M. PETRIE, Canal Basin, near Seventh st.

BIDWELL'S

SANDY AND BEAVER LINE.

From Pittsburgh to Columbus and Cleveland, through the rich and populous counties of Columbiana, Carroll, Stark, Tuscarawas, Coshocton, Muskingum, Licking, and Franklin.

The completion of the Sandy and Beaver Canal opens up to our city through this great natural central route a direct communication to the above as well as the adjoining counties of Wayne, Holmes, Knox, and Delaware.

From the section of Ohio, the trade with Pittsburgh has been, to a great extent cut off, in consequence of the high rates of transportation, which are now reduced 25, 50, and 60 per cent.

Boats of this line will leave daily, and run through without transh
