P. W. GATES' PATENT DIES FOR CUTTING SCREWS. PATERTED MAY 8, 1847.

THESE DIES having been adopted and highly approved in all the principal shops in New York and Philadelphus, are now offered to manufacturers, machinists, ship smiths, det, with the unnust confidence, as the most perfect stricle in usef or cutting terews.

Their superiority over any other Dies hereinforce used, consists in their cutting a FERFECT SCREW, whether V or equal thread, by over passing over the iron to be cut, which require no resulting or previous preparation, as the dies cut the theread out of the solid iron, without raising it he iters; in their greater durability, rapidity, and perfection of work; and in their simplicity and little liability to get out of order.

Certificates.

Puntabilinia, Aug. 17, 1849.

This is to certify that we have purchased from P. W. Sates the right of eving his patant Dies for eath top bolts. In surreprint, his lives are much superior to any others we are acquained with 10 or the purpose of centing bolts.

Partner of Yame Avo Docta, Purpose of centing bolts. Burney of Yarms and Doces.

J P MORRIS & CO.

Having had P W Guses Patent files in use in cut setablishment for the last nine months, for cutting screws on metal to be a selection of the Navy, between the highest term, as we have lad all others away, they being so far superior—considering them 73 pt. Review of the Autorapy of the Patentee, Will he highest term, as we have lad all others away, they being so far superior—considering them 73 pt. Review of the Autorapy of the Patentee, William and the same and use said immovement for the U. S. Navy.

This is to certify the two have necessary the same than any other now in near the property of the Patentee, which is the same than any other now in near the property of the Patentee, William and the same than any other now in the same than any other now

This is to certify that we have purchased the right to use, and adopted in our business. P W Gates' Patent Scrow Catter, which we highly approve of. We can do much more work, and we believe at will surpass in dramblity and precision, as much as economy of labor, any dies known to us. of labor, any dies known to us.

MORRIS. TASEER & MORRIS.

PRILADELPHIA, 9th month, 25th day, 1549. Having accipted P. W. Gates' "Patent bies" for cut-ting bolis, we take pleasure in asying, that it more than answers our expectations, and have no benig-tion in grying it as our opinion, that it far exects any other plan in present use for courier bolls.

We have P. W. Gates' Patent Dies" for enting terrors, and the economy of using them is so very considerable, that we look upon them as 1/ dispensable to every establishment having any quantity of letters to cat.
