Prepare for the Election We publish to day the official proceedings of the Whig Executive Committee, containing the names of the Committee appointed for every elec-

The letter of "Junius", to day, gives a very satisfactory mecount of the proceedings of the House, on Saturday, in relation to the Tariff Question, which varies considerably from the Telegraphic report. Mr. Toombs' report was not adopted, but nothing more was done to advance the object aim ning to have the House acknowledge, by re-

pecting the Loomes resolution, mat it is expecient to make some change in the present Tariff.

The most important vote, however, was on a resolution of Mr. Vinton, to metral it the Committee of Ways and Memorto bring it a bid jehanzine, in effect, the ad vanorem duries of the Tariff of '40, to a specific rates. This resolution failed by a vote of the present of th age specific rates. This resultion maked by a voice of a specific rates and the resolution passed, it would have carried by an accomfort to thousands upon thousands of honest hard working Pennsyltanians, who are now suffering from the effects of the Tarriff of '46 upon our home manufactures. How asternished will these men be to learn that this figure in Fig. 11 and 12 and 13 are now as the specific rate of the component of the

writer in the Boston Advertiser, who seems to and the subject he discusses, and who declares there has been no profit realized from the manufacture of coarse cotton goods for the lest twenty mouths. There would have been profits, he adds, if the raw cotton had been sold, and not

Oction has seen to make the property of the charge was never made of cutters are the first seen to make the property of the charge was never made of the property of the charge was never made of the property of the charge was never made of the property of the charge was never made of the property of the charge was never made of the property of the pro

the Whig Executive Committee, cortaining the names of the Committee appointed for every election deterior in the control.

The detty of these district Committees is, to or gain's their Dorough, Ward, or Townships no effectually as to secure a full Whig vote, and this will most certainly secure a Whig victory. The gradients composing them have been selected, we pressure, in view of their peculiar qual-death of pressure, in view of their peculiar qual-death of promptly and energeically attend to the dudies of the work, their real in the cause, their disposition to make some little sacrifice of time to promptly and energeically attend to the dudies of their peculiar qual-death interfore, that they will, each and every one promptly and energeically attend to the dudies of their appointment.

We would suggest that the Committee of each district be called together by the Chairman, as soon as convenient after be receives notice of the appointment. At this meeting, the work to be done could be divided among the different mean bear of the Committee, and the west thing be proceeded with in order and with effect.

It is hardly necessary for us to trge upon these anomal contence of their pointment. At this meeting, the work to be done could be divided among the different mean bear of the Committee, and the west of their pointment. The literests of Pennsylvanta depend much upon the success of the Whig tieter, and that success depends in a considerable measure open the active of the success of the open the active of the success of the process of the whigh the considerable measure open the active of the success of the whigh the considerable measure open the active of the success of the whigh the considerable measure open the activity will be produced, and the west of the success of the whigh the considerable measure open the activity will be proceeded with in order and with effect.

It is hardly necessary for us to trge upon these of their points and the success of the whigh the considerable measure open the activity and the

of these Committees. Let every man act as en ergetically as the interests he represents demand, and we shall have no cause of complaint.

Some of the Locofoco Representatives from this Stote seem determined to see how far they can go in their subservience to their Southern masters. They not only surrender the great Pennapivana prunciple of protection, to eatily the chivally a Congress, and publishes an appeal at the chivally a Congress, and publishes an appeal at the Congress peal "to tho Democracy of the Datted," signed by the Bradford Conferces, in which they present the chivally a Congress to the chivally a Congress, and publishes an appeal at the Congress of the cause of their desired to see the chivally according to the congress, and publishes an appeal at the Congress and at the Congres

istest and must improved principle—such works as can no where cle be seen. Our merchants should give us specimens of their shop tools, in which they have no rivals any more than in our mineral riches.

I have a greater confidence every day in the ability of my countrymen. Let them fairly put their shoulders to the wheel and they will know no such thing as fail. But what is done must be done quickly. You have no time to lose. Let nothing be reat before I haunary to it it will perhaps be better to have a place or piaces of deposit to some of your principal ports for the stricles to to esent, and when collected to ship as much as possible in one versel. This is recommended by the British Commissioners.

I splana and Onto Banks—in portions of the searcity of money to carry on the business operations of the searce, now larger than usual from shoulant crops. The Banks in indiana charge the cause of this to the operations of certain associated Backs in Ohio, perfecularly those in the city of Commanu Under pretuce of reading the rates of xx hange on this city, the banks in Cincinnati, together with a portion of the company, New York, runds to an arrengement early this year by which they spreed to keep on deposit with the Onto Learnance and Trust Company, New York, runds to an amount safe ight to redeter their re-
