BY MAGNETIC TELEGRAPH.

REPORTED & TELEGRAPHED FOR THE PITTSBURGH DAILY GAZETTE

The injury sustained by the eastern telegraph line by the severe storm of Wednesday night, had not been repaired up to a late hour last evening, consequently we are without our usual despatches from the east. The line will probably be in working order by 10 o'clock this morning.

The prevailing storm in the west last evening, prevented the reception of any telegraphic news from that quarter.

COMMERCIAL RECORD.

PITTSBURGH BOARD OF TRADE AND MERCHANT'S EXCHANGE.

COMMITTEE FOR SEPTEMBER.

THOS. M. HOWE—T. S. CLARKE—WM. BARNES.

PITTSBURGH MARKET.

OFFICE, PITTSBURGH GAZETTE, Friday morning, Sept. 27, 1850.

The weather yesterday was warm and sultry, with strong indications of farther rains. During Wednesday night we had heavy rains in this vicinity, and from all appearances, the rain was general about the head waters of the rivers. The river commenced rising on Wednesday night, and at dusk last evening, there were about 5 feet in channel.

Business during yesterday showed a change for the better, and now, that we have a good stage of water, we may look for an increased activity in the market

FLOUR—We notice a partial decline in prices, with sales yesterday on the wharf, and from wagon, of 250 bbls in different lots, at $3 90 ₱ bbl. Sales from store in a regular way, at $4@4,12½ ₱ bbl.

RYE FLOUR—Supplies are light, with small sales at $3,75@3,87 ₱ bbl.

GRAIN—We have no change to notice in prices.—The amounts coming forward are comparatively light and sales have been confined to moderate transactions, at the following quotations:—Wheat, 75c, Rye, 50c; Barley, 60@65c; Corn, 43, and Oats at 30@31c ₱ bus.

GROCERIES—We notice an improved feeling in the market, and prices of the leading articles are advancing. Rio Coffee is running up, in consequence of which, buyers are shy, and but few sales have transpired at the advance. The highest prices obtained for Rio, so far as we can learn, is 13½c, and many holders are demanding 14c ₱ lb. From the improved feeling in Coffee at the east, we think prices must further advance in this market. Sugar has improved, and we may now give, as fair quotations, 7½@8 in hhds, and 8c in bbls, to country dealers; a sale of 5 hhds com, at 7¾c, 4 mos. Stocks are light. We note a sale of N.O Molasses, to the country, at 39c; some holders asking higher figures. We notice an improvement in Teas at the east, which must cause a corresponding improvement in this market. In Gun-Powder and Imperial the advance is 10c, and in Y. Hysen, 5c ₱ lb. Allspice is held at 16½c; Pepper at 10@11c; Nutmegs, $1 40@1,50, and Cloves at 25@28c ₱ lb. Loaf Sugar, 10@10½; Rice at 5@5½c ₱ lb.

PROVISIONS—Bacon continues firm, and a fair business is doing at former prices; say, for plain hams, 7½; sides, 7½; and shoulders at 4½c ₱ lb. Sales of extra sugar cured canvassed hams at 12c; and of prime at 10c ₱ lb, in trcs. Sales of Dried Beef at 11@12c ₱ lb.

CHEESE—Sales 200 bxs W. R., in lots, at 6c, and of Cream at 6½c ₱ lb. Supplies are fair.

FISH—The market is quiet, with sales of No. 1 Mackerel, at $14; No 2, $11; and No 3, $7@7,25 ₱ bbl. No change in other descriptions.

FEATHERS—Sales 500 lbs, at 32c ₱ lb.

TOBACCO—We notice an improvement in almost every kind. We quote Russell & Robinson's brand at 27c; Grant's do, 26c; and other good brands common at 20c ₱ lb. Leaf is held at 6@6½c ₱ lb.

Cattle Market.

BALTIMORE, September 23.

Spirit of the Domestic Markets.

Good first brands can be bought at $4,50, guaranteed to pass as fancy or extra. Received by river the past three days, 4,364 bbls.

Wheat—Sales for the past three days amount to over 20,000 bus, at prices ranging from 50@88c. On Monday 6400 sacks, or 12,000 bus, sold to the Millers' Exchange from 50 to 80c. Yesterday, 4,969 sacks from 60 to 80c; and to day 4,011 from 50 to 79c.

Foreign Iron Market.

LIVERPOOL, Sept. 9, 1850.

Our market for Scotch Pig Iron is rather inactive, and the quotation for mixed numbers is 43s; Gartsherrie No 1, 45s. Sales have been made at 34s less. Bars in Wales at £4 12s 6d, with few transactions.

BIRMINGHAM, Sept. 9, 1850.

No further improvement has taken place becoming apparent since our last fortnight; indeed, within the last few days, the iron market, both at this town and at Wolverhampton, has been rather dull than otherwise. The accounts from London also are of a very quiet character, but from Glasgow, Manchester, and Liverpool they are rather more promising; at the latter the minimum prices at which orders can now be placed, are considerably in advance of those at which late contracts were delivered. Best qualities retain their position with firmness. We find upon the most accurate inquiry, that throughout the whole of our great iron producing districts, scarcely any of the mills and forges are working to more than half their capabilities, and by far the greater portion not to the extent, while some are altogether closed; and yet it is considered that the manufactured iron the make is scarcely reduced within the demand, particularly as the export trade, after the late activity, begins again to show symptoms of repletion. In Pig Iron but little has been doing. The most needy sellers have relieved themselves during the late slight impulse, which has, however, proved of short duration. Most consumers have now made their purchases, and those who might be inclined to speculate seem not to have sufficient confidence to commit to the future required. It is a question that is very generally forcing itself upon the attention of this trade being interested in this trade, why it should be the case that with every prospect of an abundant harvest, with an export trade of great extent to our foreign possessions, with money abounding and discounts usually low with commercial facilities and circumstances the most advantageous, and with an appearance at least of prosperity of almost every other trade, that of iron alone should remain in a condition so utterly lifeless and unremunerative. The discussion of this question would exceed the limits and intentions of these articles, but its consideration might afford profitable employment for some of the time and talents of those to whose guidance the trade is accustomed to look in periods of difficulty. If the cause of this anomalous prostration could be clearly discovered and defined, surely some suitable and adequate remedy could be devised. At present a large and most important interest seems to be in jeopardy from some unknown or unacknowledged cause, and the whole of the mining operations and other engagements of the district are suffering from its depression.—Bir. Gazette.

LAKE WINNEBAGO STEAMBOATING.—The result of the three months running of the steamboat Peytona, according to the Oshkosh (Wisconsin) Democrat, is as follows:—

Receipts	$5,018 00
Expenses	1,708 81
Profits	$3,309 19

The boat was built by a joint stock company, and cost about $9,000—so that in nine months' running, at this rate, she will pay for herself, besides her current expenses. We think a better illustration of the Lake Winnebago business cannot be given.

The same company has commenced the construction of another boat at Neenah.

LOCAL MATTERS.

REPORTED FOR THE PITTSBURGH DAILY GAZETTE

NAVIGATION UNINTERRUPTED—BREACH IN THE CANAL.—The freshets of Wednesday night, caused a slight breach in the Pennsylvania Canal, a quarter of a mile above "Squaw Run Acqueduct," on a seven mile level.

Leech & Co's packet boat was passing along the canal at the time. The water was rushing in torrents over the tow path, but luckily the boat got to the next level before the break occurred.

A large force of laborers was at once set to work, and we understand that the Canal will be ready for the resumption of navigation to day. Even though the damage had been much more extensive than it was, navigation would not have been suspended, since the Allegheny is in fine order, and steamers have been chartered by our transporters, to convey freight to Freeport, from which place, the Canal has sustained no damage.

THE WEATHER—COAL BOATS.—We had several fine showers of rain yesterday, and there is every prospect that the Ohio river will rise to a sufficiently high stage, to admit of the departure of the fleet of coal boats, some two hundred in number, which are now moored along the banks of the Monongahela. Our neighbors below may look out for a fresh supply of fuel in a few days.

HIGHLY IMPORTANT CASE.—The Supreme Court was occupied during a great part of the afternoon, yesterday, by the arguments in the case of Osburn vs. Osburn, Error to the Court of Common Pleas of Erie county. The question involved was as to the constitutional power of the Legislature to grant a divorce, thereby depriving the wife of her right to alimony.

It was ably argued by Mr. Babbit for the husband, and Mr Lane for the wife. We will give a synopsis of the decision in this case, as soon as it is made.

ALLEGHENY SCRIP.—We have been requested by several gentlemen to publish the charge in the Allegheny Scrip Case, but its length precludes the possibility of its appearance. *All* the points decided, however, will be found in the following synopsis:

Allegheny City vs. McClurkan & Co. A municipal corporation is liable for the contracts of its officers, even when not expressly authorized, when such contracts were entered into publicly, and in such a manner as to be within the knowledge of the corporators. The city of Allegheny is therefore liable for scrip under the denomination of five dollars, issued by its officers, with twenty per cent. interest thereon by the provisions of the act of 12th April, 1828, forbidding the circulation of small notes.

The Act of 12th April, 1828 is not repealed by the resolution of 1st June, 1814. This latter merely increased the penalty for issuing such notes.

Municipal Corporations are within the provisions of the act of 1828.

A suit against such a corporation for issuing small notes is not barred by the sixth section of the act of March 29th, 1785, because not brought within two years after the issuing of the notes. The twenty per cent. is not a forfeiture incurred at the time of issuing the notes.

Though the holders of such notes may have distinct remedies against the corporation and the officer who signed the notes, and gave them currency by their names, they can have but one satisfaction.

RIOT.—Three persons, John McCormick, Patrick McElroy, and Morris Phalon, were yesterday committed to prison by Alderman Major, on a charge of riot.

John Lowry and his wife, swore that they, together with other individuals, had made an assault upon them. It seemed from Lowry's evidence, that one of the prisoners had bought a paper from a newsboy, for which he refused to pay. The newsboy pursued him, asking for his money, upon which he turned upon the poor little fellow, and caught him. Lowry went to his assistance, when the whole crowd fell upon him and his wife, and beat them.

PUBLIC MEETING.—The Despatch sent us a proof sheet of an advertisement, calling a meeting of our colored citizens and their friends, in the Diamond on Saturday evening, last night, at too late an hour to secure its insertion. When our friends wish any article to appear in the Gazette, they will be kind enough to bring us a copy, since [illegible]

RAIN.—The quantity of rain which fell on the 24th of this month, was two tenths of an inch; on the twenty fifth, one inch and four tenths—total one inch and six tenths.

ILLEGALLY DISCHARGED.—Captain Roberts, immediately upon his reappointment by the Police Committee, was discharged by Mayor Barker. As the Mayor has only a single vote in that Committee, which alone has the power of appointing or discharging the captain of the night watch, this conduct was, of course, illegal.

CHARGE DISMISSED.—We understand that the Mayor yesterday acknowledged that the charge, which he had brought against officers Randolph and Pinkerton, of stealing fifteen dollars from a man named Wilson, was founded in error, he having imprisoned one of the accused, (Randolph, on the strength of a letter which has turned out to be a gross fabrication.

The accused were honorably discharged.

BENCH WARRANT.—William McGlaughlin, late of Allegheny City, was brought before Judge Hepburn, yesterday, on a bench warrant, charged, on oath of Martin Conolly, of the same place, with carrying away money, intending to defraud his creditors. He was arrested by a police officer on a steam boat which was aground between this place and Wheeling.

After a full hearing of the case, he was ordered to give bail for his appearance.

LEGAL PROCEEDINGS.—The Supreme Court yesterday concluded the argument list of the Erie District.

The list of the Seventeenth Judicial District consisting of the counties of Butler, Beaver, Mercer, and Lawrence, will be taken up on Monday.

THE STORM.—The storm of Wednesday evening did a great deal of damage in the new Wards. Many of the streets had only been recently paved and the tremendous rush of water down them, washed the sand and gravel away which covered them, thus rendering it necessary to have them re-covered.

NEW MILITARY COMPANY.—Colonel Trovillo informed us yesterday, that his new company, to be called the "Butler Guards", numbers 80 members. They will be mustered in, in a few days.

CONVALESCENT.—Mr. James Dalzell, pattern maker, who was injured a few days ago at Knapp's foundry, in the Fifth Ward, has recovered from the effects of his wounds. He was at work yesterday.

POLICE BUSINESS IN THE FIFTH WARD.—Alderman Parkinson was kept very busy yesterday, by persons desirous of bringing suits of assault and battery. Most of the applicants for justice were Germans, and the cases were all trifling.

ARRESTED.—Police Officer Lowe was arrested yesterday, and held to bail in the sum of one thousand dollars, to answer the charge of conspiring with the Mayor, and another policeman, to abduct two little children.

JAMES HUMPHREYS, a lad in the employ of the Western Insurance Company, found a *large* sum of money, on Thursday afternoon, which the owner can have on application at the Office, No. 32, Water street.

MILITARY MEETING.—The meeting at the Bank Exchange, on Wednesday evening, Sept. 25, for the purpose of forming a Batallion, was organized by appointing Col. E. Trovillo, Chairman, when the following resolution was adopted:

Resolved, That this meeting adjourn to meet on Wednesday evening, October 9th, at 7½ P. M., and that all volunteer companies in Pittsburgh and vicinity be requested to appoint Delegates to meet with us at that time. E. TROVILLO, Chairman.

It is requested that all the companies in the neighborhood as well as those in the City favorable to the object, will send delegates, as it is the intention to form a regiment if a sufficient number of companies join.

MAYOR'S OFFICE, PITTSBURGH.—The Mayor had only two persons, charged with trifling offences, before him, yesterday morning. One was committed to prison for thirty days, the other for twenty four.

MAYOR'S OFFICE, ALLEGHENY.—Not a single customer appeared before the Mayor, yesterday morning. Allegheny is one of the most orderly cities in the Union.

Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.

PUT up in the largest sized bottles, contains more of the pure Honduras Sarsaparilla than any other preparation extant which is chemically combined with the Extract of Yellow Dock, the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any other of the Sarsaparilla compounds. The invalid should beware of poisons! Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the Sarsaparilla and Panaceas of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

The poisons may occasionally remove disease, but they so vitiate the blood, and so completely impregnate the whole system with their baneful effects that the first cold, or the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use Guysott's Improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Biles, Pustules, or Pimples on the Face, Chronic Sore Eyes, Tetter, Scald Head, Rheumatism, Enlargement or Pains in the Bones or Joints, old and stubborn Ulcers, Fever Sores, Hip Disease, Swelling of the Glands, Blotches, Syphilitic Symptoms, Lumbago, Dropsy, Dyspepsia, Jaundice, Costiveness, Salt Rheum, Affections of the Kidneys and diseases arising from an injudicious use of Mercury, Minister's Sore Throat, Weakness of the Chest, Pulmonary Affections, and all other diseases tending towards Consumption, Liver Complaint, Female Irregularities and Complaints, Sick and Nervous Headache, General Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Exposure or Imprudence in Life, Chronic Constitutional Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System it is unrivalled.

A case of Ulcerated Limbs of sixteen years standing

The following is an extract of a letter dated March 27, 1850, from E. B. Perkins, M. D., a highly respectable physician of Marietta, Ohio.

JOHN PARK—Dear Sir: I have under my care a young woman who, for sixteen years, has been suffering from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took her into my family, and have used Guysott's Yellow Dock and Sarsaparilla freely, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is better in general health than she has ever been before, and walks a mile or two without fatigue or pain. A year ago she used crutches. I will report the case in due time. Very respectfully, E. B. PERKINS.

SCROFULA.

It has been remarked, by eminent men, that in the varied catalogue of diseases to which man is liable, there is scarcely one of such importance, and of such interest as Scrofula, whether we look to the obscurity of its origin, its insidious progress, the number and variety of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrofula has baffled the skill of the most eminent physicians in this country and in Europe. But there is an antidote for this disease in Dr Guysott's Extract of Yellow Dock and Sarsaparilla," which is proving itself a perfect specific in the most severe cases of scrofula.

An extraordinary case of Scrofula cured by the sole use of Doctor Guysott's Compound Syrup. It will be seen by this certificate that this man has been under the treatment of several celebrated physicians, for the past eight years, without deriving any benefit, and has been effectually cured by the use of a few bottles of Dr. Guysott's Compound Syrup.

NEW YORK, June 7, 1848.

DR. GUYSOTT—Dear Sir,—Owing to you a debt which money cannot pay, I am induced to make a public acknowledgment of the benefit I have derived from your invaluable Syrup. I was sorely afflicted with a terrible Scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my ears, running into my head, and extending all over my face, neck, and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to sleep or lie down; and the disease extending into my ears seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept continually oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease continued to grow worse, until I was quite in despair. Fortunately I fell in with a passenger on the steamboat, while travelling for my health, who informed me that she was once at one time in as bad a condition as I was, and that, by using your Syrup he was perfectly cured. I immediately procured the article, commenced using it, and now, after having used less than six bottles, I am well and able to attend to my business. I send you this statement as an act of justice, only hoping that it may induce the afflicted to make use of the right medicine, and thereby save them much suffering and expense.

I remain your obedient servant, JOHN Q SPALDING.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after the disease is cured. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, (Herkimer Co.) Feb. 1850.

S. F. BENNETT & Co. Gents: It is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been a sufferer under that dreadful, loathsome disease, the Erysipelas, which he was attacked in 1848, [illegible] no beneficial effects whatever. He become reduced to a perfect skeleton. He had ulcers from his hip to his knee, which were continually discharging. [illegible] Physicians said that his case was [illegible] could be nothing done to arrest those terrible [illegible] of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced using it [illegible] by the time he had used the third bottle, and before he had used a half dozen bottles he could walk out. He used in all twelve bottles, and by October last, he was perfectly cured, every vestige of the disease except the scars is removed, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully, JAS. RUSSELL.

☞ None genuine unless put up in large bottles containing a quart, and the name of the Syrup blown in the glass, with the written signature of S. F. Bennett, on the outside wrapper. Price $1 per bottle—or 6 bottles for $5.

P. W. GATES'

PATENT DIES FOR CUTTING SCREWS.

PATENTED MAY 8, 1847.

THESE DIES having been adopted and highly approved in all the principal shops in New York and Philadelphia, are now offered to manufacturers, machinists, ship smiths, &c., with the utmost confidence, as the most perfect article in use for cutting screws.

Their superiority over any other Dies heretofore used, consists in their cutting a PERFECT SCREW, whether V or SQUARE thread, by ONCE passing over the iron to be cut, which require no *swedging or previous preparation*, as the dies cut the thread out of the solid iron, without raising it in the least; in their greater durability, rapidity, and perfection of work; and in their simplicity and little liability to get out of order.

Certificates.

PHILADELPHIA, Aug. 17, 1848.

This is to certify that we have purchased from P. W. Gates the right of using his patent Dies for cutting bolts. In our opinion, his Dies are much superior to any others we are acquainted with for the purpose of cutting bolts. J P MORRIS & CO.

PHILADELPHIA, Aug. 21, 1848.

Having had P W Gates' Patent Dies in use in our establishment for the last nine months, for cutting bolts, we can in every respect recommend them in the highest terms, as we have laid all others away, they being so far superior—considering them 75 per cent. cheaper than any others now in use. RANEY, NEAFIE & CO, Penn Works, Pa.

This is to certify that we have purchased the right to use, and adopted in our business P W Gates' Patent Screw Cutter, which we highly approve of. We can do much more work, and we believe it will surpass in durability and precision, as much as economy of labor, any dies known to us. MORRIS, TASKER & MORRIS. PHILADELPHIA, 9th month, 28th day, 1848.

NEW YORK, Aug. 19, 1849.

Having adopted P. W. Gates' "Patent Dies" for cutting bolts, we take pleasure in saying, that it more than answers our expectations, and have no hesitation in giving it as our opinion, that it far excels any other plan in present use for cutting bolts. T F SECOR & CO.

We have P. W Gates' "Patent Dies" for cutting screws, and the economy of using them is so very considerable, that we look upon them as indispensable to every establishment having any quantity of screws to cut. McCORMICK, OGDEN & CO, CHICAGO, May 10, 1849.

Sir James Murray's Fluid Magnesia.

PREPARED under the immediate care of the inventor, and established for upwards of thirty years by the profession, for removing Bile, Acidities, and Indigestion, restoring Appetite, preserving a moderate state of the bowels, and dissolving uric acid in Gravel and Gout; also, as an easy remedy for sea sickness, and for the febrile affection incident to childhood it is invaluable. On the value of Magnesia as a remedial agent it is unnecessary to enlarge; but the Fluid Preparation of Sir James Murray is now the most valued by the profession, as it entirely avoids the possibility of those dangerous concretions usually resulting from the use of the article in powder.
