DR. S. D. HOWE'S SHAKER SARSAPARILLA! IN QUART BOTTLES,

HAS no parallel in permanently curing and eradicating from the system all CUTANEOUS ERUPTIONS: It will effectually eradicate from the system and cure Salt Rheum, Ringworm, Tetter, Scald Head, Dropsy, Scurvy, White Swellings, King's Evil, Neuralgic Affections, and all FEMALE WEAKNESSES And Obstructions, Barrenness, Whites, Floor Albus, Falling of the Womb, Nervous, Sick Head Ache, Langour, Fainting Sensations, Palpitation of the Heart, Low Spirits, General Debility, Dyspepsia, Liver Complaints, &c.

It is Purely and Entirely Vegetable.

It has been used with the most signal success by the Profession in New York and New Hampshire, and the Eastern States generally, for many years—and as a general purifier of the blood and invigorator of the system—as a Genuine Family Medicine and an efficacious Female Medicine it has no equal. The purity and efficacy of the Shaker preparations are well known; and this medicine requires no long list of certificates and cures to introduce it; its increasing demand for the past twelve years is its best recommendation.

It is put up in quart bottles, and is the only Sarsaparilla that acts on the Liver, Kidneys, and Blood at the same time, which renders it altogether more valuable to every one, particularly to females.

Dr. Massey, Professor in the Ohio Medical College, says the Shaker preparations are truly valuable, and recommends them to the public. The sick and afflicted are requested to call and obtain a pamphlet, and purchase a bottle of this valuable Family Medicine.

Be sure and enquire for Dr. S. D. HOWE'S SHAKER SARSAPARILLA and take no other.

Price $1 per bottle—6 bottles for $5.

COMMITTEE FOR SEPTEMBER.

PITTSBURGH MARKET.

OFFICE, PITTSBURGH GAZETTE, Saturday morning September 29, 1850.

THE WEATHER yesterday was very unsettled. Early in the morning we had heavy rains, after which it cleared off partially; but in the afternoon, and at the time of penning the article, we are in the midst of the severest storm of hail and rain ever known in this section.

BUSINESS on the wharf during yesterday forenoon presented quite a lively appearance, and many of our large steamers, after a long absence, are again in their places.

In consequence of the severe storm during the afternoon, business was entirely suspended, and we have nothing to report.

Crops in Europe.

SEPT 9, 1850.—By the end of the first week in Sept., the results of the harvest ought to be pretty well known. There are some points indeed, in which speculation and alarm can find room to work even for months after the crop has been gathered and housed, but there can no longer be much margin for difference of opinion when the produce is once safe from the weather. Judging by the tenor of the reports which have reached us from every part of the kingdom, we feel little doubt of an average harvest. Of Barley and Oats there is no doubt whatever that the crops are above the average. The late storms of wind and rain are said to have injured the Wheat crop, which is admitted to have been ready for the sickle somewhat earlier than usual. On the whole, the weather has been favorable for the operations of harvest, the chief difficulty being want of hands. If then, we cannot congratulate the country on the prospect of extraordinary abundance, we may at least express our thankfulness that food is granted for one more year of merciful sufficiency.

But as usual of late years, the potato has been the great problem of the harvest. Over and over again have the Irish papers reported the almost utter destruction of the crop, leaving only some precarious remnant that might amount to a quarter or an eighth. Happily the root has several lives, and though the leaf shrivels up and the stem becomes black, the tuber below is sometimes unconscious of the ruin above. Notwithstanding the repeated failures of the last five years, the breadth sown is immense, so inveterate is the attachment of that unfortunate race to that most unlucky plant; should the present failure, therefore, be as great as is now feared on the most gloomy estimate, there will still remain a considerable supply.—Times.

European Corn Market.

From the general tone of the reports from most of the countries bordering the Baltic, we feel satisfied that the Wheat crop, over a large portion of continental Europe, will prove of fine quality, and we are also inclined to think well of the yield. The extent of the Potato disease will probably turn out to have been a good deal exaggerated, but there can be no doubt that the Rye crop has proved very indifferently in many of the countries where that article is used as the staple food by the masses. The crops of spring Corn and Pulse will, owing to the prevalence of drought during July and August, be deficient in Russia and Germany, and on the whole there is like to be less grain to export than last year. Latterly purchases of barley and Rye have been made at Hamburg, and some of the ports of the Baltic on Dutch account and it is most improbable that Holland and Belgium will require to import Wheat. Under these circumstances the Baltic merchants have shown no particular anxiety to realize, and full prices have been insisted on.

At Konigsberg, on the 31st ult., there was a good deal of activity in the Corn trade, some Wheat, and a considerable quantity of Rye having been taken for shipment to Holland. Prices of Wheat had not varied materially, but the value of Rye had not undergone a further rise, equal to 2 @ 2s ℘ qr. free on board, having been paid for good 57 lbs.

From Rotterdam we learn that a complete reaction had occurred in the Corn market, and prices of some articles had receded nearly as much on Monday as they had advanced on that day week.

At Antwerp business was likewise dull, and Wheat was certainly obtainable on easier terms than before. In the French markets the excitement of the previous week had, according to the most recent accounts, subsided, and prices of Wheat and Flour were lower at Paris, on Wednesday.

STMR COMET SUNK.—Boats down yesterday morning, report having passed the little stmr Comet, sunk to her boiler deck, in the Illinois River, two or three miles from the mouth. The accident was caused by her coming in contact with the stmr Laurel bound up, and which happened between 11 and 12 o'clock the night previous. The Comet was on her way from Frederick to this city, with a light cargo of produce. No lives were lost. The Laurel was met several miles up the river, going ahead apparently in sound condition. The Comet was owned by her commander, Capt. Turner, and a Mr. Burke; she was an old boat, valued at $2500 @3,000, and whether insured or not we were unable to ascertain.—Rep.

LOCAL MATTERS.

REPORTED FOR THE PITTSBURGH DAILY GAZETTE

TREMENDOUS HAIL STORM.—GREAT DAMAGE TO BUILDINGS—ACCIDENTS.—Our City was visited between the hours of two and three o'clock yesterday afternoon, by a hail storm, which in point of violence has never been equalled by any, on record in the United States. The clouds came from the South West, to the North West, and the hail stones which fell at first, were about the size of plums. Towards the close of the storm, however, they increased in bulk, and far exceeded any that have ever before been seen in this region.—We have heard of many which measured from 9 to 14 inches in circumference, weighing from eight ounces to a pound, and over. Some idea may be formed of the quantity which fell, from the fact that Mr. George Beale, keeper of the Restaurant on Fourth street, gathered in his yard over seven bushels, which he intends to use instead of ice, the latter being now very scarce in Pittsburgh. Some of the masses were of an irregular shape, strongly resembling pieces of chrystalized quartz, but the majority were of a round, or oval form, opaque towards the centre, but the concentric rings, as as they approached the surface, becoming more and more transparent, rivaling in beauty, the finest specimens of agate.

The scene was a terrifically grand one—the hail stones falling with a loud, crashing noise on the roofs and pavements, while the lightnings played all around, and the thunder roared. The rivers were one sheet of foam, the spray flying five feet above the surface of the water. We have no doubt that most of the birds, in the vicinity of Pittsburgh, together with many of the smaller animals which were exposed to the violence of the storm, were killed. A pigeon which we saw, had its head taken off as if it had been struck by a rifle ball.

After the storm was over, we went around town to observe its effects, and found that the damage done was immense, every house being more or less injured. Our friends at a distance can form some idea of the number of panes of glass broken, when they learn that *one hundred and fifty three* were destroyed in the Gazette establishment alone. Indeed it is thought that there is not a sufficient quantity of that article in town to repair the damages. Spang & Co.'s warehouse presented a good specimen of the force with which the hailstones struck anything opposed to them. The roof is composed of sheet iron, of the usual thickness, technically termed No. 26, wire guage. These plates of iron were pierced by *hundreds of holes* through some of which a man could thrust his arm. The roof was completely riddled, and as soon as the storm had somewhat abated, a large quantity of oakum was taken up, and used to *caulk the holes* so as to prevent the rain from flooding the establishment.

Other large warehouses on Water street, suffered considerable damage, since most of them are covered with sheet iron, tin, or slate roofs, and furnished with magnificent double skylights, which as a matter of course were utterly demolished, not only the glass, but even the sash, being in many instances destroyed.

John Irwin and Son have recently erected a fine block of brick warehouses, seven in number, on Water street, below Ferry, which are covered with gravel roofs. This sort of roofing, as did shingles stood the brunt of the storm unhurt, but the skylights were destroyed.

Pollard McCormick's establishment, at the corner of Water and Market streets, was somewhat injured. The roof, which is of tin, was pierced in several places, and the solder loosened. We have before described the injury to Spang's Warehouse, which is next door. Thence proceeding up street, we found the roofs and skylights of Carren & McKnight's, M. Allen's, Lorenz & Sterling's, Miller, Church & Co's, and Jas A. Hutchison's warehouses, injured. The hail had not, in many instances, penetrated through the iron, because, (unlike Spang's,) they were not merely screwed to the rafters, but placed on boards which covered the rafters—still they were much injured.

Crossing Wood street, we examined the warehouses of Wick & McCandless, Graff, Lindsay & Co., Singer, Hartman & Co., Wood & McKnight, Isaiah Dickey, James Wood & Co., Burbridge & Ingraham, and Lyon, Shorb & Co. They are all covered with iron, and furnished with skylights. Roofs damaged—skylights destroyed.

The large establishment of Cuddy, Jones & Co Lippencott & Co. Coleman, & Co, Bailey, Brown & Co. & Ihmsen, Plunkett, & McKnight, in the same locality, are all, we understand roofed with slate, which was very much cracked and broken. Skylights destroyed.

The roofs of Wm. Holmes & Co's, L. Harbaugh & Co., and John Dunlap's warehouses, on Market street, covered with tin, were somewhat injured.

On Wood street, the following establishments sustained some damage. Those of Ogden & Snowden, (tin roofs,) B A Fahnestock, Wm. Bagaley & Co., Wm. T. M'Clurg, G. R. Hildebrand, W. H. Sutton, and Joshua Rhodes, (iron roofs,) and Bollman & Garrison, (slate roof.) Most of these warehouses were furnished with large double skylights.

PLACES OF WORSHIP.—Almost all the churches having a large number of panes of glass broken, in Pittsburgh and vicinity suffered considerable damage and some of the roofs, (where they were of slate) injured. The following is a list of those most damaged: Methodist Episcopal Church, Liberty street; Third Presbyterian Church, (Rev. Doctor Riddle's). Methodist Church, Fifth street; St. Paul's Cathedral, do.; Welsh Church, Ross st; First Presbyterian, Wood st.; Episcopalian, Sixth st; German Lutheran, Smithfield st.; and Methodist Episcopal, corner of Seventh.

The churches in Allegheny, Bayardstown, and Birmingham were also considerably injured.

PUBLIC SCHOOLS.—The fury of the storm caused great excitement among the pupils in the public schools, whose apprehensions could not, in some instances, be quieted by their teachers.

The School buildings of the First, Second, Third Fourth, Sixth, Seventh and Eighth Wards were somewhat injured, as were those of the Wards of Allegheny.

PUBLIC BUILDINGS:—The glass in the Cupola and other parts of the Court House, was very much shattered. Several of the Engine Houses suffered some damage. The Banks escaped with but little injury.

HOTELS.—Our principal hotels suffered considerably. The Monongahela House lost upwards of five hundred panes of glass, including two magnificent sky lights. The St. Charles lost between two and three hundred—the Exchange one hundred and seventy, and Brown's Hotel, about one hundred.

STEAMBOATS.—The steamboats lying with their sterns in the direction of the storm, suffered less than might have been expected. Still, some of them have sustained considerable damage. The beautiful stained glass in the Cincinnati and Buckeye State was much shattered.

DAMAGES TO BUILDINGS GENERALLY.—The houses in the cross streets running from the Allegheny to the Monongahela rivers suffered most, those on the east side more particularly. Scarcely a whole pane was left in the stores on the east side of Market, Wood, and Smithfield streets. The loss will be very heavy, since most of the panes were formed of costly and beautiful plate glass.

ACCIDENTS, &c.—We hear of numberless accidents occasioned by the storm, though fortunately no lives were lost. The draymen, very generally, drove their horses into warehouses—Mr. Trovillo, undertaker, was attending a funeral, and was compelled to unharness his horses. The tops of the carriages were all torn to pieces. A young lad named Carrol, who was holding a horse on Water street, was very severely injured by the hailstones. Two of his fingers were broken.

A man had his head very badly cut in Market street. The wound was dressed by Dr. Smyser.

The driver of a market wagon, which was standing opposite McMaster's Tavern in Liberty Street, was injured by a hail stone which tore its way through the canvass covering, and inflicted a severe wound on his head.

A little child on Wylie Street, which ventured out in the storm, was knocked down senseless, but was rescued before it sustained any severe injury.

Six horses attached to a coal wagon, took fright on one of Jones's Ferry Boats, and rushed into the river. The boat was near shore at the time, and they were rescued.

The horses of the Birmingham Omnibus ran off, and were stopped at the corner of Fourth and Wood. The omnibus was much shattered.

The lamp post at the corner of Second and Wood, was broken down by some frightened horses, which dragged a pair of large timber wheels against it.

A dray horse dashed into the window of Wallace, Lyon & Co.'s store, on Wood street.

TELEGRAPHIC DESPATCHES FROM THE NEIGHBORING TOWNS.—From telegraphic despatches received from Brownsville, we learn that there was no hail at that place, though there was a heavy rain. It was also raining at Cumberland.

A dispatch was received from Washington, Pa., stating that there had been no hail at that place.

BY LAST NIGHT'S MAIL.—The driver of the Steubenville stage informs us that there was a hail storm fourteen miles out that road, though by no means so severe as it was in the vicinity of this city.

We learn from the driver of the Washington, Pa., stage, that hail fell at Canonsburgh, though the stones were little more than the ordinary size. Seven miles out that road, however, the storm was terrific.

The Michigan No. 2 came up the Ohio yesterday afternoon, but met with no storm on her way up.

DAMAGES BY THE RAIN.—The late heavy rains have done considerable damage to the streets in various parts of Allegheny. The pavement was washed away in one or two places on Sandusky and Ohio streets. Street Commissioner Tyler immediately set a large force of hands at work to repair the damages.

MAYOR'S OFFICE, ALLEGHENY.—A man was brought before the Mayor of Allegheny, yesterday, charged with drunkenness and vagrancy. As he was an old offender, he was committed to prison for thirty days.

Dr. Guysott's Extract of Yellow Dock and Sarsaparilla.

PUT up in the largest sized bottles, contains more of the pure Honduras Sarsaparilla than any other preparation extant which is chemically combined with the Extract of Yellow Dock, the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any other of the Sarsaparilla compounds. The invalid should beware of poisons! Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the Sarsaparilla and Panaceas of the day. Guysott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

The poisons may occasionally remove disease, but they so vitiate the blood, and so completely impregnate the whole system with their baneful effects that the first cold, or the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use Guysott's Improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Biles, Pustules, or Pimples on the Face, Chronic Sore Eyes, Tetter, Scald Head, Rheumatism, Enlargement or Pains in the Bones or Joints, old and stubborn Ulcers, Fever Sores, Hip Disease, Swelling of the Glands, Blotches, Syphilitic Symptoms, Lumbago, Dropsy, Dyspepsia, Jaundice, Costiveness, Salt Rheum, Affections of the Kidneys and diseases arising from an injudicious use of Mercury, Minister's Sore Throat, Weakness of the Chest, Pulmonary Affections, and all other diseases tending towards Consumption, Liver Complaint, Female Irregularities and Complaints, Sick and Nervous Headache, General Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Exposure or Imprudence in Life, Chronic Constitutional Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System it is unrivalled.

A case of Ulcerated Limbs of sixteen years standing.

The following is an extract of a letter dated March 27, 1850, from E. B. Perkins, M. D., a highly respectable physician of Marietta, Ohio.

JOHN PARK—Dear Sir: I have under my care a young woman who, for sixteen years, has been suffering from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took her into my family, and have used Guysott's Yellow Dock and Sarsaparilla freely, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is better in general health than she has ever been before, and walks a mile or two without fatigue or pain. A year ago she used crutches. I will report the case in due time. Very respectfully, E. B. PERKINS.

SCROFULA.

It has been remarked, by eminent men, that in the varied catalogue of diseases to which man is liable, there is scarcely one of such importance, and of such interest as Scrofula, whether we look to the obscurity of its origin, its insidious progress, the number and variety of organs that it attacks, or its remarkable incurability and extensive fatality.

Scrofula has baffled the skill of the most eminent physicians in this country and in Europe. But there is an antidote for this disease in Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, which is proving itself a perfect specific in the most severe cases of scrofula.

An extraordinary case of Scrofula cured by the sole use of Doctor Guysott's Compound Syrup. It will be seen by this certificate that this man has been under the treatment of several celebrated physicians, for the past eight years, without deriving any benefit, and has been effectually cured by the use of a few bottles of Dr. Guysott's Compound Syrup.

NEW YORK, June 7, 1848.

DR. GUYSOTT—Dear Sir,—Owing to you a debt which money cannot pay, I am induced to make a public acknowledgment of the benefit I have derived from your invaluable Syrup. I was sorely afflicted with a terrible Scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my ears, running into my head and extending all over my face, neck, and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to sleep or lie down; and the disease extending into my ears seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept continually oozing out. People avoided me, supposing I had the small pox, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice, and tried different plans of treatment, the disease continued to grow worse, until I gave up in despair. Fortunately I fell in with a passenger on the steamboat, while travelling for my health, who informed me that his son was at one time in as bad a condition as I was, and that by using your Syrup he was speedily cured. I immediately procured the article, commenced using it, and now, after having used less than six bottles, I am well and able to attend to my business. I send you this statement as an act of justice, only hoping that it may induce the afflicted to make use of the right medicine, and thereby save them much suffering and expense.

I remain your obedient servant, JOHN Q SPALDING.

Cure of an aggravated case of Erysipelas.

The cures performed by "Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, (Herkimer Co.) Feb. 1850.

S F BENNETT & CO, Gents. It is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1844, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months, without any beneficial effects whatever. He become reduced to a perfect skeleton. He had ulcers from his hip to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to, make trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it and to my astonishment, he commenced improving he had used the third bottle, and before he had used a half dozen bottles he could walk out. He used in all twelve bottles, and by October last he was perfectly restored, every vestige of the disease except the scars is removed, and he remains in perfect health up to the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully, JAS. RUSSELL.

☞ None genuine unless put up in large bottles, containing a quart, and the name of the Syrup blown in the glass, with the written signature of S. F. Bennett, on the outside wrapper. Price $1 per bottle—or 6 bottles for $5.

MEDICAL AND SURGICAL OFFICE,

No. 41, DIAMOND ALLEY, a few doors below Wood street, towards market.

DR. BROWN, having been regularly educated to the medical profession, and been for some time in general practice, now confines his attention to the treatment of those private and delicate complaints for which his opportunities and experience peculiarly qualify him. 14 years assiduously devoted to study & treatment of those complaints, (during which time he has had more practice and has cured more patients than can ever fall to the lot of any private practitioner) amply qualifies him to offer assurances of speedy, permanent, and satisfactory cure to all afflicted with delicate diseases, and all diseases arising therefrom.

Dr. Brown would inform those afflicted with private diseases which have become chronic by time or aggravated by the use of any of the common nostrums of the day, that their complaints can be radically and thoroughly cured; he having given his careful attention to the treatment of such cases, and succeeded in hundreds of instances in curing persons of inflammation of the neck of the bladder, and kindred diseases which often result from those cases where others have consigned them to hopeless despair. He particularly invites such as have been long and unsuccessfully treated by others to consult him, when every satisfaction will be given them, and their cases treated in a careful, thorough and intelligent manner, pointed out by a long experience, study, and investigation, which it is impossible for those engaged in general practice of medicine to give to one class of disease.

☞ Hernia or Rupture.—Dr. Brown also invites persons afflicted with Hernia to call, as he has paid particular attention to this disease.

CANCERS also cured.

Skin diseases; also [illegible], Palsy, etc., speedily cured. Charges very low.

P. W. GATES' PATENT DIES FOR CUTTING SCREWS.

PATENTED MAY 8, 1847.

THESE DIES having been adopted and highly approved in all the principal shops in New York and Philadelphia, are now offered to manufacturers, machinists, ship smiths, &c., with the utmost confidence, as the most perfect article in use for cutting screws.

Their superiority over any other Dies heretofore used, consists in their cutting a PERFECT SCREW, whether V or SQUARE thread, by ONCE passing over the iron to be cut, which require no *swedging or previous preparation*, as the dies cut the thread out of the solid iron, without raising it in the least; in their greater durability, rapidity, and perfection of work; and in their simplicity and little liability to get out of order.

Certificates.

PHILADELPHIA, Aug. 17, 1848.

This is to certify that we have purchased from P. W. Gates the right of using his patent Dies for cutting bolts. In our opinion, his Dies are much superior to any others we are acquainted with for the purpose of cutting bolts. J P MORRIS & CO.

PHILADELPHIA, Aug. 21, 1848.

Having had P W Gates' Patent Dies in use in our establishment for the last nine months, for cutting bolts, we can in every respect recommend them in the highest terms, as we have laid all others away, they being so far superior—considering them 75 per cent. cheaper than any others now in use. RANEY, NEAFIE & CO, Penn Works, Pa.

This is to certify that we have purchased the right to use, and adopted in our business P W Gates' Patent Screw Cutter, which we highly approve of. We can do much more work, and we believe it will surpass in durability and precision, as much as economy of labor, any dies known to us. MORRIS, TASKER & MORRIS. PHILADELPHIA, 9th month, 29th day, 1848.

NEW YORK, Aug. 19, 1849.

Having adopted P. W. Gates' "Patent Dies" for cutting bolts, we take pleasure in saying, that it more than answers our expectations, and have no hesitation in giving it as our opinion, that it far excels any other plan in present use for cutting bolts. T F SECOR & CO.

We have P. W. Gates' "Patent Dies" for cutting screws, and the economy of using them is so very considerable, that we look upon them as indispensable to every establishment having any quantity of screws to cut. McCORMICK, OGDEN & CO., CHICAGO, May 10, 1849.

ORDNANCE OFFICE, WASHINGTON, 6th Sept., '48.

I have purchased of W. H. Scoville, for the United States, the right to use in all the arsenals and armories under the supervision of this Department, P. W. Gates' "Patent Dies" for cutting screws on metal, they having been tried in two of the large arsenals, and found to be very efficient and excellent. A. TALCOTT, Col. Ordinance.

BUREAU OF YARDS AND DOCKS, WASHINGTON, Sept. 25, 1848.

Considering Gates' Patented Improvement for cutting screws on metal to be a valuable one, I have, by authority of the Honorable Secretary of the Navy, purchased of the Attorneys of the Patentee, Wm. H. Scoville, and Samuel Mower, Esq., the right to make and use said improvement for the U. S. Navy. JOSEPH SMITH, Chief of Bureau.

Sir James Murray's Fluid Magnesia.

PREPARED under the immediate care of the inventor, and established for upwards of thirty years by the profession, for removing Bile, Acidities, and Indigestion, restoring Appetite, preserving a moderate state of the bowels, and dissolving uric acid in Gravel and Gout; also, as an easy remedy for sea sickness, and for the febrile affection incident to childhood it is invaluable. On the value of Magnesia as a remedial agent it is unnecessary to enlarge; but the Fluid Preparation of Sir James Murray is now the most valued by the profession, as it entirely avoids the possibility of those dangerous concretions usually resulting from the use of the article in powder. PLANETT'S BITTERS

Creates a healthy action throughout the body, restores the appetite, equalize the circulation, give tone and energy to the system, and create a power of resistance to disease in all its forms, rarely to be obtained. They will perform a speedy and permanent cure of Dyspepsia, Indigestion, Flatulency, General Debility, Liver Complaint, and all the train of symptoms commonly called nervous affections.

HEADACHE

Will be immediately relieved by the use of this invaluable compound, which is purely vegetable, and is adapted to all ages and conditions.

FEMALES

Will find in this delicate and palatable preparation, a combination of Tonic, Alterative and Aperient qualities, peculiarly adapted to their systems.

The specific action that this article has on the Liver and Digestive Organs, renders it a complete Antidote for Fever and Ague, and Billious and Typhus Fevers.

CHARSVILLE, L. I. July 17th 1850.

DEAR SIR. I have used the article of Planett's Bitters, and have derived great benefit from them. I have been subject for years past to the Fever and Ague, but since the introduction of your Bitters, I have entirely escaped my usual attacks, and can with confidence recommend them as one of the best Tonics in use. *Respectfully yours,* C. N. BUNDING.

SPRINGFIELD, June 20th, 1850.

MY DEAR SIR. It gives me much pleasure to state, that the Dyspepsia with which my life has been so long troubled, arising from inaction of the Liver, has been entirely overcome, and cured by the use of your invaluable preparation of Bitters, and for your kindness in recommending them, please accept my thanks. *Your obedient servant,* C. L. LEECH.

Proclamation.

BY virtue of a precept under the hands of Wm. B. M'Clure, President of the Court of Common Pleas, in and for the Fifth Judicial District of Pennsylvania, and Justice of the Court of Oyer and Terminer, and General Jail Delivery in and for said District, and William Kerr and Samuel Jones, Esqs., Associate Judges of the same county, in and for the County of Allegheny, dated the 16th day of August, in the year of our Lord one thousand eight hundred and fifty, and to me directed, for holding a Court of Oyer and Terminer and General Jail Delivery, at the Court House, in the city of Pittsburgh, on the Fourth Monday of October next, at 10 o'clock A. M.

Public notice is hereby given to all Justices of the Peace, Coroner, and Constables of Allegheny, that they be then and there, in their proper persons, with their rolls, records, inquisitions, examinations and other remembrances, to do those things, which to their respective offices in their behalf appertain to be done—and also those that will prosecute the prisoners that now are or may be in the jail of said county of Allegheny, to be then and there to prosecute against them as shall be just.

Given under my hand at Pittsburgh, this 16th day of August, in the year of our Lord one thousand eight hundred and fifty, and of the Commonwealth the 75th. aug16:d&wtdT CARTER CURTIS, Sheriff.

CANDLE MOULDS.
Important to Tallow Chandlers.

THE subscriber having paid particular attention to the various improvements in the manufacture of Candle Moulds for the last six years, and sparing neither time nor expense to make them in the most approved style, is now prepared to offer to his customers and friends an article of Candle Moulds equal if not superior to any manufactured in the world, they are after the English style—the tips to screw on the pipe, and the pipe to screw tight in the bench.

All Moulds manufactured by me after this will have my name on each pipe, with the warrantee attached. JOHN CALVERLY, sep10:d2w 109 Race street, Philadelphia.
