POLITICAL INTELLIGENCE. The foreign news of the week is unusually der of interest.

FRANCE. The President of France, who has not done with holiday making, has been reviewing troops in the plans of Sattory, at Vermiller, and this is said to be in honor of the Naples Embassador. It was a very splendid affair. The Monitor Du Sait contains an avial

known skill and enterprise of its ballders. It is ball upon the high pressure principle, its cyladders are 14 inches in dameter, with a 44 feet sureke. The two ballers are 55 feet in jeoguh, by 44 inches in diameter. The building of some vessels and engines at Pitte-bargh for the far south and west has, of late, become of frequent occurrence; and it is the best evidence we can addaes of the supernor skill of our methanics in said.
