EXCHANGE BROKERS MISCELLANEOUS. MISCELLANEOUS. MISC: LLANEOUS. TRANSPORTATION LINES MEDICAL. P. W. GATES' Bir James Murray's Fluid Magnesia.

DREFARED inder the immediate care of the Inventor, and established for upwards of thirty years. This elegant preparation is recommended in all statements of the properties of the inventor of the Magnesia may, and indeed the only one in which it ought to be exhibited, possessing all the properties of the Magnesia now in general use, without being liable like it, to form dangerous concretions in the bowels, it effectually cares hearthout without longing the control of the same of the inventor of the same of the properties of the Augnesia now in general use, without being liable like it, to form dangerous concretions in the bowels, it effectually cares hearthout without injuring the control of the same training and properties of the families. Sir Humphrey Davy tentified that this solution forms soluble combinations with arts each salts in cases of goot and gravel, therby counteracting their injurious tendency, when other alkalies, and even Magnesia From Sir Philip Crampion, Bart., Bargeon General to the Army in Ireland—

"Dear Sir—There can be no doubt that Magnesia may be alaunistered more safely in the form of a concentrated colution than in substance; for this, and many other reasons, I am of opinion that the Fluid Magnesia is a very valuable audition to our Materia Magnesia is a very valuable audition to our Materia Magnesia is a very valuable audition to our Materia Magnesia (Sir James Clarke, Sir A. Cooper, Dr. Birght, and Measts. Gathre and Herbert Mayo, of London, strong ty recommend Murray's Fluid Magnesia, as being infinitely more safe and convenient than the soled, and tree from the danger stending the constant use of stellar or potass.
