news. According to present appearances the Whigs have lost fouriern members of Congress in New York, three in New Jersey, and one in Wisconsu, and they have gauned two in Michigan, showing a last loss of sixteen. We probably haxard little in esying that Illinois in yet wedded to her political idols, and that she will see for democrats to two Whigs. He: seven members added to these al men's. Whigs. He: seven members added to those al-ready heard from will give one hundred and sev-week. In the first State there will be a choice, it is probable, in not more than half the Districts, but as probable in not more than haif the District, but as experience has proved the uter impracheshilly of therigid majority system, the legislature will doub-less make provision for electing on a subsequent trial by pluralities. The dispute upon slavery has divided the Whig party in that, attuned old Whig Sinte, and it is likely that in the final result the Whigs and Free Soilers will divide the delegation between them. [No Democratics such, thank God can hope for success there. These will concided fall elections. The number of members chosen in fall elections. The number of members chosen in them will be 123, which is summing my calculation as to Masaachucits to be correct, will exhibit a Whig loss of 24 members and a gain of 6, and pre-sents and to so d 18. More than one who fured theye, and touched that woodfous thing, the human heart, now sleeps low and silent. The grass grows upon their graver, the dew fails and stitues or the flowers that wave above their lowly heads! Where is their windom-and ethoanswers. where?
