

In Agony With Eczema.

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Altie Etson, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

Oldest Vehicle in America.

What is claimed to be the oldest vehicle in America is in possession of the chamber of commerce, Los Angeles, Cal. It was made by the Pueblo Indians of Tesuque, a village nine miles from Santa Fe, New Mexico, and was purchased in 1878 from a native named Alfonso, who at that time was 85 years old. His statements and the traditions of the village were to the effect that the big, clumsy ox cart, or carreta, was handed down from father to son for sufficient generations to place its origin in the seventeenth century. The cart is composed of wood and rawhide throughout, no metal being used in its construction. The wheels are heavy sections of sycamore, with clumsy, bow-like pieces of rim secured opposite each other on each wheel. The diameter of the two ungainly wheels is 98 inches. The axle is of hard wood and the 12-foot tongue consists of a single length of mesquite. The body of the vehicle is six feet long and very broad and high in proportion. It is of rude, rack-like construction.—Popular Mechanics.

Cures the "Incurable."

One of the Noble prizes recently awarded at Stockholm, that for the most important discovery in medicine, went to Prof. Theodore Kocher, of Berne, Switzerland, who is now 68 years old. Before Dr. Kocher, goiter was considered incurable. He was the first, about 1880, to attack this plague in the Valais canton and to deny that the taking away of the goiter at first provoked cretinism and then led to death. He discovered the causes of these phenomena. At the surgical congress of Berlin, he communicated the results of his researches. He showed that the goiter could be removed, but that it was necessary to guard against the extirpation of the gland to which it was attached. This skillful surgeon has made more than two thousand cures of this kind.—Le Figaro.

A GOOD CHANGE

A Change of Food Works Wonders.

The wrong food and drink causes a lot of trouble in this world. To change the food is the first duty of every person that is ill, particularly from stomach and nervous trouble. As an illustration: A lady in Mo., has, with her husband, been brought around to health again by leaving off coffee and some articles of food that did not agree with them. They began using Postum and Grape-Nuts food. She says:

"For a number of years I suffered with stomach and bowel trouble, which kept getting worse, until I was very ill most of the time. About four years ago I left off coffee and began taking Postum. My stomach and bowels improved right along, but I was so reduced in flesh and so nervous that the least thing would overcome me.

"Then I changed my food and began using Grape-Nuts in addition to Postum. I lived on these two principally for about four months. Day by day I gained in flesh and strength until now the nervous trouble has entirely disappeared and I feel that I owe my life and health to Postum and Grape-Nuts.

"Husband is 73 years old and he was troubled, for a long time, with occasional cramps, and slept badly. Finally I prevailed upon him to leave off coffee and take Postum. He had stood out for a long time, but after he tried Postum for a few days he found that he could sleep and that his cramps disappeared. He was satisfied and has never gone back to coffee.

"I have a brother in California who has been using Postum for several years; his whole family use it also because they have had such good results from it."

Look in pkgs. for the little book, "The Road to Wellville." "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Fashions

New York City.—The simple full waist made with the round neck is always a charming one for evening occasions. This one is finished with a flat shaped band that allows effective

use of embroidery or of applique, and is graceful in the extreme, while it is absolutely simple. It can be made either with the short sleeves illustrated or with sleeves of three-quarter

The Uprstanding Brush.

A very satisfactory substitute for the osprey is a brush of gold wire nearly as fine as thread. A gold ornament holds the wire threads at the base. This resembles an Old World boquet holder in its cornucopia form. The upstanding brush is used to give a military dash to fur toques, and is invading the realm of millinery with great success.

Seven Gored Maternity Skirt.

The skirt that is simple, yet includes a generous number of seams, is always a desirable one for maternity wear. The seams give an effect of slenderness and the many gores allow satisfactory shaping. This one can be made either in walking or round length and is adjusted at the waist line by means of an elastic inserted in a casing, so that the waist is easily accommodated to the need. Serge is the material illustrated, but all plain and all striped sorts are appropriate. Figures should be avoided.

The skirt is cut in seven gores, which are shaped to give the best possible lines. It is finished at the waist line with a casing and elastic that allow of increasing the size easily and satisfactorily.

The quantity of material required for the medium size is ten yards twenty-seven or thirty-two, five and three-quarter yards forty-four inches wide, if material has figure or nap;

ter length, including two puffs, or if the waist is wanted for daytime use the yoke and deep puffs can be added, making it high neck and with long sleeves.

The waist is made with a fitted lining, and consists of front and backs. These last are gathered and arranged over the foundations and the shaped band finishes the neck. When high neck is used the lining is cut to the throat and faced with yoking material. There are regulation sleeve linings on which the full puffed sleeves are arranged and which are faced to form the cuffs when full length is desired.

The quantity of material required for the medium size is three yards twenty-one or twenty-four, two and a half yards twenty-seven or thirty-two, one and three-eighth yards forty-four inches wide, with five-eighth yard of silk for bands, one yard of all-over lace when high neck and long sleeves are used.

The Fashionable Veils.

Face veils of plain mesh with small chenille dots close together, either in black or brown, are most fashionable. The brown veils are worn with the green or checked gowns more frequently than black ones with the hats that match as the contrast of color is not as sharp.

eight and three-quarter yards twenty-four or twenty-seven, seven and three-quarter yards thirty-two or five and three-quarter yards forty-four inches wide if material has neither figure nor nap; width of skirt at lower edge three and seven-eighth yards.

wide if material has neither figure nor nap; width of skirt at lower edge three and seven-eighth yards.

Christians Lead World.

In a religious census of the world which he has just published, Dr. H. Zeller, director of the statistical bureau in Stuttgart, estimates that of the 1,544,510,000 people in the world, 534,940,000 are Christians, 175,290,000 are Mohammedans, 10,860,000 are Jews, and 823,420,000 hold other beliefs. Of these 300,000,000 are Confucians, 214,000,000 are Brahmins, and 121,000,000 are Buddhists, with other bodies of lesser numbers. In other words, out of every thousand of the earth's inhabitants 346 are Christians, 114 are Mohammedans, 7 are Israelites and 533 are of other religions.

Free to Our Readers.

Write Murine Eye Remedy Co., Chicago, for 48-page illustrated Eye Book Free. Write all about Your Eye Trouble and they will advise as to the Proper Application of the Murine Eye Remedies in Your Special Case. Your Druggist will tell you that Murine Relieves Sore Eyes, Strengthens Weak Eyes, Doesn't Smart, Soothes Eye Pain, and sells for 50c. Try It in Your Eyes and in Baby's Eyes, for Scaly Eyelids and Granulation.

Graft and Woman Suffrage.

It is one of the signs of progress that judges are sloughing their ancient garb of secret wisdom, and speaking their minds plainly. One of these progressives is Wesley L. Howard of the supreme court of New York. He has decided opinions on "graft," and is in favor of votes for women. The other day he told an assembly of suffragists that he favored giving them the franchise because they would help eliminate official corruption and corporate robbery.

Many Children Are Sickly.

Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York, cure Feverishness, Headache, Stomach Troubles, Teething Disorders and Destroy Worms. At all Druggists', 25c. Sample mailed FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Walked to Parliament.

All members of parliament did not ride to London from their constituencies in the lod days. Mr. Barclay, of Ury, who represented Kincardineshire in the eighteenth century, always walked the whole way, doing his 50 miles a day with ease. Marathon runners may note that his refreshment on the journey was a bottle of port, poured into a bowl and drunk off at a draught. George III. took much interest in Mr. Barclay's achievements and said: "I ought to be proud of my Scotch subjects, when my judges ride and my members of parliament walk to the metropolis." The former allusion was to Lord Monbodo, who always rode to town instead of driving, considering it unmanly "to sit on a box drawn by brutes."—London Chronicle.

Prices of Shoe Leather.

It may all be true that shoe leather and shoe material's have been making record heights in soaring above the pocketbooks of the people at large. The great modern aviators have been making some flying records in California recently, but they had to come down finally to the ground. Just now Alexander & Co., of this town, are teaching the shoe trade in general that soaring leather prices can be brought down to the ground in their tremendously attractive Round-Up Shoe sale. Judging from the crowds waiting to get into this store these Round-Up shoe sale prices appear to appeal to economical and thrifty shoe buyers.

Electric Cure for San Jose Scale.

The San Jose scale has nearly killed my fruit trees. They bore no fruit and the bark was badly shriveled, in some places it was split open. It occurred to me that perhaps I might be able to kill the scale by electricity. On a rainy day, when the trees were wet, I put a strong pocket (French) battery at the base of a tree and the other pole at the tip of each limb, and completely killed the scale, so that it has entirely disappeared. New shoots have come and good fruit has been produced.—Suburban Life.

Only One "Bromo Quinine."

That is Laxative Bromo Quinine. Look for the signature of E. W. Grove. Used the World over to Cure a Cold in One Day, 25c

Hunger Among the Rich.

"Do you know that there is almost as much hunger among the very rich in New York as there is among the very poor, in proportion to the size of the classes?" said a physician the other day. "It all comes from trying to get slender, and I may say is largely confined to the women. Why, not so very long ago a friend of mine, a specialist, was called to see a woman who had millions in her own right. Her own physician had not been able to determine what was the matter with her. The specialist looked her over and asked her a few questions. 'Madam,' he said, 'you are starving to death. All I would prescribe for you would be a few hearty meals.'—New York Sun.

Dramatic Cyclopedia.

Reginald Clarence, the well-known bibliographer of dramatic data, has been working for 20 years on a stage cyclopedia which will contain a bibliography of plays, of which it has been possible to find any record, from B. C. 500 to A. D. 1909.

The chair of Christian archeology has been established in the University of Rome by direction of the Minister of Education, and Professor Marucci has been appointed as its first occupant.

No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
