DRESSING TABLE AND SHIRT-WAIST BOX.

The trouble with the ordinary shirtwaist boxes is that they necessitate piling the waists one on top of the other so that those at the bottom are invariably crumpled besides being inconvenient, to get at. To one in need of a receptacle for waists and a dressing table as well, the following successful combination may appeal. First line two soap boxes with plain bleached cotton and stand them on end side by side. A board nailed across the tops of the boxes will hold them firmly in place, and a second board is to be fastened about six inches above the first by means of wooden end pieces. This forms the table top while the space between makes a convenient receptacle for gloves and handkerchief boxes, veil case and other toilet accessories. Next have the tinsmith cut two tongue shaped pieces of zinc, six inches long, which are to be nailed by the base to the upper front edge of each box, just in the centre. Two pieces of broomstick are then sawed off just long enough to reach from the front to the back, one end of each being nailed to one of the zinc tongues, and the other to the back of the box. A valance of cretonne reaching to the floor should be gathered and tacked in place with brass headed upholstery nails. The upper board is then covered smoothly and finished with a flounce which just covers the heading of the valance. An inexpensive mirror hung above the boxes completes the dressing table feature, while each of the broomstick rods within accommodates half a dozen wire waist hangers, which keep silk and lingerie waists in perfect condition and readily accessible.—Boston Post.

COUNTIES' GOOD RECORD

Venango and Forest Have Little Use for Jails.

Franklin—Venango and Forest counties are believed to hold the record for goodness. The former, with a population of nearly 60,000, has only one prisoner in its county jail, and he is a non-resident. Forest county, with nearly 10,000 residents, has no prisoners at all. This is the first time in 20 years that Venango jail has thus been all but untenanted. The one prisoner is Frank Barnes, serving a year's sentence for robbery.

The Forest county jail has been empty since Christmas eve, when the only prisoner escaped. Sheriff Maxwell and his wife went to a Christmas entertainment that night, leaving their charge in the corridor. When they returned he was gone, having "jimmied" his way out. The man's offense was not serious and Sheriff Maxwell made no effort to capture him.
