

CENTRE HALL REPORTER.

FRIDAY, JULY 24th, 1868.

FOR PRESIDENT: HORATIO SEYMOUR, of New York.

FOR VICE PRESIDENT: GEN. FRANK P. BLAIR, of Missouri.

DEMOCRATIC STATE NOMINATIONS FOR AUDITOR GENERAL: HON. CHARLES E. BOYLE, of Fayette County.

FOR SUFFRAGE GENERAL: GEN. WELLINGTON H. ENT, of Columbia County.

Willful Lying.

Gov. Seymour has ever been looked upon, by men of all parties, as one of the purest and best men of the country. The opposition themselves acknowledged this before his nomination by the Democracy as their candidate for the Presidency.

Then, again, as to the New York riot, caused by the Lincoln administration in attempting to enforce a draft upon that city for a number of men, double its real quota, an outrage and a wrong which its citizens very naturally felt like resisting.

Gov. Seymour, in so promptly "declaring the city in a state of insurrection," contributed largely to the suppression of the mob. It gave immediate legal efficiency to the military arm, and enabled the civil authorities to use that power with terrible effect.

Now, to expose the wickedness of these radical slanderers, we give another extract from the same radical organ, published since Seymour's nomination, in which it eats its own words, and which so palpably shows the disposition to misrepresent and to lie, that further comment is unnecessary.

THE Radicals would have it that on President Johnson's Western trip all the enthusiasm was done to the presence of Grant. Now Grant is going over very much the same route, but no one swings a hat at him.

Admission of Southern Members.

North Carolina and Louisiana are again represented in the Senate, or at least gentlemen claiming to be such representatives were on the 17th admitted to seats in that body.

So with all the men, thus far admitted as representatives from the southern States—all carpet-baggers, representing a constituency about whose interests they know as little and care as little as a Hottentot in Africa.

A Corruption Fund.

Below we give a copy of a printed circular which was sent to the postmaster of this place. It will be seen that the radicals at Washington are engaged in raising money for corrupt political purposes, and in order to perpetuate their tyrannical and wicked rule.

to Seymour, who the Watchman truthfully declares, is "an honest, firm, and capable statesman, whose administration will redeem the country."

Congress.

A writer in the Lock Haven Democrat strongly urges L. A. Mackey, Esq., of that place, as a Democratic candidate for Congress.

At Work.

Our Democratic friends across the mountains, over at Milroy, are already at work battling for Seymour and Blair. They have formed a club, called the Jeffersonian Democratic Club of Milroy, with Owen Coplin as President.

In July 1862 Gov. Curtin made a speech in Philadelphia in which he said:

If General Meade's army is defeated, which God forbid, I need not say to intelligent Pennsylvanians what is next to occur. Military men have concurred in the opinion, and properly, that the defense of Pennsylvania from—certainly of the city—will be found upon the banks of the Susquehanna; and certainly it is pleasant for me to announce that the call made upon the people of Pennsylvania has been responded to all through the State in a manner much beyond all official anticipation.

Here is a part of the record of Horatio Seymour, in the facts from history, from the lips of the Republican Governor: We asked for help from New York and it has come.

Deserter Law.

The Supreme Court has decided the law in relation to deserters unconstitutional, and hence those patched up rolls manipulated in the Secretary's office, in which men who honestly and faithfully served in the war, as well as crippled and discharged persons exempt from duty were placed as deserters, and which were sent to the Commissioners of the various counties, can now be sent back to those who manipulated them.

Letter From Milroy.

MILROY, July 23d, 1868. MR. EDITOR:—Again a week of scorching heat has passed over us. The thermometer stood from 91 to 102, during the greatest part of the time.

Our farmers are very nearly done with harvest but not so well satisfied, as was at first manifested, as the wheat turned out to have been very much destroyed by the weevil and black rust.

Since the improvements have been commenced in this place, a new brick yard has been erected, and brick are being made rapidly, and a number of brick dwellings are going up now.

NEGRO MOB—Attempt to Hang a White Man—Two Days' Severe Fighting—Fifty or Sixty Persons Killed.

and Sheriff, attempted to suppress the mob, which resulted in the death of ten or twelve negroes. On the 16th the numbers increased on both sides and skirmishing occurred during the day, the casualties being estimated at 25. A small body of troops arrived late last night and dispersed the rioters, killing three negroes.

Trouble in the Wigwam.

Old Thad. Stevens, the incarnation of Radicalism, the authorized mouth-piece exponent of the Republican party, flings "greenbacks for bonds" in the teeth of his lamb-like followers, who have bawled themselves hoarse crying repudiation against all who favored the doctrine.

Mr. Stevens—What was the law? That the interest should be paid up to a certain time at six per cent. in coin. After the bonds fell due these would be payable in money just as the gentleman from Illinois understood it; just as he (Mr. Stevens) understood it; just as he well understood it when the law was enacted; just as it was explained on the floor a dozen times by the Chairman of the Committee on Ways and Means.

GEN. GRANT draws twenty-two thousand dollars per year in gold and pays no tax, and if elected, proposes to hold on to his present position and pay, and play President besides. These Radicals seem to think there is no end to human endurance.

Effects of the Intense Heat—Large Number of Deaths from Sunstroke.

NEWARK, July 16.—There has been thirteen deaths, caused by the heat, in this city and vicinity during the past two days.

BOSTON.—A few cases of sunstroke occurred yesterday. Two were fatal.

PHILADELPHIA.—Thirteen deaths from heat has occurred from Monday to noon to-day.

BALTIMORE.—There were fifteen cases of sunstroke yesterday, three of which were fatal.

NEW YORK.—Total mortality, in the city, from Sunday to Thursday inclusive, seven hundred and forty-seven, including ninety-four certified by Coroners.

INDIANAPOLIS.—Eight or ten cases of sunstroke occurred yesterday and to-day, four of which proved fatal.

IOWA CITY, IOWA.—The thermometer to-day marked 100 degrees in the shade. Yesterday it stood at 104. Seven cases of sunstroke occurred, three of which proved fatal.

TRENTON.—Four deaths occurred in this city from sunstroke yesterday, and to-day about the same number occurred in the country townships.

Washington, 7 deaths; at Nashville, thermometer 100 in the shade, 2 deaths; St. Louis, thermometer 100, 20 deaths; in New York 30 deaths; in New Orleans thermometer 86, and the mercury has not risen above 90 the entire season; Atlanta the thermometer 102 in the shade.

CINCINNATI, July 21.—Three men, Phil. Clifton, Charles Roseberry and Val Elliott, who were arrested for the attempted robbery of the Adams Express car at Brownstown, Indiana, on the night of the 10th inst., left here last night under a strong guard to be placed in the Brownstown jail.

There is weeping and wailing among the Rads for the downfall of the registry law, Forney calls upon Geary to convene the Legislature and put through another bill. Whether "Hans" will treat us to that expensive luxury a few days will determine.

There was a scene on one of our streets last Thursday which has something more than an amusing side. It will be remembered that lightning killed two cows near the Baptist Church six weeks ago. A negro man brought the hide of one of them to a shopkeeper for sale. Several were seated around, and they began to question the negro in a jocular way. Upon his confession that he had eaten some of the cow because he had no other kind of meat, he was told that he now had lightning in him, and that if a lighted match was held to his breath he would explode. The negro looked very serious, but said that he had only eaten a hunk of butter, for when he went back to get more the dogs and vultures had been beforehand. Besides, he said he had not eaten the thunderbolt.

Death by Lightning.

Miss Mitchell, residing with Mr. McGirk, in Brown township Millin co., was killed by lightning on Tuesday afternoon of last week. She was engaged in writing a letter in an upper room, of the house at the time. The fluid, tearing off some of the weatherboarding first, entered the room where she was thus employed, and then passing through the floor to a lower room struck Mr. McGirk, who was shaving, and stunned him. After recovering sufficiently from the effects to do so, he ascended to the room where Miss Mitchell was and found her clothes on fire. This is all the particulars we have been able to obtain up to the date of writing.—Democrat.

The Southern Electoral Bill.

The action of the Senate in passing the Southern Electoral bill by so large a majority over the President's veto, surprised many. Speculation is rife as to what is indicated by a veto so decisive. As was anticipated in this correspondence, a Congressional conspiracy to seize the Executive branch of the Government has been exposed, and a hope was entertained that certain Senators would sustain the veto, but the Radicals voted in a solid phalanx, and will do the same when the great issue comes as to what States shall be declared not entitled to representation, in order to justify their refusal to count the votes in the Electoral College.

GEN. GRANT draws twenty-two thousand dollars per year in gold and pays no tax, and if elected, proposes to hold on to his present position and pay, and play President besides. These Radicals seem to think there is no end to human endurance.

THE NEW STATE HOSPITAL.—We have been informed that the commissioners appointed to locate the new State Lunatic hospital authorized by act of the legislature, have selected a farm near Danville, Montour county, and that the location has been fully approved by Governor Geary.

It should be remembered that twenty-two hundred honorably discharged Union soldiers, among whom were many of the most distinguished generals of the army, such as Franklin, Slocum, Ewing, Granger, Este, Egan, Baldy Smith, met at New York and adopted the Democratic Platform as their platform and Seymour and Blair as their candidates.

Who saved Harrisburg from destruction and Gov. Curtin from capture by the rebels in 1863? Horatio Seymour.

President Seymour is 57. Vice President Blair is 46. Such men as Sumner, Wilson, Phillips, &c., are now called negroes by brevet.

The British Bondholders' Candidate.

The fact is now fully developed that Washburne's man Friday, U. S. Grant, is the candidate of the holders of U. S. bonds in England. Seymour stands upon a platform which pledges him to equal taxation of all species of property, including the interest on U. S. bonds. Grant is in the hands of the great freetrader and importer, A. T. Stewart, Illinois Washburne and others who represent the aristocrats of Great Britain, who came to this country to speculate upon our misfortunes, and bought up our bonds at low figures, naturally opposing Seymour and gravitate toward Grant. These men hold a mortgage upon the estate of every man, woman and child in this country. They came here to draw their interest in gold upon this mortgage, but they are unwilling that it should be taxed as other property is taxed. Now, is this quite fair? If a subject of Great Britain holds real estate in this country, he is compelled to pay taxes upon his property. Why then should not another subject of Great Britain who holds bonds of the United States, which are a mortgage upon the real estate of this country, also pay taxes? Certainly, there is no reason why he should not. Who, then, can vote for U. S. Grant, the candidate of the British Bondholders.—Patriot.

He was asked what kind of thing that was, and if he had ever seen one. Yes he had seen a great many; had dug them out of the ground, and they were shaped like an iron wedge, with a blunt and sharp end. If they were placed upright, with the sharp end on the ground, they would go down into the earth deeper every time there was thunder. He was then asked if he would swear before a court of law that he had dug these bolts out of the ground, to which he very promptly, emphatically, and seriously declared that he would.

Upon the authority of several of our citizens who know this negro, we can say he is of full average intelligence with the rest of his race, and is a man of family. He is one of the stones rejected by the original builders of the American government, but who has been made the head of the corner under the new dispensation. He is a citizen, a voter, a juror, a witness in courts of law, while such men as Watts, Forsyth Clanton, Clay, Pettus, and twenty five thousand of the first minds of the State, are unfit to be several of these things. "Mine Got, vot a people."

640 MILES OF THE Union Pacific RAILROAD

Are now finished and in operation. Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento, will be finished in 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this GREAT NATIONAL WORK, at the earliest possible day, will be done.

THE UNION PACIFIC RAILROAD RECEIVES: I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to \$16,000 to \$48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own First Mortgage Bonds, to aid in building the road, to the same amount as the U. S. Bonds, issued for the same purpose, and no more. The Government permits the Trustees for the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy Trail, and completely supplied with depots, stations, turnouts, carshops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which over Eight Million Dollars have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to more than the interest on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that, must follow the opening of the line to the Pacific, but they certainly prove that FIRST MORTGAGE BONDS upon such a property, costing nearly three times their amount, are secure beyond any Contingency.

The Company have abundant means in their treasury, and make no appeal to the public to purchase their Bonds, as the daily subscriptions are entirely satisfactory; but they submit that, for entire security and liberal returns, there is certainly no better investment in the market.

The Union Pacific Bonds are for \$1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent in gold. The Principals payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of NEARLY NINE PER CENT. AND IT IS BELIEVED THAT THEY MAY SOON BE AT A PREMIUM.

The Company reserve the right to advance the price to a rate above par at any time, and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Subscriptions will be received in CENTRE HALL BY FRED. KURTZ, and in New York At the Company's Office, No. 20 Nassau Street, and John J. Cisco & Son, Bankers, No 59 Wall St.,

And by the Company's advertised agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or at any of the advertised agents. JOHN J. CISCO, Treasurer, New York, June 5/68.
