He has been a life-long Democrat, but it is not on that score that we ask Democrats to stand by him to a man, as we wish to keep a question of this kind, as free as possible from politics; but, with this good trait he combiness eminent fitness for the position, and is thereby the proper person whom Democrats should vote for.

### Privileged Classes.

Under this head the Cincinnati Ennirer thus enumerates those who constitute the "Privileged Classes,' under the present Radical dispensation

1. The bondholder. He is exempted from all State and local taxation. He receives his interest on his bonds in gold while every body else has to take their interest in legal tenders

2. The National Banker, who is re ceiving some twenty five or thirty per cent on his investment, by virtue of the valuable privilege which the Government has given him-to provide a national currency for the people.

3. The Southern negro, who has a Freedman's Bureau to look after his interests, and to feed and clothe him if he does not choose to work.

4. The New England manufacturer who receives an immense bonus in the shape of protection to his fabrics, all of which comes out of the pockets of the laboring classes, who are compelled to

5. The railroad monopolists to whom Congress has granted tracts of land large enough for empires, out of which they can build their roads and have a great deal to spare! A few favored men have thus voted to them, free of expense, a great railroad.

6. The congressman and legislators who sustain these privileged classes in their rascalities upon the people, and who are made partners on that account in the robberies.

7. The immense army of office holders who live upon the unclean drippings of the Treasury. It is the party opposed to the Demo-

cracy which, by the act of its leaders. has brought into being these privileged classes, and upon which they manily rely for their continued existence. It is no wonder that, with such immense interests drawing its hearts-blood, that the country has ceased to flourish, and

Well, imagine, if you can the surprise with which I have read the comments of Radical papers on that speech, perverting its meaning, distorting and construing my words of peace and hope into words of blood and revolution? I am made the advocate of strife and war, when from every pore of my heart there comes gushing the most carnest and sincere desire for peace-lasting eternal peace. The income of the Prince of Wales, which amounts to \$500,000 per annum, is too small for his expenses and he opnses to ask for an increase from Parliament.
