Are now finished and in operation. Although this road is quilt with great rapidity the work is thoroughly done, and is pronounced by the United States Commissioners to be first-class in every respect before it is accepted, and before any bonds can be isned upon it.

Rapidity and excellence of construction have been secured by a complete division of labor, and by distributing the twenty thousand men employed along the line for long distances at once. It is now probable

Four Million Dollars, which, after paying all expenses was much more than sufficient to pay the interest or its Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that a of the

First Mortgage Bonds apon such a property, costing nearly three times their amount.

Are Fntirely Secure. The Union Pacific Bonds run thirty years are for \$1,000 each, and have coupons at tached. They bear annual interest, payable on the first days of January and July at the Company's office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price 102, and at the present rate of

gold, they pay a liberal income on their cost. A very important consideration in determining the value of these bonds is the length of time they have to run.

It is well known that a long bond always ommands a much higher price than a short one. It is safe to assume that during the next thirty years, the rate of interest in the United States will decline as it has done in Europe, and we have a right to expect that such six per cent. securities as these will be held at as high a premium as those of this Government, which, in 1857, were bought

The Company believe that their Bonds, at the present rate, are the chespest security in the market, and the right to advance the price at any time is reserved. Subscriptions
