

CENTRE HALL REPORTER.

Woul'd You Like to Know.

Saxo, in a little madrigal, tells of a girl he knows, 'touched with pearl' and—well let him tell his own story.

Her sunny hair is wondrous fair And wavy in its flow; Who made it less One little tress— Woul'd you like to know?

Her eyes are blue, (celestial hue!) And dazling in their glow; On whom they beam With melting gleam— Woul'd you like to know?

Her lips are red and finely wed Like roses ere they blow; What dower giveth Those dewy lips— Woul'd you like to know?

Her fingers like the lilies fair, When lilies fairest grow; Whose hand they press With fond caress— Woul'd you like to know?

But the culmination of her beauty lies in her foot, which he describes thus:

Her foot is small, and has a fall Like snowflakes on the snow; And where it goes— Beneath that rose— Woul'd you like to know?

In Belgium, a few days ago, a young girl, whilst dancing, died in the arms of her partner.

Swearing on the Bible was first introduced into judicial proceedings by the Saxons, about A. D. 600. It was called a corporal oath, because the witness touched with his hands some part of the Holy Scriptures.

The Princess Koziyky, a beautiful Russian lady, has opened a cigar store in Moscow. Her father having lost her fortune, the nobles of Moscow offered her 2000 roubles a year, but she prefers to make her own living.

The violent deaths in New York city average one thousand per annum, and the deaths resulting from disease, but investigated by the Coroner, amount to about one thousand more. The fees alone paid to the Coroners of that city amount to \$26,500 every year.

A young mother in Leipzig, killed recently, her five children by breaking their skulls with a hammer. She then tried to kill herself in the same manner, but did not succeed. Upon being asked what had induced her to commit the desperate act, she said her husband had often scolded her and her children, and she had thought it would be better for all of them to die.

SOUTH AMERICA.

The Earthquakes—Later Details.

New York, October 11.—A review from South America to September 10 states that earthquakes continuing on the southern coast of Peru, but caused no further damage. Six thousand houses were destroyed by the previous shocks in Arequipa, which would cost \$49,000,000 to rebuild. Cases suffered but little damage. Provisions had been received all along the coast from Valparaiso to Peru, and the sufferers were abundantly supplied for the present.

At Iquique 167,000 quintals of salt were washed away by the sea. The yellow fever had appeared in Peru, and there were four cases in one day at Callao.

The heavy rains had interrupted travel and business in Chili.

The re-election of General Morgan to Congress from the Thirteenth District of Ohio, is a stinging rebuke to the Radical majority in Congress, that unjustly and meanly ousted him from his seat and put Columbus Delano in his place. That rascally transaction has received an appropriate condemnation at the hands of the people.

Let no man falter. Never give up the ship. "Truth is mighty and will prevail." Democratic principles are founded in truth and right, and they will prevail. The public mind may have become diseased, but the day of deliverance will come. At every contest we gain and every struggle gives evidence of returning reason among the people. The Democratic vote is larger to-day than ever before, and it will be larger in November than it is to-day.

The Defeat of Ashley.

One of the most gratifying incidents connected with the late election, says the Cincinnati Enquirer, was the defeat of Ashley for Congress in the Toledo District. He is a notorious corruptionist, and is a thoroughly dishonest partisan. His defeat is not simply a Democratic victory, but is the victory of honest men of all parties, who combined against him. His successful opponent, Judge Hoag, is one of the best men in the district.

The Merchant's Protective Union Mercantile Reference Register.

The Merchant's Protective Union, organized to promote and protect trade, by enabling its subscribers to attain facility and safety in the granting of credits, and the recovery of claims at all points, have to announce that they will, in September, 1888, publish in one large quarto volume: THE MERCHANTS' PROTECTIVE UNION MERCANTILE REFERENCE REGISTER, containing among other things, the Names, Nature of Business, Amount of Capital, Financial Standing and Rating as to credit, of over 300,000 of the principal merchants, traders, bankers, manufacturers, and public companies, in more than 20,000 of the cities, towns, villages, and settlements throughout the United States, their Territories, and the British Provinces of North America; embracing the most important information attainable and necessary to enable the merchant to ascertain at a glance the capital, character and Degree of Credit of such of his customers as are deemed worthy of any grade of credit, comprising also, a Newspaper Directory, containing the title, character, price, and place of publication, with full particulars relative to each journal, being a complete guide to the press of every county in the United States.

The reports and information will be confined to those deemed worthy of some line of credit; and as the same will be based, so far as practicable, upon written statements of the parties themselves, revised and corrected by well-known and reliable legal correspondents, whose characters will prove a guarantee of the correctness of the information furnished by them, it is believed that the reports will prove most truthful and complete, and therefore, superior to, and of much greater value, than any previously issued.

By aid of the "Mercantile Reference Register," business men will be enabled to ascertain, at a glance, the capital and grade of credit, as compared with financial worth, of nearly every merchant, manufacturer, trader, and banker, within the above named territorial limits.

On or about the first of each month, subscribers will also receive the monthly Chronicle, containing among other things, a record of such important changes in the name and condition of firms, throughout the country, as may occur subsequent to the publication of each half-yearly volume of the Mercantile Reference Register.

Price of the Merchants Union Mercantile Reference Register, fifty dollars, (\$50) for which it will be forwarded to any address in the United States, transportation paid. Holders of five \$10 shares of the Capital Stock in addition to participating in the profits will receive one copy of the Mercantile Reference Register free of charge; holders of ten shares will be entitled to two copies; and no more than ten shares of the Capital Stock will be allotted to any one applicant.

All remittances, orders, or communications relative to the book should be addressed to the Merchants' Protective Union, in the American Exchange Bank Building, No. 128 Broadway, (Box 2566,) New York. Sept. 4. 08-6m.

Isaac Haupt at Bellefonte, Pa., and Haupt & Co., at Millsburg, Pa., have already got a new supply of Spears' Anti-dust Cook, Parlor & Heating Stoves; also, Spears' revolving, light illuminating stove; Spears' new orbicular gas-burning parlor stove (cast iron cylinder). These have all proven themselves to be the best stoves in the world for burning either wood, hard or soft coal; they save their own make, make no dust, economize fuel, and are the best bakers in the world and have more conveniences than any other stoves now in use; people in want of stoves would do well to call at their ware-room and see their stock before purchasing elsewhere, as by a neglect of this they may be sorry, as many have already been.

SPEARS' ANTI-DUST GAS-BURNING COOK STOVE, (WOOD OR COAL.) SPEARS' ANTI-DUST GAS-BURNING PARLOR STOVE. SPEARS' REVOLVING LIGHT ILLUMINATING STOVE.

We claim for these stoves perfect cleanliness; in poking the fire, entire safety of the fire; they require very little attention; secure thorough ventilation of the room; thus preserving the health of the occupants; entire freedom from dust; uniform and well regulated heat; a gas-consumer of the first quality; great economy in fuel; neatness, cheapness and beauty.

which now stands unrivalled. This Reaper has advantages over all other Reapers now manufactured. One advantage we claim for it, is the lever power, by which we gain one hundred per cent over other machines. Another advantage is the hoisting and lowering apparatus, whereby the driver has under his complete control of the machine; in coming to a spot of lodged grain, the driver can change the cut of the machine in an instant, without stopping the team, varying the stubble from 1 to 14 inches at the outside of the machine, as well as on the inside. It is constructed of first class material; and built by first class mechanics. We warrant it second to none. All kinds of Horsepowers and Threshing Machines, Hay and Grain Rakes, latest improved.
