This Reaper has advantages over all other Reapers now manufactured. One advantage we claim for it, is the lever power, by which we gain one hundred per cent over other machines. Another advantage is the hoisting and lowering apparatus, whereby the driver has under his complete contro of the machine; in coming to a spot of lodg-ed grain, the driver can change the cut of he machine in an instant, without stopping the team, varying the stuble from 1 to 14 inches at the outside of the machine, as well. as on the inside. It is constructed of first class material; and built by first class machanies. We warrant it second to none.

TERMS .- The CENTRE HALL REPOR-Adulteration in Food and Drink. TER is published weekly, at \$1,50 per year

The New York World is entitled to the grateful thanks of the community for its sweeping exposures of the fraud and deception practiced in the sale of food. From the respectable corner grocers who sell oak and willow leaves for tea; sand for sugar; sweet potatoes and horse liver mixed with chicory for coffee, and all of these by light weight, the commissioner of the World has gone among the shop-keepers who retail still greater abominations to the poor in the Five Points and other wretched localities. The tea is the mere sweepings of the grocery stores mixed with "wads of leaves and dirt." The coffee consists of "peas, rye, chicory and burnt molasses," and the sugar "caked together, completely soluble a cabinet appointment. This would make and combustible," is, according to the a lively fight between the Cameron and report of the chemist who analyzed all these adulterations, "sweet enough to Winnebago and the little Winnebagoes are flavor the coffee, if applied in sufficient quantities." The liquors sold by these venders of cheap groceries are worse, if possible, than the food. The brandy now, rads, before the election you promised

and whiskey are made thus: WHISKEY

40 gallons common whiskey.

40 gallons water. 3 gallons tincture of Guinea pepper. 1 quart tincture of pellitory. 2 Ounces acetic ether.

11 gallons strong tea.

40 gallons pure spirits. 1 drachm of cognac oil. 1 pint spirit of raisins.

1 pint spirit of prunes. 1 drachm tannin powder. 1 oz acetic ether.

3 drops oil of neroli dissolved in 95 per cent. alchohol. Color to the de sired tint with sugar coloring.

The unscrupulous dealers thus double the quantity of their spirits, by thes arts, and, at the same time, sell a fiery lqiuid which scatters madness through the brain of their victim.

From the low haunts of misery where the poor are poisoned by sordid knaves, the agent of the World visited the marchoicest liquors are supposed to be sold to the fashionable and wealthy. The adulterations which are sold here as whiskey and brandy for twenty five and fifty cents a glass are only a little less pernicious than those of the black slums and alleys where misery crouch-1860, makes a maryelous sum, yet not a es. ARKANSAS.

More Outrages by Clayton's Negro Militia-Wides Spread Desolation and Terror Among the

[From the Memphis Avalanche, 17th.] All accounts from Crittenden county are of similar import, confirm the worst that has been told concerning the conduct of the militia towards the citizens. The negro militia are roving over the country in strong armed squnds, taking everthing they fancy and destroying much that they carmot carry. A reign of terror prevails which is difficult to be understood abroad. The worst days of the war business is suspended, and the people

are afraid to complain or attempt to Day before yesterday a gang of the milttia went to the house of Mr. Jack Ware, near Marion, an original and consistant Union man, and sacked his premises of everything valuable. He was well-to-do in the world, but the work of nearly a life time was swept away before his eyes in an hour. Many other citizens in the neighborhood

were treated in the same manner. On the srme day a party of the ne gro militia attempted to outrage the persons of four highly respectable white ladies-Mrs. Jeff Reeves, Miss Swepstod, daughter of the newly elec ted Radical county clerk, and two others, names unknown. By some means they were foiled in their damnasmall trace of firsil oil. Is the second, ble attempts, and several of them were arrested! The officers threatened to make examples of them, but so far all examples have been on the other side.

Last Thursday night, we learn, the five citizens who have been held as "hostages" were hung up by General Upham until life was nearly extinct, to try to force themstodisclose facts supposed to be in their possession. Noth ing, however, was elicited, as the victims of this torture probably knew nothing to tell. Two others are yet in jail at Marion, and have but glimmering hopes of liberation or even life.

We are satisfied that the tenth part of the many outrages committed by the militia in Arkansas has ever been published, ane probably never will be. The means of violence and oppression are abundant, but the complaints of of the wronged people travel on tardy

It was reported yesterday that the negro militia had nearly all left the neighborhood of Marion for Mississippi county, above, where they will of course re-enact the fearful scenes of plunder, and ruin, and personal injury perpetrated in other portions of the unfortunate States.

The Supreme Court of Massachusetts has decided an interesting case. It came in the form of a petition by a father for the custody of his child. In the absence of the father who follows the sea, the tender age and destitute, was placed in the care of a respectable family in Beverly, to be brought up as their own. When the child was nine years old the father appeared and endeavored to assert his claims. Judge Hoar refused to grant him the custody of his child, holding, with the concurrence of the other judges, that where by misfortune or accident a father has left his child destitute and dependent apon charity, and the child has been permitted to form new relations in life so deep and strong as to change its whole nature and character, the child should be considered as emancipated by the father, and the father cannot assert his legal right to its custody.

The cevil war in Japan is considered at an end, the capitulation having been concluded November 6th, the birthday of the Mikado. Yeddo has become the permanent residence of the Mikado, and the Tycoon has retired to his private possessions with all his people who wished to follow him, and those willing to take employment in the new government were retained. The removal of the people of the Tycoon from Yeddo commenced December 15. Some 13,000 were to be sent to the Tycoon's new province, Shiusidizn. The ship King Phillip was chartered, and made one trip to the province, carrying 1,350 passengers.
