I would not wish to assert anything that would do in-justice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbirth it is far oftener caused by direct irritation, applied to the mucous members of the vaapplied to the mucous members of the vama itself. It is but simple justice to the subject to enumerate a few of the many ad ditional causes which so largely affect the ditional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and mar-riage, causes the years that nature desig-ned for corporeal development to be was-ted and perverted in the restraints of dress, the and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Mr. KURTZ: By your permission I will say a few words to "Down the Valley." I say a few words to "Down the valley." I have been a reader of the Reporter now for nearly a year, and during this time often looked through its columns for an article from "down the valley," but always looked in vain until last Saturday, (the day on in vain until last Saturday, (the day on which I regularly get the Reporter), whilst again looking over the paper, I was agree-ably introvised to see an article on "Farm Talk." I was so much pleased that I read and re-read the article. Well done, my friend, "down the valley," try again. I knew long ago that you could write for the paper if you only had more courage. Now take my advice and write for the Reporter take my advice and write for the Reporter and you will find that it will improve your mind, besides making you very popular among the people of Centre and adjoining counties—for you must bear in mind that the Reporter goes outside of Centre county. Centre is my native county, and not-withstanding I am now residing in Northumberland co., I still have an hungering umberland co., I still have an hungering and a thirsting for news from good old Centre, and the Reporter always brings me "lots." Now I would suggest to "Down the Valley," that in the next issue of the Reporter he give us some more "Farm Talk," give us, for instance, his way of feed is best for young pigs, &c. We all know that corn is not good for them on ac-count of its heating nature : also, what kind count of its heating nature; also, what kind of food is best for hens. Some of my neighbors say they feed their hens roast corn to make them lay, others say bran slop, while one man argues that bone meal

is better than anything else to make hens lay. Chilesquaque, Feb. 1. JAB.
