

CENTRE HALL REPORTER.

Centre Hall, Pa., Feb. 26th 1898.

WATCH, MOTHER!

Mother, watch the little feet
Climbing o'er the garden wall,
Rounding through the busy street,
Ringing cellar, shed and hall.
Never count the moments lost,
Never count the time it costs—
Guide them, mother, while you may.

Mother, watch the little hand
Picking berries by the way,
Making houses in the sand,
Tossing up the fragrant hay.
Never dare the question ask,
"Why to me the thankless task?"
These little hands may prove
Messengers of Light and Love.

Mother, watch the little tongue,
Prattling eloquent and wild;
What is said and what is sung
By the joyous, happy child.
Catch the word while yet unspoken,
Stop the vow before 'tis broken;
This same tongue may yet proclaim
Blessings in a Saviour's name.

Mother, watch the little heart,
Beating soft for you;
Wholesome lessons now impart—
Keep, oh! keep that young heart true,
Extricating every weed,
Sowing good and precious seed,
Harvest rich you then may see
Ripen for eternity.

STRAW FOR HORSES.

The value of straw as a feeding substance was never better proved than by the following fact: A firm having a large number of heavy wagon horses, had frequent occasion for the veterinary surgeon, until they were recommended to mix a certain portion of fine cut straw with the clover hay. This has been practiced now for some years, and their bill for horse-doctoring is at a minimum. The partner of the firm who told me this, said how advantageous it was not to be deprived, as they formerly were, of the use of several horses—to say nothing of the saving in expense and loss. The fact is, the food was too rich or too mucilaginous, for I have often been told that fine cut hay unmixed with straw chaff, falls in the stomach, and thus is, I suppose, deprived of the action of the gastric juices. We know that too succulent or rich grasses are injurious, and no doubt straw chaff mixed with it acts mechanically, if not chemically, with advantage. It would be well for our agricultural friends to know that for several thousand horses belonging to the London General Omnibus Company, the food is all passed through the chaff cutter with, I believe, a certain proportion of straw. While spring grazing our bullocks on tares, we mix straw with them in their early growth, but as they advance to flowering and podding, this is not required, because there is much wheat and oats grown with this, which gets intermixed on passing through the chaff machine.

It is related that a member of the Pennsylvania Legislature, seeing a quantity of boxes in the rotunda of the House at Harrisburg, to be used in sending away documents, asked an old stager what they were. "Shoe boxes, I presume." "What," said the member of the Huckleberry District "we don't draw shoes, do we?"

A fire at Altoona, last Thursday morning, destroyed the Vindicator newspaper office and adjoining property, occupied by R. A. O. Kerr, and J. Birkowitz. The fire was the work of an incendiary. The loss \$25,000.

A Baltimore special of yesterday says: The remains of J. Wilks Booth, were not interred yesterday, but will be to-day, in the presence of Mrs. Booth, Edwin and Junius Brutus Booth. The skeleton has been put in a metallic coffin. Hundreds of people viewed the remains yesterday afternoon. There is nothing but bones left. Upon one foot was an old army shoe, and on the other a boot cut open upon the top. This covered the left foot, the leg having been broken in his leap from the stage box of the theatre after he had assassinated President Lincoln.

An interesting incident is told of the illness of the Duke of Prabant. The young invalid had a great passion for music, and much of the long suffering which has excited such just admiration has been due to the soothing affects of Orphans. His mother, perceiving that he had a special taste for the harp, resolved that none but herself should furnish him with that distraction. In the midst of her melancholy duties she has found time to learn the instrument, and now plays well.

On the second Sunday in January usual "women's feast" was celebrated in the villages of Meisterswanden and Fahrwangen in Switzerland. On this occasion the women take the men's places. The young men are led to their seats and the expenses are exclusively defrayed by the latter.

Stove-pipe, Tinware and Fruit Cans, Drills and Threshing Machines, both for 4-horse sweep power and 2-horse tread power. Also the Tornado Separator that will cut-thresh any machine ever brought to Centre county.
Tease Haupt at Bellefonte, Pa., and Haupt & Co., at Milesburg, Pa., have already got a new supply of Spears' Anti-dust Cook, Parlor & Heating Stoves; also, Spears' revolving, light illuminating stove; Spears' new orbicular gas-burning parlor stove (cast iron cylinder). These have all proven themselves to be the best stoves in the world for burning either wood, hard or soft coal; they sieve their own ash, make no dust, economize fuel, and are the best bakers in the world and have more conveniences than any other stoves now in use; people in want of stoves would do well to call at their ware-rooms and see their stock before purchasing elsewhere, as by a neglect of this they may be sorry, as many have already been.
SPEARS' ANTI-DUST GAS-BURNING COOK STOVE, (wood or coal).
SPEARS' ANTI-DUST GAS-BURNING PARLOR STOVE.
SPEARS' REVOLVING LIGHT ILLUMINATING STOVE.
we claim for these stoves perfect cleanliness; in poking the fire, entire safety of the fire; they require very little attention; secure thorough ventilation of the room, thus preserving the health of the occupants; entire freedom from dust; uniform and well regulated heat; a gas-consumer of the first quality; great economy in fuel; neatness, cheapness and beauty.
