ings, Illinois.

To make up the slate it was necessary to make Elihu B. Washburne Minis ter to France. Ex-Gov. Andrew G. Curtain goes to St. Petersburg.

It must be confessed that the new ministry is much stronger than the first one. Hon. Hamilton Fish, although not a man of any extraordinary ability or shining qualities, is a decided improvement on the coarse, ignorant and boorish Washburne, who will take the place of John A. Dix at the French Court. Mr. Fish has held the office of Governor of New York, and has served one term in the Senate of the United States. In politics he was formerly a Whig, and since the dissolution of that party, he has been a moderate Republican.

> A Boy's Trials. The first long-tailed coat.

We do not think that any boy ever out on his first long-tailed coat without a sense of shante. He first twists his back half off looking at it in the glass, and then, when he stops out of doors. it seems as if all creation was in a broad grin. The sun laughs in the there are faces at every wincow; his boards creak with consciousness of the strange spectacle, and the old pair of pantaloons that stop a light in the gar ret window nod with derision. If he is obliged to pass a group of men and boys, the trial assumes fts most terrific stage. His legs get all mixed up with mbarassment, and the flap of the dangling appendage is felt against them moved by the wind of his own agitation; he could not feel any worse were a dish-rag to be worn by him as a badge of disgrace. It is a happy thine for him when he gets to church and sits down with his coat tail under him but he s still apprehensive with thinking of the Sunday school, and wonders if any of the children will ask him to swing his long tailed blue.
