IN A SNARL -The Bellefonte, Aaronsburg & Youngmanstown turnpike comp. is likely to have its peace disturbed. At the annual election held at Woodward about a week ago, there was quite a warm and exciting time among the stockholders, upon the subject of the additional tell-gate settled by a course of law.

RAILROAD ARE NOW COMPLETED. As 534 miles of the western portion of the line, beginning at Sacramento, are also

done, but 200 MILES REMAIN To be finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.

Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to g subsidy in U. S. Bonds on its fine as completed and accepted, at the average rate of about \$26,500 per mile, according to the difficulties encountered. for which the Government takes a second Centre Hill Store, for which the Government takes a second lien as security. Whether subsidies are given to any other companies or not, the Government will comply with all its con tracts with the Union Pacific Railroad Copany. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

First Mortgage Bonds at Par. By its charter, the Company is perm'tted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, and No MORE. These Bonds are a First Mortgage upon the en-

tire road and all its equipments. THEY HAVE 30 YEARS TO RUN. AT SIX PER CENT., and, by special contract, both

PAYABLE IN GOLD. The U. S. Supreme Court has recently decided that this contract is in all respects valid and of legal obligation.

PRINCIPAL AND INTEREST

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent. gold interest bonds of the U. S. (the '61's) will be due in 12 years, and they are worth 112, if they had 30 years to run, they would stand at not less than 125. A perfectly safe First Mortgage Bond like the Union Pacific Cane Seated Rocking Chairs, should approach this rate. The demand for European investment is already considerable, and on the completion of the work will doubtless carry the price to the large premium.

SECURITY OF THE BONDS. It needs no argument to show that a First Mortgage of \$26,500 per mile upon what for a long time must be the only rail. road connecting the Atlantic and Pacific States is PERFECTLY SECURE. The entire amount of the mortgage will be about \$30,-000,000, and the interest \$1,800,000 per annum in gold. The present currency cost of this interest is less than \$2,500,000 per annum, while the gross earnings for the P. S .- We also buy Hides and Calf Skit s year 1868, FROM WAY BUSINESS only jan8 on AN AVERAGE OF LESS THAN 700 MILES OF ROAD in operation, were

FIVE MILLION DOLLARS.

The details of which are as follows: \$1,024,005 97 Freight ... 2.040.233 19 51,423 08 Express..... Miscellaneous 91,626 27 Government troops.. 104,077 77 freight 449, 440, 33 201, 179 09 Contractors' men material 968, 430 32

This large amount is only an indication of the immense traffic that must go over the through line in a few months, when the great tide of Pacific coast travel and trade will begin. It is estimated that this business must make the earnings of the road from FIFTEEN TO TWENTY MILL-
