

yellow fever, typhoid fever and other such infectious diseases. It requires contact with the poison, and if a thousand cases of fever were removed from the place of the disease no danger whatever need be apprehended. The fever in the Dry Tortugas was of the same type as the typhoid, and the treatment on the expectant plan—that is, watching the case and treating the symptoms as they manifested themselves.

"Were you untrammelled in your management of the sick?"

"No sir; there's where I felt the awkwardness of my position. I was trammelled, and consequently could not act with the independence a physician under such circumstances should have."

The doctor talked at considerable length on many other topics connected with his imprisonment. In reply to the remark that his feelings must have been greatly exercised at coming within sight of his old home and meeting his wife once more, he said, with visible tremor, that words were entirely inadequate to express the overwhelming emotions that filled his mind. It appears that a few days before he left the Dry Tortugas a company of the Third artillery, who were on board a transport about being shipped to some other point, on seeing the doctor walking on a parapet, set up three cheers for the man who perilled his life for them in the heroic fight with the dread visitation of fever. We talked along till midnight, then retired to a comfortable feather bed, and, rising with the sun in the morning, started on our homeward journey to Washington.

CENTRE HALL REPORTER.  
CENTRE HALL, PA., May, 14th 1893.

### GOVERNOR.

Not only the rads of Centre are giving Geary the cold shoulder, but we notice that in other counties Snicker-ville stock is no go. We do not believe, however, that the opposition to Geary's re-nomination will be formidable enough to defeat him in the next radical convention. We hope he will be placed upon the ticket again. Hon. Winthrop W. Ketcham, of Luzerne, has consented to the use of his name for the radical nomination for Governor, and Gen. Hartranft is spoken of as a compromise candidate, to throw Geary overboard gently. Congressman Morrell is also spoken of.

### NOT HARMONIOUS.

Down in Washington, where negroes vote, and where the radical worthies of the land congregate and legislate for nigger union and where all the fathers of the detestable isms that have cursed the country, now hold high carnival, the saintly rads are sadly at odds and are split up into contending factions, ready to scratch out each other's eyes to gain the spoils at the approaching municipal election. A letter from Washington says: It is likely there will be two or three republican tickets in the field here at the coming municipal election—one composed entirely of whites, second, whites and blacks mixed, and third composed entirely of blacks. Fears are entertained that in this triangular republican fight the city will pass into the hands of the democrats.

### The New Registry Act.

The radical legislature of 1893 passed a registry bill which was set aside by the supreme court of our State on account of its unconstitutional features. The whole thing was a scheme concocted by the radicals to aid their party in the elections, by throwing impediments in the way of the voter, in a manner not warranted by the constitution of this Commonwealth. This, however, did not satisfy these base schemers, whose sole aim is to legislate for partisan purposes, regardless of the constitutional rights of the citizen, regardless of their oaths, and with an eye only to continue in power their corrupt party, which is driving the State and nation to the verge of bankruptcy. The late radical cabinet at Harrisburg, again passed a registry act, which is as unconstitutional as that of the session of 1893, and as it is barely possible that this infamous piece of legislation can be tested before the supreme court, previous to the next election, it will be well for democrats to study the act, and prepare for the fall election under its provisions, so that they may be ready for any emergency under its sections at the ballot-box, for one election at least, and thereafter we hope to see it need the doom of its unconstitutional predecessor, by being set aside. The Pittsburgh Post has an editorial upon this subject, from which we copy the following:

"Satisfied that the law of the last ses-

sion is unconstitutional, and was conceived in a desire to annoy and harass voters, and drive them away from the polls, we call attention to it, not to urge men to resist but to obey in all its annoying particulars. True it is unconstitutional and consequently void; for it demands qualifications outside of the supreme law, which the courts say must enter alone in this particular. True it was got up by knaves and tricksters, and voted for in the legislature by the slaves of caucus domination, for the purpose of arousing the passions of their opponents and provoking them to absent themselves from the polls or from the registry; but we probably cannot have an authoritative decision upon the question prior to the election, and it would not be wise to risk the result upon the decision of Courts made up of Judges whose chief qualifications consists in being members of the Republican party.

Our County Committee should, therefore proceed without delay to take measures to ensure the registry of every democratic voter. The law is a worthless one, but we must not suffer ourselves to be provoked, annoyed nor even insulted out of our vote. Have every name placed upon the list, and take early and efficient measures for complete organization in each election district. Some townships, we learn, have already begun the good work; let every one go into it and keep it up until the election. We must carry the State; we can do it by earnest work, and without that work we cannot. Defeat means the eternizing of the public debt and the solidification of the Money Power; it means the social and political equality not only of the negro who has been born here, but of the negro who will be colonized here by the Radical politicians; it means the alteration of the constitution of the State by an act of Assembly, passed by a Legislature pre eminent over all others for unblushing venality and utter worthlessness; it means the ratification by the people of a caucus born plan to deprive thousands of honest patriotic citizens of their votes, simply because they choose to vote the Democratic ticket."

### The Rail Road.

We stated in our last, that the committee which was appointed to confer with the Penna R. R. Co., relative to the construction of the L. C. & S. C. R. R., had been well received by the former, and that their interview was of a nature to make the friends of the road feel hopeful. We hope before long to give some more definite information upon this subject, and too, of a nature, which may point to the early construction of this so much desired enterprise. The Millburg Telegraph has the following, with reference to the said interview:

"We are informed that the Committee appointed at the Millburg Railroad Meeting to confer with the Penna R. R. Co., fulfilled their appointment. They were cordially met by the officers of the Company, who assured them that they stood willing to rail and stock the road as soon as it is ready for the rails. Moreover, they intend sending a number of engineers over the route, to examine and report upon its feasibility and advantages. This looks well, and the prospect is all the fairer, because the company is wealthy and independent, and therefore they hold out no inducements and make no promises which they do not mean to stand up to. When this Company says 'work,' they mean it. Let us all join hands and prepare the road at once."

### The Lewisburg Chronicle says—

"The Committee appointed by the recent Millburg meeting to confer with the Penna R. R. Co., had an interview with that company in Philadelphia on Thursday, the 29th ult. They had a full hearing and we are informed they have everything to encourage the belief that the views of the people along the line will be promptly met by the Penna R. Co. At the suggestion of the committee the company will send a party to look at the country within ten days, and it is probable they will enlarge on the liberal aid at once tendered, after seeing our magnificent valleys. The prospect is therefore decidedly hopeful, and if our people manifest the interest they profess to have, the Railroad will be a reality in a shorter period than the most sanguine anticipated. The Committee is at work with prospects the most encouraging, and no doubt they will soon be able to call another general meeting and submit a satisfactory report. Let the good work go on now."

Peter Cartwright, the famous Methodist preacher, has been sixty five years in the itinerant service, and fifty years a presiding elder. Within the last two months he has labored with great success in his district of Illinois. His wife, to whom he was married in 1808, still survives.

Gen. Durbin Ward fought for the Union at Chickamauga. General James Longstreet fought against the Union at the same time and place. General Durbin Ward is removed by President Grant from the office of District Attorney at Cincinnati. General James Longstreet is appointed to a fat office at New Orleans by President Grant.

General Mitchell commanded the United States troops at Valverde and whipped the rebels. Colonel Crow commanded the rebels at Valverde and was whipped by the United States troops. General Mitchell has been removed by President Grant from the Governorship of New Mexico where the battle of Valverde was fought. Colonel Crow has been appointed by President Grant to be Governor of New Mexico.

General Kupper entered the Union army when the war began, and rose from the ranks by brave services to the command of a brigade. After the war was over he was appointed Postmaster at Harrisburg. He has been removed by General Grant, and George Bergner, who staid at home and made a fortune out of the public calamities, has been appointed in his place.

President Johnson permitted Grant's father and brother-in-law to remain in office. Grant removed President Johnson's son from a petty office in Tennessee, and removed General Blair from being a Director of the Pacific Railroad.—Pittsburgh Post.

Gov. Curtin, president of the East India Telegraph company, and A. K. McClure, solicitor of the corporation, had interviews with the Secretaries of State and Navy in relation to the introduction of telegraphs into China. The company have a grant procured by Mr. Burlingame, when he was American Minister in China, between Sator and Shanghai, connecting the commercial cities of Asiatic coast by telegraph. They have five hundred miles of cable ready to ship at day down, and will leave the remaining five hundred miles ready to ship during the summer. Orders will be issued to the commander of the Asiatic squadron to render all necessary aid and protection. The State Department will instruct our minister and consuls to give their official aid to the enterprise. This line will be completed during the present year, and by that time there will be a continuous line from the Mediterranean, by India, to China, thus connecting the commercial cities of the Asiatic coast with Europe.

### Celebration of the Completion of the Pacific Railroad.

Philadelphia, May 10.—At half-past two precisely, Philadelphia time, the news received of the driving of the last spike of the Pacific railroad. Word was sent to the mayor, and in a few minutes the bells on Independence hall and various fire stations were rung, drawing crowds into the streets, thinking a general alarm of fire was being rung. People soon ascertained the reason of the ringing of bells, and flags were immediately hoisted everywhere. A large number of steam fire engines ranged in front of Independence hall with their screaming whistles. The hoarse carriage bells were also rung. Joy was expressed on every face at the completion of the great work of the century. The sudden flocking of the people to the State House reminded one of the reception of the news of the surrender of Lee's army, when a similar scene was enacted.

WASHINGTON, May 10.—This afternoon there was an interesting crowd, principally members of the press, in the receiving office of the Western Union Telegraph company, watching the instrument which was in connection with that at the junction of the Union Pacific and Central Pacific railroads. The operator at the latter point about two o'clock telegraphed: "Keep quiet. When the rail is laid I will say done." No came a di pitch. "Amst ready." Then—"Pray it is being offered. After I say done I will close the circuit, so you can tell it is finished." Another dispatch announced the prayer of the spike, and shortly after the signal of striking the first blow was given and then other blows, the last rail having been fastened at 2:45 p. m., Washington time. The word from the operator, "Done," was pronounced and the circuit closed. A little bell attached to the instrument gave voice to the pulsation of the wires.

Cincinnati, May 7.—A bold attempt was made to assassinate a policeman on his beat at one o'clock this morning. Matt. McCarty, a desperado often before the Courts for assault and battery, stole up behind officer Bennett, at the corner of Fifth and Vine streets, placed a four shooter within two inches of his head, and snapped twice without discharging it. Bennett turned, collared the would-be assassin, knocked him down with his mace, and got two more blows in, when two bystanders interfered and prevented a fatal result. McCarty was badly but not mortally wounded about the head. He was taken to the station house, and a charge of attempting to assassinate was lodged against him.

MORSE'S INDIAN ROOT PILLS.—We give you in this medicine the result of a lifetime of study and trial; before this medicine all others are but nostrums. They are made from simple roots, and are the best medicine in the world for all Bilious diseases, Female Irregularities, Headaches, Indigestion, Liver Complaints, &c. They purify the blood, remove all obstructions, cleanse the skin of all pimples and blotches, and are perfectly safe and safe in their operation. We ask you to use them because we know their virtues. Trial is the Touchstone by which to prove them worthy. Use Morse's Indian Root Pills. For sale by all Dealers. ap26/93

### THE MINING DISTRICT.

The Strike Commenced—Mines Deserted—The Men Refusing to Work—The Strike Spreading Over the Entire Coal Region—No Decisive Violence Anticipated.

MAUCH CHUNK, May 10.—Advices from the coal mines are to the effect that the long-threatened strikes of the miners has commenced. The Summit Hill mine was deserted this morning. Men congregated in groups, refusing to work.

A dispatch from Brown's Run announces a similar state of affairs there. The strikers are under the impression that the Luzerne men are also out. It is known that the men at Hyde Park have not yet struck, but they are hourly expected to do so. They are probably awaiting advices from neighboring mines. It is reported that all the miners in Luzerne county, with the exception of Hyde Park, have struck. Schuylkill county is also out, and there is no doubt but that before tomorrow the strike will have extended over the entire coal region.

As yet no acts of violence have been reported, and none are anticipated, as the strikers appear more peaceably inclined than on former occasions of a like character. It was generally understood last week that the strike was indefinitely postponed, but the general action of those employed in different mines, this morning, indicates that a secret understanding has existed between them, and that the reported postponement was a ruse for the purpose of taking the companies by surprise, and thereby increase the chances for the success of the strikers.

### SECOND DISPATCH.

MAUCH CHUNK, May 10.—It is now ascertained that work is entirely suspended in the Lehigh and Schuylkill regions. Nothing has yet been received from Wilkesbarre, but it is supposed that the same state of affairs exists in that locality.

### For the Reporter.

LOOP, MAY 7TH 1893.

Permit me, dear sir, to ask you once more for a little space in your paper which is such a welcome visitor in nearly every household in this part of the democratic vineyard. There are but two persons in this vicinity who do not subscribe for the Reporter and I will venture to say that they must have received their education under the \$1200 Superintendent and faculty system of Common schools and commenced the study of Cow-eology and Shoe-eology before learning to read.

As ye Editor does not favor us with a visit occasionally it will not be amiss to give you a description of our country and tell you what we are doing. Our village is pleasantly situated upon the banks of Sinking Creek, eight miles east of Bar Meadows and about twelve miles west of Owltown. We have one mill, a coach shop, smith shop, boot & shoe shop and a store. Wagner of the smith shop is a practical hunter and fisherman which is evident from the number of deer hides, fox scalps and fish bones which he takes pride in showing to his friends as trophies of his wonderful success. Rasmann, of the coach shop, has been striving for the championship of the Fishery, and although he is a young man, he is almost entitled to it, having caught fourteen splendid eels in one net a few nights ago. Heimbach, who lives in the suburbs of the village, has caught more large fish than any other man in the Loop, but Rasmann has surpassed him in point of numbers. Let me here add that Rasmann has no one to call him by the endearing name of papa. Harter of Rable's Mill, and Allen of Royer & Allen's Mill, make the best flour in the county and to this fact the citizens of Centre Hall and vicinity can attest. Let me here say that Rice of the Red Mill, makes splendid work, but Cupid very nearly led him astray. "Rabe," of Hungry Hill, and "Bill," of Sweet Hollow are planting corn. Jim is painting for Heimbach and Jake is buying more fine cows for less money than any man in the county. I must not forget Newville which is another prominent town in the Loop. There they grind all the coffee on one side of the road and the citizens are entertained by people having made great improvements in the buildings and improve rents on their roads.

Fussey "ale, where our worthy and efficient assessor lives does not improve very rapidly, though Colyer manages to improve his property amazingly. By the way, Mr. Editor, you should see our assessor in his new hat. I'll bet my b-over on it that some one made him a present of it just to induce him (the assessor) to return his name to the Commissioners as a suitable one for tax gatherer, but Mr. Assessor, you keep the hat and let the collector look out for himself. The ladies of the Loop are as industrious and as good looking as ever and one prominent and excellent characteristic of them is the fact that they do not foolishly and lavishly spend any time practising upon the greecian bend. They are more sensible than some of our city girls and deserve more honor for their diligence. In my next I shall give you an account of Churchville, the Capital, New-Nix, Chickiee's Paradise, Tom's Hole and other important localities. Persons who live in the East and desire to visit the Loop for their health will come via Milroy and stop at the Union House, Milroy, Wm. Bell, proprietor, where they will find the most agreeable landlord and best entertainment this side of the Eastern cities.

Truly Yours,

TUSSEY MOUNLAIN BOY.

Watermelons by the thousand are being received in San Francisco from the Sandwich Islands.

Ex-Governor Henry Dutton, died, at New Haven, Conn., on the 26th ult., aged 73 years.

### The Horrors of Sing Sing.

An ex-convict writes to the New York Sun detailing some of the tortures of Sing Sing:

#### THE SHOWER BATH TORTURE.

Over the head of the sinner is a water pipe about four inches in diameter, which is opened and closed by a valve connected with a rope, the rope is held by a prison officer. The convict's feet are secured in stocks at the ankle, and his arms are placed in an extended position and held there. His neck is also secured by a yoke. When this shower bath is full of water a man can easily be drowned; it reaches above his eyes. And into this the victim of malice and avarice is placed in a sitting posture. The water is then let on, and he may struggle or strangle, as the result shall prove. Prisoners sometimes become utterly and helplessly idiotic and insane from the injudicious use of this fearful torture.

#### THE EXQUISITE TORTURE OF THE BUCK.

The buck is another prison punishment more barbarous, if possible, than the showerbath. In this case the convict is handcuffed, and then bent up so that his knees can be covered with his hands. A pole is then passed under the knees and over the arms of the victim, and is placed upon a box or barrel, or on some elevation, so that he shall have plenty of room to swing. I have seen men left in this terrible condition for hours together (when any man who will voluntarily for fifteen minutes will find it torture), until blood flowed copiously from their mouths. And by the gratification of this petty malice the State is deprived of the services of these men for weeks, and sometimes months. Tying up by the thumbs in a dark cell for a day or a night is a very common practice in Sing Sing.

#### THE CRUCIFIXION.

But our State Prison jailors, not contented with the made implements of torture, have gone back to the Inquisition and to Calvary, and have brought therefrom another, called the crucifixion. In this torture a man is strapped full length, with arms extended, to a cross-bar of iron about seven and a half feet long, and from three quarters to an inch and a half thick. The convict is kept in an upright position, usually as long as nature will permit, day after day. I can swear that eight out of every ten convicts thus punished are so treated because of complaints entered against them, often maliciously, by contractors' foremen, and, whether right or wrong, the keepers are bound to heed, or else hold themselves liable to dismissal.

#### LIFE AFTER PRISON LIFE.

Just State Prison convicts every day in this city prowling about the streets, and without any visible means of support. Look at the record of his charges from the prison, and ask what becomes of the hundreds of convicts annually let loose. As for myself, I cannot live in my native place on the Hudson, and, like most of my fellow convicts, have to gravitate to New York city to live where I am unknown. But even here ex-convicts are sometimes exposed and hunted down by those contract keepers, of which numerous instances might be given.

"'Tis True, 'tis pity, pity 'tis true," that marking will pass by unheeded the warning symptoms of disease, and neglect the remedies to restore health, until disease has so far advanced that it is often impossible to obtain relief. We have been shown the formula of Jackson's Mountain Herb Pills and believe them to be the best and simplest of medicines for Bilious disorders, Liver Complaints, Female Irregularities, &c. They are prepared with great caution and will save many a doctor's bill if used in time. As an universal family medicine, they are unsurpassed. Give the Mountain Herb Pill a fair trial and we warrant you will never be without them. Sold by all dealers. ap26/93

#### A SINGULAR CASE.

Morning a little child of Mr. Doney, residing near the Fair ground, while playing hurt itself in some way. It uttered a scream and immediately died, to all appearance. After every effort had been made to restore it the afflicted family sent word to their friends that the child was dead, and it was prepared for the grave. After remaining in this condition for two hours and a half it suddenly opened its eyes and stood up, showing no signs of permanent injury or ill health.—Williamsport Bulletin, April 23d.

#### Destructive Hail Storm.

Chicago, May 7.—A letter from Anna, Union county, Illinois, says that place was visited by a fearful hail storm the previous evening. The hail stones measured from one to two and a half inches in diameter and not a few as large as a man's fist. The ground was covered in some places two feet deep. Fruit has been almost entirely destroyed. Strawberries were just beginning to ripen, with excellent prospects; now there will not be half a crop. Nearly all the peaches were knocked off. How far the storm extended is not known.

#### From The Sandwich Islands.

San Francisco, May 6.—Honolulu advices to April 22 have been received. Considerable excitement and alarm exist among the people of Honolulu. There is a rumor of a conspiracy among the coolies to murder and plunder their employers. Preparations have been made for resistance, in case of an uprising. His Majesty the King, made a narrow escape from death by the falling of a coconut, while walking in the grove at his country seat.

San Francisco, May 7.—The people of this city and Sacramento are in a state of feverish excitement in regard to the completion of the Pacific Railroad. Grand preparations are being made in both places for the observance of the event, which will occur on Saturday. The banks of this city will be closed that day, and business will be generally suspended. Arrangements have been made with the Western Union Telegraph Company that each stroke of the hammer on the last spikes driven, shall be repeated simultaneously at New York and San Francisco by telegraph. Besides the silver mounted and polished California flag, and a silver pick and silver hammer, for use in the completion of the road, were forwarded to the end of the track.

An excursion train for the eastern end of the Central road, with the Commodore as a locomotive, started yesterday by a large train which had fallen a few miles from the track. The obstruction was discovered in time to preserve the passenger cars from injury, but the locomotive was damaged and thrown off the track.

In Iowa the planting of trees is encouraged by law. Every acre of forest trees planted releases taxation for ten years on one hundred dollars valuation, and for each acre of fruit trees planted tax is exempted on fifty dollars valuation for five years; the same for shade trees and hedges along the highways. There are now maple forests in several counties, and sugar made, where fifteen years since was nothing but prairie grass and hazel shrubs.

During a recent circus performance in Belgium, the regular lion tamer being ill, the circus director was so rash as to assume his duties, and having entered the cage, succeeded for a time in making the lions go through their performances. Toward the close, when giving the animals raw meat, the director lost courage, and instead of keeping a firm eye on the beasts, as tigers are obliged to do, he trembled, and made for the door of the cage. This movement was fatal. A large lioness was the first to pounce upon him and in a few minutes the unfortunate man was torn to pieces.

#### Baulky Horses.

A Maine man gives his method of treating baulky horses as follows: "Let me inform the humane man and holder and all who hold the reins, that the way to cure baulky horses is to take them from the carriage and whirl them rapidly round till they are dizzy. It requires two men to accomplish this, one at the horse's tail. Don't let him step out. Hold him to the smallest possible circle. One dose will often cure him; two doses are final with the worst horse that ever refused to stir."

A farmer and his hired man were recently discovered in Salt Lake City, under a blanket on top of a load of hay, while it was being weighed. The farmer was fined \$50, and his man \$15.

A Billington, Connecticut, cartridge company has received an order from Spain for ten millions of cartridges.

A case was recently tried at Terre Haute, Ind., in which the jurist, one lawyer, and half of the jury were named Smith.

A New York paper says Tom Thumb drinks. If he does, his wife has at least one consolation—he doesn't hold much.—Lou. Dem.

Napoleon's new official paper is ruled in his honor.

To CONSUMPTIVES—The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease of consumption, anxious to make known to his fellow sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used free of charge, with the directions for preparing and using the same, which they will find a SURE CURE FOR CONSUMPTION, ASTHMA, BRONCHITIS, etc. The object of the Advertiser, in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he trusts every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will address Rev. EDWARD A. WILSON, 107 N. William-street, Kings-co., N.Y.

Errors of Youth—A Gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the receipt and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence, JOHN B. QUINCY, No. 42 Cedar-st., New York.

VALUABLE FARM at Private Sale. The undersigned offers a valuable Farm, situated in Penn twp., Centre co., 14 miles south of Millheim, at private sale. Containing 60 acres of Land, under the highest state of cultivation, and under good fences; ten acres consist of CHOICE TIMBER LAND. Thorson erected a 2-story weather boarded Log House, Barn, and all necessary Outbuildings, with a well of water in the yard, and a large stream of water, Elk Creek, a few rods from the door, and TWO GROUHARDS.
