

CENTRE HALL REPORTER.

FRIDAY, JUNE 4th 1896.

LOCAL ITEMS.

BLANKS—Blank Summons, Vendor Notes, Executions, and Judgment and Execution Note combined, for sale at this Office.

LOCAL NEWS—Our friends will oblige us by sending in any items of local interest, including deaths, marriages, &c., as such are eagerly read by your friends in the west, many of whom get the Reporter. We would esteem it a favor if our kind patrons would occasionally mail a copy of the Reporter to relatives and acquaintances who formerly lived in Centre county and now removed to other parts, which would induce many to become subscribers.

NEW GOODS.

Mr. Herlacher goes east this week to lay in a large stock of summer goods, which will be on shortly, and offered at bargains.

The Watchman says the bed room of Mr. John Miller, ex. of Hubersburg, was entered and robbed of some thirty dollars in money, a few nights since, while Mr. and Mrs. Miller were in bed.

FIRE.

On Wednesday evening, of last week, a large light was observed from here, in the direction of Pine Grove Mills, which turned out to have been caused by the burning of a foundry and several other buildings in the neighborhood of Stormstown, causing a loss of some \$10,000.

Pure wines and liquors are always to be had at Baum's large wholesale establishment at Bellefonte. Baum keeps nothing but what will bear recommendation.

SAD AFFAIR.

We are informed that on Wednesday of last week a son of Henry Krebs was accidentally killed, at a barn-raising above Pine Grove Mills. A piece of falling timber struck young Krebs, causing his death.

SALES.

Personal property of L. Kerstetter, dec'd in Penn twp., 11th June. Sale of farm of John Sankey, dec'd, in Gregg twp., on 18th of June. Personal property of John Wise, dec'd, in Haines twp., June 18th. Personal property of H. B. Mussina, dec'd, in Aaronsburg, June 15th.

CROPS.

A private letter from our old friend, J. G. Laurinon, dated Summersville, Jefferson co., Pa., May 25th, says: I am just now making one of my regular trips thro' the western counties—I never saw better prospects for wheat crops, than there is in this section of country.

Speaking of political affairs, G. B. says: The people say, give them Gen. Hancock for governor, and they will elect him.

Grace Greenwood has sold her "Little Pilgrim" to Alfred L. Sewell & Co., publishers of "The Little Corporal," of Chicago. The Pilgrim has been published a child's magazine for over fifteen years. The July number of "The Little Corporal" begins a new volume—price \$1 per year.

ANSWER TO enigma in last week's issue: Daniel Webster. Answered by S. R. B., of Penn Hall.

LUMBER.

Mrs. John Taylor & Son, of Milroy, have erected a steam saw-mill, about one mile east of Foud's, in the seven mountains, which is now in successful operation, and they are now prepared to fill all orders for any kind of lumber upon shortest notice. They advertise in the Reporter, which is an evidence that they know how to do business.

REMOVED.

On last Tuesday the Centre Hall post-office was removed from the old place at Wolf's to the store of C. F. Herlacher. This removal was a sore affliction for the Reporter office, which served as a plate to store away one of Uncle Sam's desks upon which we were accustomed to write the editorials for the Reporter—but it was drafted into the U. S. service again. Good bye, old desk, we part with you with a tear in the left corner of our left eye as we lay a shingle across our left knee, to pen this local upon and to serve as our future writing table.

WEATHER—CROPS.

During the last 6-8 days there were frequent visits of thunder showers, followed by a warm sun during the day time, which had a fine effect upon vegetation, and gives the grass and grain crops a promising appearance. The indications just now are also for a pretty fair crop of fruit in this county this summer.

The rain on Saturday evening last was accompanied by a violent storm, which partly unroofed the barn of Gen. Buchanan in Gregg twp., as we are informed.

Our young friend, Jno. F. Potter, esq. will accept our thanks for a copy of Circular and Catalogue of the Law School connected with the University of Albany, for the year 1895-70. Mr. P. has just graduated with honors as a law student, at this Institution, and is now fully prepared for the practice of his profession, in which he will one day stand prominent.

The proceedings of the Sabbath School Convention, held at Bellefonte, last week, were received too late for publication.

The Best Book FOR EVERYBODY.—The new illustrated edition of Webster's Dictionary, containing three thousand engravings, is the best book for every body that the press has produced in the present century, and should be regarded as indispensable to the well-regulated home, reading-room, library, and place of business.—(S. Francisco Golden Era.)

COE'S COUGH BALSAM

This long tried and popular Remedy is again called to the attention of the public.

As often as the year rolls around, the proprietors annually make their bow to the people, and remind them that amongst the many things required for the health, comfort and sustenance of the family through the long and tedious months of winter, Coe's Cough Balsam should not be forgotten. For years it has been a household medicine—and mothers anxious for the safety of their children, and all who suffer from any disease of the throat, chest and lungs, cannot afford to be without it. In addition to the ordinary four ounce so long in the market, we now furnish our mammoth family size bottles, which will, in common with the other size, be found at all Drug Stores.

FOR CROUP.

The Balsam will be found invaluable, and may always be relied upon in the most extreme cases.

THE ATTENTION OF THE PEOPLE IS CALLED TO THE World's Great Remedy, COE'S DYSPEPSIA CURE.

This preparation is pronounced by Dyspeptics as the only known remedy that will surely cure that aggravating and fatal malady. For years it swept on its fearful tide, carrying before it to an untimely grave, its millions of sufferers. Coe's Dyspepsia Cure has Come to the Rescue. Indigestion, Sick Headache, Sourness or Acidity of Stomach, Biting of Food, Flatulency, Lassitude, Weariness, Biliousness, Liver Complaint, finally terminating in Death. Are you surely cured by this potent remedy, as the patient takes it. Although but five years before the people, what is the verdict of the masses? Hear what Lester Sexton, of Milwaukee, says: Milwaukee, Wis., Jan. 24, 1868. Messrs. C. G. Clark & Co., New Haven, Conn. Both myself and wife have used Coe's Dyspepsia Cure, and it has proved PERFECTLY satisfactory as a remedy. I have no hesitation in saying that we have received GREAT BENEFIT from its use. Very respectfully, (Signed) LESTER SEXTON.

A GREAT BLESSING.

The Latest Scientific Invention, the Calorific.

To give some idea of the peculiarities of the above in question, we may state that by a highly scientific and patent arrangement, the excessive heat on the top of the stove which causes the centre pieces to burn out, is carried around the oven, equalizing the heat of the stove, and causing the bottom of the oven to be just as hot as the top part of the stove; by this arrangement, therefore, all danger of burning out the centre pieces (used for cooking stoves) is effectually obviated. What is more, the fire and oven can be easily regulated to any degree of heat, by means of this patent arrangement, thus avoiding the necessity of giving the stove constant attention while baking, in order to prevent it becoming too hot or too cold; another advantage which this stove possesses to persons who use illuminous oil, is that by the aid of the Calorific, it consumes the latter as readily as anthracite; in short, the operation of this stove, which is as beautiful as it is efficient, leaves nothing to be desired.

We would also state that these stoves can be supplied with a patent copper back boiler, by which all the hot water required in a family, can be heated by the waste heat from the stove. To persons residing in the country, this is a very valuable advantage of a cooking range, with none of the annoyances; a water-back can easily be attached to it at a trifling cost, which will heat water for a cooking range without the inconvenience or expense of having a range built in the fire place. We will take the liberty of suggesting that to persons about going to house keeping, too much importance cannot be attached to the necessity of having the best possible cooking facilities. The great feature that it does not require constant attention, that when the oven is once fixed, there is not the slightest risk from carelessness or neglect, and that the temperature of the stove is absolutely uniform at the top and bottom, are alone sufficient to eclipse all other stoves in use, we would advise all persons who think of purchasing, to call at the ware-rooms of ISAAC HAUPT, near the depot at Bellefonte, where he keeps all of Spang's make of stoves. He has also the above patented Calorific, which can be applied to the celebrated anti-rust Cookstove heretofore sold by him. Prices, 10 per ct. less than market value, for cash.
