HOW THEY HAD HIM.

When I was young and tender too, I had to mind and had to do
in Whatever mother bade me: She used to have a walnut stick, Which kept me on the double-quick And that was where she had me.

When older grown, and quite a beau Among the girls, I used to know A Miss Priscilla Cadmy; And with the help of smiles and nock-I fell in love at forty rods, And there is where she had me.

When I was older, say sixteen, I thought it time to have a queen. And asked her if she'd wed me : the said she did'nt much object. Or words to something that effect, And there was where she had me

But when, to make the matter straight I went up to negotiate

Affairs with Colonel Cadmy, He said he "didn't care to sell," He told me I might go to-well, And that was where she had me

I drowned my sorrow in the cup Until I got my dander up, (I couldn't have been madder;)
When she proposed that we be one
In spite of pa—the thing was done,
And that was where I had her:

Two lovely unchins on my knee, I'm proud to saw belong to me, (That is, to me and madam ;) For when we left our native sod; We spent a wear on two abroad-And there was where we had em.

The Normal Institute. The directors of Centre county have af last demanded the establishment of a Normal School in this county. That demand has been responded to by the establishment of the Normal Institute

at Rebenstung. E have long wished for a school in which young ladies and gentlemen souldtobtain a practical and thorough knowledge of those branches taught to our children. I believe that such a school is now in progress at Rebersburg, under the administration of the practical and efficient teachers, R. M. Magee, Henry Meyer, and Rev. Engle. The advantages of the Normal Institute over the academies in the county for teachers appear to me

to be these 1st. The principal object is the preparation of teachers.

The whole school, I understand, constitutes a class receiving instructions in certain branches with a view to

2ndly. The art and science of school overnment is taught as a regular branch of study. Every thoughtful person knows the value of understanding the legislation of the school-room. He or she, who cannot govern well, cannot teach well. The objection argued against female teachers is that they cannot govern.

Really it is the most delicate and important part of the teachers work. Yet I know of but one school in the county that furnishes correct and clear ideas on this important subject.

3rd. Prof. R. M. Magee, is county superintendent of this county, and knows exactly what our schools require. No one las beiter opportunities to learn the deficiencies of our system of Public Instruction than he whose business it is. No one then can be better quali-

fied to supply the needed wants. Erroneous opinions will be eradicated and correct ones substituted relative to all subjects connected with the profession of teaching. I have mentioned but a few advantages. I could mention more were I not afraid of ask. ing too much space in the columns of the Reporter.

I beg to say that the teachers in this school bring both ability and experience for the performance of their scholastic duties. Mr. Mever is well known to the profession, as a successful teach-Mr. Engle teaches the classics to such as wish to pursue them. Under the management of these gentlemen I believe the Normal Institute is the best school in the county for those who look forward to the honorabit-profes-

sion of teaching. In justice to myself I wish to say that I have no connection with this school, nor am I begging favors from Prof. Magee with a view to get anything he has the power to give. What

I have said is my fixed conviction. The knowledge most needed to our beginning teachers is that which qualifies them to have good government in their schools, hold correct views on every branch they teach, and that is most suggessfully imparted in the Normal Institute at Rebersburg: PHELOS.

The reports of the Auditor General for 1867 and 1868, taken in connection with the statements contained in the last annual message of Governor Geary, develope the astounding fact that during the last two years upwards of Eleven Millions of Dollars have been taken from the State Treasury, only Four Millions of which have been applied in payment on the State debt, leaving Seven Millions to be accounted for in appropriations for the current expenses of the Commonwealth, interest on the State Debt, and other expen-

two years.......\$11,367,487.52 These figures are taken from the reports of the Auditor General for 1867 and 1868, and the reader is refered to those documents for verification of them. From these statements the fact appears that Eleven Millions, Three Hundred and Sixty-seven Thousand, Four Hundred and Eighty-seven Dollars were taken from the Treasury during the fiscal years of 1867 and 1868. In Covernor Goary's last Annual Message, transmitted to the legislature January 6, 1869, is found the follow-

"By the report of the Commissioners of the Sinking Fund for the year en-ding September 3, 1867, the loans redeemed amounted to \$1,794,568:50, and by their report from September 3' 1867 to November 30, 1868, 'the loans redeemed' amounted to \$2,414,815.64 making a total reduction of the State debt, in two years and three months, of \$4,209,386.14."

By the Auditor General's reports, we have learned that the sum taken out of the Treasury during the two years of 1867

and 1868, was......\$11,367,487.52 By Geary's message we ascertain that the whole amount of the State Deby paid off during a period

of two years and three

Leaving for current expenses, &c......\$7,158,101.38 It now remains for the defenders of dovernor Geary's administration to show what became of the seven millions and upwhrds remaining in the Treasuryafter the payment made on the Debt. How much of this sum was wasted in extravigant appropriations? How anch of it was squandered in increased rates of interest on the State Debt? State officials and a radical legislature, in shape of increased sallaries? How much of it was stolen by radical pasters and folders and other officials of arriving and opened for inspection at the time legislature who did not render a sample prices, and are now which have his large supply, to judge for themselves and folders and other officials of arriving and opened for inspection at the which can seldom be done when purchasday's service to the Commonwealth? And let it also be explained how it comes that upwards of One Million Dollars are permitted to lie escless and dead in the Treasury, when that sum might be applied to a further reduction of the State Debt and the saving of a large amount of interest to the tax-payers of the State.
