THE MEETING AT MILLHEIM.

Pursuant to a call, issued by Col. Slifer. chairman of the committee appointed at a former meeting, to confer with the Pa. R. R. Co. relative to the construction of the citizens of Union, Centre, and Huntingdon counties, met at Millheim, on last Friday. The conference of the company, with the directors along the line of the company, with the directors along the line of the company. chairman of the committee appointed at day, 27th ult., to hear the report of said committee, and take such further action as committee, and take such further action as may be deemed necessary in furtherance of this important railroad project. Every lothis important railroad project. Every lo-cality along the line of the road was well represented by its best men, who came there full of the proper spirit, and gave an assurance that the people of their respective localities were thoroughly aroused and determined that the work should go ahead.
The following persons were appointed as chairmen of the township committees, with power to increase their number to seven: journed leaving a large ray of hope for a railroad through Buffalo and Penns Vallies. The greatest enthusiasm prevailed, and rounds of applause greeted the remarks of the speakers as they assured the audience that the road was a sure thing if the people along the line only did their share. now that their proposition to the Penn'a

RR. Co. had been accepted.

The meeting was organized by electing the following officers: President - Col. Avers, of Spruce Creek. Secretaries - B. O. Deininger, of Penn, and Fredrick Kurtz, of Centre Hall.

Bespectfully submitted.

G. F. MILLER,

in behalf of the Committee,

Aug. 27th, 1869.

Gen. Buchanen moving that Mr. Miller farther address the meeting upon the re-

port, the latter rose and spoke at length upon the subject of railroads, picturing in forcible language the inestimable advantage they have been to our country in developing its resources and adding to our wealth. He read some valuable statistics showing the number of miles of railroad in phia, I Enriv Manhood, with SELF HELF to the Erring and unfortunate. Sont in sealed letter envelopes, free of charge. Address, Heward Association, Box P. Philadelphia, Pa. different states, and how the building of rail-roads has progressed with massmooth strides from year to year. As we printed similar statistics recently, we omit the figures here. He referred to the importance of this link, its being the shortest route between New York and the great west. This part of Mr.

Miller's speech was in substance the same as contained in Mr. Calvin's speech, published by us last week, and to which we refer the render, in order to save space here.

The Pa. RR. Company promised all the assistance demanded, and asked but that No. 42 Cedar st., New York To Consumptions,—The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe ung affection, and that dread disease. Consumption—is anxious to the people along the line do their part; the agents of the company were favorably impressed with what they had seen of our vallies, and felt assured that the road would

be a paying one; our people must not hold hack, thinking that the road would be made after all. He stated that the Lewisburg branch was already doing an encouraging business; it was but lately e single bas was ample to carry the passengers, now, since the building of the branch, it required two and three cars; the same may be said of the freight business, Build the road and our lands will be greatly enhanced and our markets improved, manufactures built up, and 8 per cent realized upon be a paying one; our people must not hold hack, thinking that the road would be made after all. He stated that the Lewistures built up, and 8 per cent realized upon the stock subscribed in the road. It was williamsburg, Kings co. NY \$250,000,

not for us to ask what will the Pa. RR. Co. do—but they, on the other hand, were asking, what we will do. Lewisburg is for finishing the road through. Subscribe the stock, and in 12 months, he, as president of the company, will have the work finished. Mi. M. further stated, that all stock subscribed for grading the road, would stand upon an equal footing with any stock owned by the Penn'a RR. in the branch; and further, that the old stock goes for nothing, unless \$5 be paid on each share.

On motion of W. C. Duncan, the report was again read and accepted.

was again read and accepted.

Mr. Ed. Blanchard, of Bellefonte, being called upon, said, he came to see whether the people had determined to do any thing. Ten years ago this subject was agitated, and had our people then gone ahead, we would now have the road—the Bald Eagle Valley road fell, because they waited in the first place, for all the stock to be subscribed. They afterwards pursued a different course, by expending what money was raised, in work upon the road, and thus proceeding, they now have their road, while this one fell. Bellefente was not opposed but went with us heart and mand and wished the road from Lewisburg to Spruce Creek to be built, and would meet us with a branch at Hoalsburg or any other point. He had seen Mr. Lombard, and knew that the Pt. RR. Co. was in earnest; its officers had seen our country, and they say it (the road) would be paying stock. The Snowshoe Co. would put upon our road freight that would pay; as they could not get an outlet to Lewistown, trey will now join in with us in making this road. The Pa. RR. Co. did not aid in ironing and stocking the B. E. V. RR.; they had to do it alone; now it is paying stock. If the effer of the Pa. RR. Co. is now rejected, we will never again get the offer; other interests are seeking a road, and if this one is not made, another one will be, answering them the same purpose, and ours will never again stand a chance.

Resolutions were offered by Col. Islet and R. H. Duncan, favoring the appointment of committees to solicit subscriptions. called upon, said, he came to see whether the people had determined to do any thing.

The Bellefonte Republican says, "it learns that the Democrats at Centre Hall, and vicinity, have abandoned the idea, lately, strongly entertained were thankful, as wewere on the verge by them, of running an independent of suffering for want of it. The air has post-office—under the management of since been somewhat colder. the late Democratic incumbent."

The "narrow minded blockheads" of the Bellefonte Republican have again missed their mark, and in their stu-pidity hit a flock of the stiffest republicans in Potter twp. Its endeavor to make the little post office affair here a political matter wont do, and if the 'narrow minded blockheads" who edit the Bellefonte Republican, only kept sober when they pass through Centre Hall, they would be better posted on things here-let them always wait until they have read the Reporter, and then they will be reliably posted. The republicans of this vicinity have as much to do with this post office matter as the Democrats whom that sheet censures, and if it will make the least inquiry it will find that the "running of an independent post office" was an accommodation asked for by republicans, among others, and is not a political thing.

S. S. CELEBRATION .- The Centre Hall Union Sabbath School had a fine celebration, in Mr. Witmer's woods, near this place, on last Satuaday. The day was fine, and all passed off very pleasantly for children, teachers, and parents. A long table was ladened with nice things and good, to satisfy the cravings of any appetite. The Pine Grove Cornet Band, was present, and treated the school to some fine music during the day, and depurted with the warmest thanks of all for their voluntary treat. The Centre Hall string-band was also on hand to enliven the audience with their mellow strains. An address to the children was delivered by Fred Kurtz.

The Spring Mills S. S. also had a pie-nie on same day, in a beautiful groye, near that place, which passed off very finely. An address was delivered by Rev. Mr. Wilson, of New

The deceased was born at Gettysburg, Pa., on the 20th of Sept., 1829, and was the daughter of L. Ziegier, Mrs. Miller was a most estimable lady. Her whole life was that of a devout Christian, and in her youth she learned to know and love the Savior, and was, at an early age, received into the church at Gettysburg, by Rev. Dr. Baucher, dec'd. Being a woman of more than ordinary intelligence, and possessed of a kind heart and genial disposition, her departure from life to eternity, leaves a vacancy here, that will be felt during the life of a devoted husband and group of interesting children, and in the large circle of her acquaintance, among whom she deservedly stood in the highest esteem. But she has crossed the Jordan, and is now in the realms of bliss beyond, for Jesus bade

her come and receive her reward. Her sickness was of several weeks duration, and she bore her affliction with true Christian fortitude and resignation, always having a full assurance that she was going to a brighter world. Her sole aim, as fond mother, was the training of her children in the fear of God-this anxiety she expressed to the writer, before her late illness; before her departure, she called each one to her bedside, to receive her last admonition, that her soul might depart, ladened with the promise of her dear ones to be obedient, dutiful, and constant searchers after salvation, and then gave her children to the care of her mother. She was auxious for her departure, was calm and resolved, suffered no pain, and

had no complaint. She was married on 15th May, 1851, to her now bereaved husband, and bore him ten children-six sons and four daughtersof which a son and a daughter have already preceded her. On Monday noon, her remains were conveyed to Gettysburg for interment. The community in general, and the members of Rev. Miller's charge in particular, deeply sympathize with him

n his sore bereavement. On the 22nd of August, last, in Gregg twp., Centre county, Susan Elizabeth, daughter of John Gentzel, aged 15 years, 6 months and 21 days.

The Latest Scientific Invention, th Calorific.

The undersigned respectfully announce to the citizens of Pennsvalley, that they have in operation a NEW STEAM SAW MILL, one mile east of Foust's, in the Seven Mountains, and are now ready to furnish Square Lumber. P ans, Studding, Shingles, any desired length of frame Stuff and Squaretimber sawed to order and on shortest notice. Any thing in the line of the swarf of the store in question, me may state that by a highly scientific and patent arrangement the excessive heat on the top of the stove which causes the centre pieces to burn out, is carried around the oven, equalizing the heat of the stove, and causing the bottom of the oven to be just as hot as the top part of the stove, and causing the bottom of the oven to be just as hot as the top part of the stove, and causing the bottom of the oven to be just as hot as the top part of the stove, by this arrangement, there fore, all danger of burning out the centre pieces (usual to all cooking stoves) is effect, and remodeled, and will hereafter be conducted on first class shotel principles. The present proprietors of the traveling public, and others who may favor him with their custom.

Laddies Trusses.

This invaluable article for females, is now to be had at Herlacher's store, and no other place in Centry county. Ladies remember that these trusses can be had at Centre Hall.

His TABLE is kept in first class style.

GOOD STABLES are connected with the Hotel, and obliging Ostlers are always on the ground to attend to the place of heat, by means of this patent arrangement, there are competed with the Hotel, and obliging Ostlers are always on the ground to attend to the consumers the latter as readily as anthracite; in short, the onedegree of heat, by means of this patent arrangement, thus avoiding the necessity of giving the stove constant attention while baking, in order to prevent it becoming to hot or too cold; another advantage which this stove possesses to persons who use bituminous coal, is, that by the aid of the patent in question, it consumes the latter as readily as anthracite; in short, the operation of this stove, which is as beautiful as it is efficient, leaves nothing to be desired. as readily as anthracite; in short, the operation of this stove, which is as beautiful as it is efficient, leaves nothing to be desired. We would also state that these stoves can be readily supplied with a patent copperback boiler, by which all the hot water required in a family, can be heated by the waste heat from the stove. To persons residing in the country, this stove comes as a special blessing, as it affords them all the advantages of a cooking range, with mone of the annoyances; a water-back can easily be attached to it at a trifling cost, which will heat water equal to a cooking range without the inconvenience or expense of having a range built in the fire place. We will take the liberty of suggesting that to persons about going to house keeping, too much importance cannot be attached to the necessity of having the best possible cooking facilities. The great feature that it does not require constant attention, that when the oven is once fixed, there is not the slightest risk from carelessness or neglect, and that the temperature of the stove is absolutely uniform at the top and hottom, are alone sufficient to eclipse all other stoves in use, we would advise all persons who think of purchasing, to call at the ware-rooms of Isaac Haupt, near the depot, at Bellefonte, where he keeps all of Spears' make of stoves. All of the above patents can be applied to the celebrated anti-cust Cookstove heretofore sold by him. Prices, 10 per ct. less than market value, for cash.
