CENTRE HALL REPORTER. FRIDAY, DECEMBER 10th 1880.

A LARGE FARM ATTENDED BY ONE MAN.—The farm of Mr. Vausel, in Macoupin county, Ill., contains 1,400 acres of excellent prairie land and is cared for almost exclusively by its owner.

The farm is entirely surrounded by a good hedge and divided in the same manner into lots of different sizes, and although a stock farm, the proprietor keeps but little of his own, but pastures cattle for others. At the time of this visit, there were in his pastures near 800 head of cattle, and he sometimes has 800 or 1,000, for which he receives two dollars per month for each animal. The pastures are not allowed to be used early in the spring, not until the ground is well settled and the feed abundant. They are never fed close, but as the feed becomes short the stock is moved to other lots, and large fields are left entirely for winter pasturage. He cultivates a little corn and cuts 100 or 200 tons of hay which he sells in the winter to drovers, and it is only to secure the latter crop that he employs any outside assistance, and is thus under but little expense and has not much capital employed aside from the value of his farm. Under this system, the land is not impoverished. The pastures do not run out, but are improving every year. Who will say, in these days of high prices for labor and low prices for produce, with the uncertainty of crops and the seasons, that with the money that would be necessary, put out at 10 per cent, he is not as well off as if he cultivated a thousand acres.

The New York Herald declares that "around the whole harbor of New York, and in all the ship-yards on the many shores of that harbor, there is, we believe, but one ship on the stocks. This is the result of Radical rule. They have almost banished American ships from the ocean, and American products are now transported across the ocean in foreign bottoms. It is no wonder the whole business fabric of the country is rocking and tottering under the effects of such a system as that inaugurated and carried out by the party in power.

Female Suffrage. Cheyenes, Wyoming Territory, No. emberv 30.—The Council to-day passed the female suffrage bill almost unanimously, and it comes up in the House to-night.

A Church member and a Deacon in Hartford recently stole a hot air furnace from a Church. That beats the sword appropriation of Dr. Butler.

In some parts of Iowa the farmers are feeding wheat to their horses, it being cheaper than oats.

S. G. Hayes cast in a section of stove pipe, forty years ago, the first "composition roller" ever used in a New Haven printing office.

At a recent medical lecture in Pennsylvania Hospital, at Philadelphia, a class of thirty nine ladies were present, with 140 male students.

THE DEXTER CLOTHES WASHER THE BEST WASHING MACHINE IN THE MARKET!

Having purchased the exclusive right to manufacture and sell this superior machine within the counties of Centre, Huntingdon, Clearfield, Union and Clinton, the proprietors would call the attention of the public and

ESPECIALLY THE LADIES.

to its many advantages. It performs the work better, making the clothes a bleached white, and in at least one-fourth the time than can be done by hand; because steam and the rapid motion of hot water through the clothes, with the slight rubbing, performs the cleaning and prop-erty, which could not be done by ever so much rubbing by hand on the common washboard.

It does not injure the cloth; it saves it. A child from 12 to 14 years, can work it; and operating it, is a healthful exercise for the body. It is, beyond a doubt, the most complete labor saving machine for the household ever invented—simple and durable, effective, cheap, and therefore accessible to every family.

And also SHERMANS PATENT CLOTHES WRINGER, the best in use. These machines are manufactured at the Bellefonte Planing Mill, and all inquiries should be addressed to H. F. BARTLEY & Co. Proprietors, Nov. 12th 6m.
