Constitution.

Congress had scarce assembled on Monday a week ago, when Senators a quarter miles, through a country Summer, of Massachusetts, and Drake, of Missouri, introduced bills, which, if this purpose the people of Kishacoquil passed, will be a virtual abolition of las valley have subscribed stock suffithe Supreme court of the United States, and a centering of all power, including also secured the right of way. The that vested in the Supreme Court by grading of their road is now under the Constitution, in Congress. The radical jacobins now sitting at Washington, are not content with the two- 91 miles has been taken at '\$27,000, exthirds majority with which they have fraudulently clothed themselves, thus having power to pass what laws they total cost of grading including bridgplease, in spite of any veto from the President, but now they are not satisfied with this and are plotting to prevent the above Court from declaring any of their acts unconstitutional ! This is the next outrage that will be perpetrated by the cabal of perjured radicals, who are now assembled at Washington and styled Congress. Senator Drake's bill prevents the Supreme Court from giving any decision upon the acts passed by Congress, fullwell knowing, that principally all they have enacted thus far, is in direct conflict with the Constitution which they are sworn to support, and some of which are soon to be declared so by the proper tribunal. What a commentary it is upon radical legislation, when the authors of it are afraid to have it tested before the Supreme Court, when a majority of that august tribunal belong

to the republican party, and were appointed by Lincoln. of stoundly to We think that it is time for even the

fiercest radical to feel some alarm, when he sees the revolutionary strides his party leaders in Congress are ma-

Valley is Doing. The Pennsylvania RR. Comp. has promised to rail and stock the Lewisburg. Centre and Spruce Creek RR., providing the people along the line subscribe sufficient stock to grade the road. Many localities which had to things. grade, rail and stock their roads, would have jumped at such a proposition, had it been made when they commenced building railroads. The people of Buffalo and Penns vallies seem to think they are not able to grade their

road, now let us see what our neighbors over in Kishacoquillas valley, in Another Radical Thrust at the Mifflin county, are doing. They intend having a railroad from Reedsville to Greenwood, a distance of nine and similar to that of our valley, and for cient to grade their road, and have contract, and must be done by next November. The contract for these clusive of some 500 ft. of bridging, but to include all the mason work. The ing, is estimated by the engineer, at

> \$35,000. Now if the people of Kishacoquillas valley can grade their railroad, (and they have gone and raised stock enough to do it), why can not rich and populous vallies, like Penn and Buffalo, do the same?

Look where we will, we see more enterprise, more liberality and more of a solid spirit for improvement than seems to prevail among our people and so long as this continues the case, there is little hope for our railroad.

Judge Grier's Resignation.

Judge Grier of the U.S. Supreme Court has sent his resignation to the President to take effect on the 1st of February, 1870. He was appointed by President Polk in 1846 from Pennsylvania, and is one of the oldest of the associate justices on the bench. This leaves two vacancies, and it is more than probable that Attorney General Hoar and the venal E. M. Stanton will be appointed.

Railroads- What a Neighboring great intellect, yet when he has once entered upon the pursuit of an object. he maintains it with invincible courage and untiring labor. In my judg-ment, so far from beirg a man at whom we ouht to scoff and whom we may treat with contempt, he is a man who ought to be carefully watched—a man of whom we should fear the worst

> Of course, it is not always the great test intellectual man who achieves the greatest things in the world. A man who has a purpose, and who has the power to back him, very frequently exceeds in his achievements a man of far larger comprehensive capacity. This man, in my judgment, is one of that class of men. I consider him a man of sluggish nature ; he is fond of pleasure and devoted to enjoyment; and will occupy himself with those things to the exclusion of business-as he has shown a disposition to do. But when a

crisis in our affairs occurs, you will find he will apply himself to business with far more industry than is agreeable to the country. [Applause.] Just such business, I mean, as this in reference to Georgia; and which he may next advise with reference to some other State. And it may happen that he will gain such power, and be enabled by a combination of army power and the ne-groes in the South to overcome the

the Northern people. I do not, therefore, think the democratic party has any light duty in the coming campaign.

WASHINGTON, Dec. 11 .--- Mr. Ingersoll again introduced his bill authorizing an additional issue of legal-ten-

der notes, and after an exciting debate it was referred to the Committee on Banking and Currency-Yeas 88, nays 57. It directs the Secretary of the Treasury to issue legal-tender notes

to the amount of \$44,000,000 of which \$10,000,000 are to be issued within thirty days after the passage of this act : \$10,000 000 within sixty days; \$10,-000.000 within ninety days, and the remaining \$14,000,000 within one hundred days. The second section directs the Secretary of the Treasury to purchase with such notes gold interest-bearing bonds, and to cancel the

same in the manner providad by law. Mr. Ingersolt's 'inflation" Legal Tender bill has been referred to the Committee on Banking and Currency. This movement is considered as adverse to the adoption of the scheme.

GENERAL BLAIR ON GRANT

General Frank P. Blair addressed democratic club in New York on Monday. He urged the victorious party of New York to exercise the week, which resulted in the killing of power which had fallen into their hands, so as to display to the people of the country the penefits of a democratic triumph ; and in the restora-

tion of the principles of popular gov-ernment which had been so long wrestcountry-indeed, it will injure themif wisdom and moderation are not dis-Grant's recommendation to remand the rial condition, he said : This is the germ of the dissolution of our republic. That recommendation in regard
