PUBLIC SCHOOLS OF HAINES.—

Whole number of schools, 7.—(The Mountain school being discontinued.) Number of male teachers, 6. Female 1. One of these never taught before, whilst 6 have taught over five years.

The Woodward school is temporarily closed for want of a teacher. The order in most of these schools is good, but can be improved in a few.

Teachers should insist on having orderly, industrious scholars, that their scholars must not talk except, in addressing the teacher—make no noise while studying.

Recite their lessons promptly and well, for if these points are not secured, the labor will be a burden, and its results a mortifying failure.

Scholars very quickly discover whether the teachers will let them sway their. The proper method of reciting is not pursued, but is recommended.

This is undoubtedly the true system of teaching, for it exercises and develops the mind with the subject. This method is now pursued in the best schools throughout the country.

The classification of the country schools is not good. Geography, U. S. History, and English Grammar are too much neglected.

The greatest want is that of necessary books. Teachers complain that the parents will not get their children books.

We hope parents will soon see how much they scribble the teacher's work by this negligence. Teachers are also reminded that much instruction can be given orally.

History, Algebra, oral Physiology, and Physical Geography are taught in the Aaronsburg Grammar School.

Map drawing in connection with Geography, in Wolf's and White Church schools, will be introduced into all.

Singing is practiced in Wolf's school (should be in all). The Bible is read daily in all. Phonetic spelling is taught to a limited extent in all.

Class registers are being introduced in which an exact record of each recitation will be kept.

Cleanliness prevails, though a little more pains taken to decorate and beautify the room, would amply pay the teacher for his trouble.

In a number of these schools arrangements have been made to procure mottoes.

Seven dollars would furnish every school in the township with "Writing Tablets," those valuable aids in teaching penmanship.

The directors deserve much praise for the course they are pursuing, in regard to the school houses.

Last year the splendid new house at Woodward was erected. The old Academy at Aaronsburg is at present being re-modelled and painted for the use of the public schools.

(having been purchased by the Board), and an additional grade established. We would suggest that this highest grade constitute a Township High School, and be made high enough to accommodate all, of the proper age, in the township.

A new school house is also under contract at Wolf's, to take the place of the old one at present used. The Supt. was accompanied to these schools by directors W. H. Burrell, and Erhart.

Brandreth's Pills, they remove all bad accumulations from the bowels, and purify and invigorate the system.

All whose health is not perfect owe it to themselves to take a few doses of Brandreth's Pills, because the seeds of decay are constantly eradicated by their use, and the principle of life confirmed, thus giving a vigor of body and mind to a period when we have been used to the faltering step and the enfeebled intellect.

Gen. Paez, the distinguished liberator of Venezuela, says he has used them as his only medicine for thirty years, with the most satisfactory results.

For Costiveness, Dyspepsia, and as a Family Medicine they are unrivalled.

Daniel I. Tenney, Esq., Astor House, New York, cured by Brandreth's Pills of Dyspepsia and Costiveness, when all other means used had failed.

A gentleman, whose father died of consumption at 36 years, was also attacked when about 21, by the disease. He had cough, night sweats, and general debility. Doctors recommended cod liver oil, but he wasted away. At last he determined to use Brandreth's Pills. In two months they made him a sound man.

IMPORTANT NOTICE.—Farmers, Families, and others can purchase no Remedy equal to Dr. Tobias's Venetian Liniment for the cure of Cholera, Diarrhoea, Dysentery, Cramp, Colic, and Sore Throat, taken internally—it is perfectly harmless; see each accompanying card (bottle) and externally for Chronic Rheumatism, Headache, Toothache, Sore Throat, Cuts Burns, Swellings, Bruises, Mosquito Bites, Old Sores, Pains in Limbs, Back, and Chest. The Venetian Liniment was introduced in 1847, and no one who has used it but continues, to do so, many stating, if it was Ten Dollars a Bottle they would not be without it. Thousands of Certificates can be seen at the Depot, speaking of its wonderful curative properties.

Price, in Pint bottles, One Dollar. The genuine is signed S. I. Tobias on the outside wrapper. For sale by the Druggists, Saddlers, and Storekeepers throughout the United States. Depot, 10 Park Place, New York.

GRANT & PROSPERITY. Business revives under the new regime. Other than general causes have, however, given a tremendous impetus to the sale of Cristadoro's Excelsior Hair Dye.

The chemists have come out in two leading scientific journals against the lead and sulphur poisons for the hair (for that is their proper designation), with which the country is infested, while Dr. Chilton, the first analytical chemist in America, announces to the world that Cristadoro's Dye is Utterly Poisonless, and that he knows it to be so, because he has analyzed it.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. Sold by all Druggists. 1/2 1/2

TO CONSUMPTIVES.—The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure, FOR CONSUMPTION, ASTHMA, BRONCHITIS, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will address Rev. EDWARD A. WILSON, my14 y Williamsburg, Kings co. N. Y.

PUBLIC SCHOOLS OF GREGG TWP.—

Number of schools 9. No. of male teachers 7. Females 2. Of these, two have taught over five years, and one never taught before. All have read books on teaching. Length of term, four months. Salary of teachers \$30.00 per month.

In point of buildings, Gregg will soon take the lead among the rural districts, having already five good brick buildings, besides one at Decker's, which is now under contract.

This compares favorably, when we consider that there are only fifteen brick school houses in the county. The plan adopted in this district of building one new house every year until supplied, is a good one, and worthy of imitation by other districts.

But with these buildings should be erected the necessary outbuildings. There are still very destitute of privies. When will the directors see to this? We trust during the present year. Every consideration of decency calls for this.

The grounds should also be fenced and planted with trees.

A true christian culture should lead us to adorn our streets, our homes, and above all the places of instruction of our children.

All the schools are supplied with artificial Globes, but we are sorry to say that they are not properly used by some of the teachers.

Two schools are supplied with outline maps. They should be in every school. Writing tablets should also be in every school. They are now used in a few being furnished by the teachers.

The books are uniform and the Bible is read daily in all. Complaints exist that some of the books used are not to be had in the district. Directors should see that they are kept.

Quite a contrast is presented by comparing some of the schools in the district—while some are tastefully decorated with mottoes, charts, pictures, flowers, etc.—a few exhibit bare, unsightly walls, with nothing attractive about them.

The teaching very often corresponds with the general condition of the room.

The classification can be greatly improved in several. Too few study Grammar, and Geography, while in some History is entirely neglected.

The law requires the latter to be taught and we trust it will speedily be introduced. While we do not believe in "cramping" the minds of children with too many studies we do think that large boys and girls very frequently lose very much time and the good of the school, by failing to properly apply themselves, and not commencing their studies at the proper age and time.

The teacher should be the best judge in this particular.

It is suggested that Map drawing be taught in connection with Geography.

Oral instruction is given in Physiology and Hygiene, in the Beaver Dam and Penn Hall schools (will be introduced into all.) Singing is practiced daily in the Penn Hall, Hoy's and Decker's schools. This beautiful exercise is about being introduced into all. But very few visits by parents are recorded. These visits should be more frequent, as they are calculated to do much good, by encouraging both teacher and pupils.

Directors Auman, Krumrine, and Little accompanied the Supt. in visiting a number of the schools. Class Registers are used in a number of the above schools.
