This Resper has advantages over all other Reapers now manufactured. One advantage we claim for it, is the lever power, by which we gain one hundred per cent over other machines. Another advantage is the hoisting and lowering apparatus, whereby the driver has under his complete control of the machine; in coming to a spot of lodged grain, the driver can change the cut of he machine in an instant, without stopping the team, varying the studie from 1 to 14 inches at the outside of the machine, as well as on the inside. Domestic Sewing Machine.

The New Domestic Sewing Machine makes the lock stitch alike on both sides, and has a self adjusting tention, which requires no alteration in changing threads or in sewing different thicknesses. The working parts are made of the very best quality of steel, and is so constructed that it cannot get out is so constructed that it cannot get out of order, unequalled in simplicity and durability. It will sew over thick seams or uneven places, drawing the stich perfectly without missing. Where real merits exist, blowing and misrepresentations are unnecessary. We at is so constructed that it cannot get out-of order, unequalled in simplicity and resentations are unnecessary. We attempt only a plain statement of facts which we can support and which the machine itself will prove to be true. It sews in the neatest and most substantial manner. Every machine warranted. Payments easy. Machines delivered and instructions free. Machines may be examined and obtained by applying to JAS. DUCK, Agent Penn Hall, Pa.
