Mr. Jacob G. Meyer, of Centre. We have observed that the republican newspapers of Centre county have this gentleman in the legislature. They hope by misrepresentations of Mr. Meyer to create such a false impression concerning him among his democratic neighbors, that a radical can didate may slip into his seat. This has succeeded before, and it is considered worth trying again, but we have no doubt that the attempt to deceive the good democrats of Centre county will signally fail in the face of the unimpeachable record in the legislature which Mr. Meyer presents. Those who watched his career in the House will do him the justice to say that no mem ber has been more watchful of the interests of his constituents, or more attentive to his public duties. His votes showed him always on the side of economy in public expenditures. It was a little bill of Mr. Meyer in which his Excellency, the Governor, fancied he discovered such a huge grammatical error as to require the application of the veto. But Mr. Meyer in a few clear remarks convinced the Honse that his bill was all right, in spite of Governor Geary's rules of grammer, and it was passed again by considerably more than the required two-thirds majority .- Morning Patriot, 13th inst.

cured. There are several ways to do this and we will give some of them. Those of our friends who have tried them say they are effective.

Take a strong rope, long enough to double; then put on the stall the same as a cruper; now cross it over the back, and pass each end of the rope through the bit; then fasten to a post or any other firm substance. Now come up in front of the horse with any object that will cause him to go back. As he settles back on the rope the strain comes on the tail, and he will rush forward to get away from the hurt. It is the same when he pulls on the head halter-it hurts the head and he will pull the harder to get away from the hurt Two or three times pulling by the tail will effect a positive cure.

Another cure is to take a strap with a two-inch ring ; buckle it around the ankle of either of the hind legs; then use a long halter; run it through the hitching ring in front; then back to the hind leg : tie it in the ring; now go in front of the horse-let him pull back if he will. As he settles back it will pull the foot out from under him. His mind is directed to his foot, and he will start forward to ease his foot. Try him again. Every time he pulls his foot is drawn forward, and in a short time he sees no fun in it and he is cured.
