FRIGHTFUL CATASTROPHE Three Men Suffocated.

[From the Pittsbur, Post, 12 inst] Last evening, about six o'clock, a mos frightful and horrible accident occurred in Ormsby borough, just beyond the limits of East Brimingham, by which three men lost their lives, and two others barely escaped a similar fate.

THE ACCIDENT

Occurred on the premises of Mathias Will helm, Sen. Mr. Wilhelm had for som time been engaging a well to be used as privy vault, which be completed yesterday. The new vault is contiguous to one that has been in use for many years and separated therefrom some eighteen inches. It is supposed he went down into the new vault about six o'clock last evening, for the purpose of tapping the old one. This he did, and while trying to make his escape up an ordinary rung ladder, was suffocated by the mephitic gas, and fell back into the

rapidly filling cess-pool.

Mrs. Wilhelm happened to notice the accident within a moment of its occurrence, and raised the neighborhood with her screams. Her son, Mathias Wilhelm, Jr., was the first to reach the place, and started down the ladder to rescue his father. The moment he reached the same place on the ladder from which his father had tallen-

about eight feet from the bottom of the vault, he seemed to lose all physical power, and fell headlong into the reeking abyss of

death below. By this time a large number of people had gathered to the spot attracted by the cries of the woman and children in the neighb rhood. Mr. James Mooney, who kept a saloon on the opposite side of the street, started down the ladder to rscue the two Wilhelms and he in turn was suffocated and fell from the ladder and of course lost his life. As the crowd increased every one seemed anxicus to rescue those who were in the deadly vault below.

THE NEXT MAN Togo down was Richard Mackey, who, when he reached the fatal rung, fell like the other three, but fortunately lodged between the ladder and the wall and was rescued, although life was seemingly extinct, rescue he received a very serious wound in the right thigh, inflicted by the grapnels vere wounds in the back by the fall. Armstrong Votes in Favor of Giving the Public Lands to Speculators.

The readers of the Reporter are aware that Congress, since it is under radical control, has engaged in whole sale legislative stealing of the public domain, for which the common blood and treasure of the common people of the country has been spent. When a poor head of a family wants a section of the public lands, upon which to found a home for his wife and little ones, he must pay for every inch of it, but the radical congress can appropriate millions of acres-and has done it-to congressional combinations ton? and rings, under the pretense of wan ting to build railroads, without having to pay one cent for it. They thus vote away the valuable public domain by wholesale, and enrich themselves by the monopoly, thereby gained in the land sales. This criminal plundering has been carried on for years and is still a favorite scheme with our radical masters at Washington.

On Wednesday of last week, the Northern Pacific Railroad bill-an other huge land-grabbing, land steal ing measure-was up in the House, and among the votes in favor, we find Billy Armstrong, radical member from this district, and who will ask to be re-elected next fail.

If any one asks you what the French plebiscite means, answer "Shoo fly, dont bodder me."

Senator Lowery has thrown another bombshell into the Radical camp.

When the party of great moral ideas passed the Fifteenth Amendment the object to be attained was not the benefit of the black man, but the black man's vote. The emancipation proclamation was considered a military necessity by Mr. Lincoln, and was dethe South. It was forced upon Mr. Lincoln by foreign pressure more than

by the demands made upon him at home. The Fifteenth Amendment is simply a piece of political strategy to secure the colored vote. If it shall be found bereafter that that vote does not add to the Radical strength, we shall look to see the same men who have been clamorous for its adoption advocating its repeal. Hence, when any weak-kneed brother of the loil faith does or says anything to open the eyes of the black man to the true situation, there is a great commotion in the Radical camp. Mr. Lowery has

just done this at Corry, Pa., on the occasion of a Colored Jubilee at that place, and here is what he said : Admonished by the lateness of the

hour, I find I must be brief. Elified as I have been by the gentleman's speech, I must still deny that the colored man owes any man in this country anything; he owes Abraham Lin coln nothing ; he owes God everything. I was at both the convertion that nominated Mr. Lincoln .- No man there

ever intended to give you your freedom. We made you free rather than, be slaves ourselves. When we gave you the cartridge box we did not mean to give you the ballot box. Even Anlrew Johnson was an instrument in the hands of Providence. He was indeed your political Moses. Men and eventscompelled us to give you everything we did give you - The North will rise up to kick you down. The South loves you and there will be your homes. The Democracy nowhere objects to the shape of your nose, the length of your heels, or the odor from your bodies. The ballot has straightened your nose,

cut off your heels and made you sweet as the fragrance of roses. Now, let me say, if the Republican party presents you a corrupt man, don't vote for him.

Behold the negro, he no longer need It is neither honest, fair to the party ; ism. The system of "pairing" is fast growing into disrepute. The best class of representatives abominate the habit, and are not found among those who practice it. The time has long passed when ingeniously framed cock and bull stories about "pairing, swolen creeks, large interests, supplication of friends,' and for ought we know "two gin mills," will pass muster with a constituency so vitally interested in a Protective

Tariff as are the laboring men of this Common wealth. The Excess of males over females in the different countries of the world has recently been the subject of investigation. In the United States, in 1850, in a total white population of 19,553, 068, there was an excess of 499,440, in a total free colored population of 434,449, there was an excess of 17. slave population of 3,204,313, there guisty.' was an excess of 755 males. In great Britain, on the other hand, there is an excess of 700.000 females over males; and in France, Austria Spain, Italy and Prussia, with a population of 138, 000,000, there are 1,074,000, more females than males.

The ancient wea'th and opulence of Tyre ame principally from its purple dye. About fifteen hundred yeare before Christ, it is said, the King of Phoenicia was so captivated with the color that he made it his greatest ornament, and Tyrian purple thus became an emblem of royalty. In the time of Augustus, a pound of wool dyed at Phoenicia was worth about a hundred and fifty dollars. The purple was obtained from a small vessel or sac in the throat of the shell-fish, to the amount of obout one drop from each animal. At first, it is a colorless liquid, but, by exposure to the air and the bright sunlight of the Tyrian coast, it assumes successfuly a citro, yellow, green, azure, red, and, in the course forty eighthours, a brilliant pupple hue. The color, besides its great brilliancy, is also remarkable for its curability. Plutarch says, in his Life of Alexandria, that, at the taking of Susa, the Greeks found, in the royal treasury of Darius, a quantity o purple cloth at the value of five thousand ta ents, which still retained its beauty, although it had lain there nearly two hundred years. 'The color resists the action of all alkalies and most acids. EIGHT HOUR LAW ADOPTED .- Among
