Locomotive No. 43, Ned. Sandford, engineer, was next taken from the road and put into the shop, where in a quiet manner, skillful mechanics soon fitted her out with an ingeniously formed pipe, curling from the main hole in the tender down through the latter to a position inside the hind trucks, where the pipe forms a half circle, at the end of which is the nozzle.

There are many improvements connected with it, all the handwork of Master Mechanic Buchanan. He had been at work experimenting since the 27th of May last, and has always been encouraged by Superintendent J. M. Tooney, who has been a firm believer in the plan from beginning to end.

One advantage we claim for it, is the lever power, by which we gain one hundred per cent over other machines. Another advantage is the hoisting and lowering apparatus, whereby the driver has under his complete control the machine; in coming to a spot of lodged grain, the driver can change the cut of the machine in an instant, without stopping the team, varying the stubble from 1 to 14 inches at the outside of the machine, as well as on the inside. It is constructed of first class material; and built by first class mechanics. We warrant it second to none.

ADDRESS

TO THE NERVOUS AND DEBILITATED, WHOSE SUFFERINGS HAVE BEEN PROTRACTED FROM HIDDEN CAUSES, AND WHOSE CAUSES REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE

If you are suffering, or have suffered, from involuntary discharges, or what does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or frothy or is itropy of setting? Or does a thick skin rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspnoea? Do you have spells of bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull, listless, mooping, tired of company of life? Do you enjoy your life alone, to get away from everybody? Do you ever feel as if you were starting or jumping? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom on your cheek as bright? Do you enjoy your life in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging? Do you find your melancholy? If so, do not let it to your liver or dyspepsia. Have you restless nights? Your back weak, your knees weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint.

Now, render, self-abuse, venereal diseases, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of generation, when in perfect health, make the man energetic, persevering, successful business man, and a father of a family. The organs are in perfect health? You never hear such men complain of being melancholy, or nervousness, or palpitation of the heart. They are in perfect health, they cannot succeed in business; they don't become rich, and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right about the face—none of your downcast looks or any other mean expression about them. I don't mean those who keep the organs inflamed by burning to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excess, have brought about a state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiotcy, lunacy, paralysis, spinal affections, sciatica, and almost every other form of disease, which humanity is heir to—and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.
