

CENTRE HALL REPORTER.

FRIDAY, AUGUST 26th, 1870

A matter-of-fact poetical genius says: "I overheard a mousetruck chap the other day remark that he loved a certain young lady well enough to die for her."

I'd swear for her, I'd tear for her, The Lord knows what I'd bear for her; I'd sigh for her, I'd drink Big muddy dry for her,

I'd fight for her— I'd bite for her— I'd walk the streets all night for her; I'd plead for her, I'd bleed for her, I'd go without any 'feed' for her.

I'd shoot for her— I'd boot for her, A rival come to 'suit' for her; I'd kneel for her, I'd steal for her, Such is the love I feel for her.

I'd slide for her— I'd ride for her, I'd swim 'gainst wind and tide for her; I'd cry for her, But—hang me if I'd die for her!

N. B.—Or any other woman."

A Republic, or a Bourbon.

That, in all probability, will be the choice for the people of France says the Age. Napoleon has lost his hold upon the nation. He has made too many mistakes. The Mexican war was a blunder. The Emperor should never have entered into the tripartite treaty in relation to the affairs of a weak and rickety country.

For the year ending the 30th of April, 1870, the following sums were collected by the Federal Government from our taxable people: From Customs, \$170,000,000; From Internal Revenue, viz: Spirits, 52,863,617; Tobacco, 30,428,347; Banked bankers, 4,128,677; Gross receipts, 6,781,283; Sales, 5,778,242; Merchandise, 3,812,363; Income, including salaries, 1,652,818; Legacies, 329,852; Succession, 808,233; Passports, 24,960; Miscellaneous, 927,044; Stamps, 15,718,223; Total, \$350,200,947.

The custom duties were in gold. Reduced to legal tenders, they are brought up to \$300,000,000. The interest on the debt is \$300,000,000. The interest on the debt is \$300,000,000. The expenses of the Government should not exceed \$100,000,000. Total, \$240,000,000. Why, then, go on and raise \$800,000,000, or even 200,000,000, in taxes? The custom-house duties, with the internal taxes on spirits and tobacco, are amply sufficient.

The "Mitrailles" guns heretofore referred to in our cables, are described by the London Globe as a cluster of barrels, either bound together or bored out of the solid, and mounted on the same principle as an ordinary breech action, capable of being opened and closed by a lever. In the Montgomery arm the cartridges are carried in steel plates perforated with holes corresponding in number and position to the holes in the barrel. This steel plate in fact, forms the "vent piece" of the system.

These are the blunders, the mistakes which have alienated the French people from Napoleon, and brought the Prussians within two hundred miles of Paris. The mis Napoleon cannot be again reinvigorated. The Emperor cannot pull France out of the rut into which it has run by his acts. There must be a change in the government in order to revive the feelings of the people, and infuse fresh life into the campaign.

Horrible Death of a Bridegroom by Hydrophobia.

A death by hydrophobia under singular and very distressing circumstances occurred in Yonkers, N. Y. Wednesday morning, the 18th inst. The unfortunate individual, who has been employed in Ode's factory in Yonkers, and who was living in Brooks street, in that village, was bitten in January last by a large dog belonging to Mr. Bergen, in the brewery of that gentleman.

On Tuesday of last week, young Lamb was married to the object of his choice, but against the wishes of her mother, who at once visited the young couple and expressed her feelings in pretty well known words, while up with the wish that her daughter would be widowed in three months.

On the day after the wedding the husband showed symptoms of hydrophobia, and medical treatment for a time seemed to have a good effect; but subsequently Lamb sprang from his bed and fled to the woods, where he carried on all sorts of antics, jumped over fences and barked like a dog.
