LOCAL NEWS. Our friends will oblige us by sending in any items of local inter-est, including deaths, marriages, &c., as such are eagarly read by your friends in the west, many of whom get the Reporter. We would esteem it a favor if our kind patrons would occasionally mail a copy of the Reporter to relatives and acquaintannes who formerly lived in Centre county and removed to other parts, which would induce many to become subscribers.

The speakers violently denounced King William and an allusion to the apathy of John Bright was received with cries of shame. The Gladstone Government was bitterly reproached for its policy of abstention, a defensive alliance with France advocated and a resolution adopted calling on Parliament to abolish pensions to German Princes, including the Crown Prince of Prussia and Prince Louis of Hesse. It was declared that the sooner all Kings and Queens were dethroned the better. The feelings manifested in all quarters of the city during the night, was revolutionary, and threatening.

DOTY'S WASHING-MACHINE. Universal Clothes Wringer Improved with Rowell's Patent Double Cog-wheels, and the Patent Stor, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

The Editor of this paper, who purchased a Washer and Wringer, thus testifies as to their value.

DOTY'S WASHER.—Washing is the hard-est work woman has to attend to. Many have been the inventions to take from washing-day its dread by enabling our wives and daughters to perform that work washing-day its dread by enabling our wives and daughters to perform that work with greater ease than accompanids the old mode of washing by band. As yet, few of these inventions have proven success; against some machines it is objected that they will not wash clean, against others that they main the clothes, and against others that fo operate them is more tiresome than the old mode. A washer than, against which non of these objections hold good will be acknowledged a rest good send by all womankind, and must be classed among the most useful inventions. This want is now satisfied by Doty's Washer, one of which we have in car family, and which we have green a fair trial. The Doty occupies very fittle space, is easily moved from one place to another, it washes clean, does not tear off buttons or otherwise damage the goods washed, it does its work quick, and with such remarkable ease, that a girl of ten years can work it.—Centre Hall Reporter, Dec., 17th 1869.
