SEWING MACHINES. The following are selected from thousands of testimonials of similar character, as expressing the reasons for the preference for the GROVER & BAKEE Machines over

all others.

"I like the Grover & Baker Machine, in the first place, because, if I had any other, I should still want a Grover & Baker; and having a Grover & Baker, it answers the same purpose of all the rest. It does a greater variety of work and it easier to learn than any other."—Mrs. J. C. Croty (Jenny June.)

*** * The believe it to be the best, all things considered, of any that I have known. It is very simple and easily learned; the sewing from the ordinary spools is a great advantage; the stitch is entirely reliable; it does ornamental work beautifully; it is not liable to get out of order."—Mrs.

Doty's Washer.—Washing is the hardest work woman bas to attend to. Mary have been the intentions to take from washing-day its dread by enabling our wives and daughters to perform that work with greater ease than accompanies the old mode of washing by hand. As yet, few of these inventions have proven site; cess; against some machines it is objected that they will not wash elean, against others that they ruin the clothes, and against others that a more threshold good will be acknowledged a real godsend by all womankind, and must be classed among the most useful inventions. This wantis now satisfied by Doty's Wa her, one of which we have in our family, and which we have given a fair trial. The Doty occupies very little space, is easily moved from one place to another, it washes clean, does not tear off buttons or otherwise damage the goods washed, it does its work quick, and with such remarkable ense, that a girl of ten years can work it.—Centre Hall Reporter, Dec., 17th 1869.
