We hope a few acres will be kept in reserve for a "rainy day."

The radicals feel the close quarters they are getting into, and that their organization is growing weaker. They have become alarmed as to their chances in the next presidential campaign, and are endeavoring to fix up some electoral votes out of the empty territories, by admitting them as states. From Washington we learn that the rads in congress are reviving the rotten-borough system for the Presiden tial campaign. The Senate Territorial Committee reported two bills, out votes, for the admission of Colorado and New Mexico as States into the Union. These enabling acts are to be passed this session, so that local governments may be formed in time for the admission of the Territories into the Union as States in the next Congress. Colorado has a population, acthe population since 1861, when a of that day has gone to other points. New Mexico has an area of 115,000

Mr. Chandler, as is his wont, made a fierce reply to Sumner, which brought out an exciting discussion on all the relatives that the President had appointed to office. Mr. Trumbull made a caustic speech in defense of the action of Mr. Sumner's committee. A Senator got up and read a list of twentyseven names of the President's relations office. This fact seemed to squelch the irate Michigander for the Senate soon thereafter voted that the Foreign Relations Committee should go on with its investigation of brother-in-law Cra-
