BOSTON BREAD CAKE. - One cup butter, one cup sugar, one cup molasses, cup sour milk, five cups flour, teaspoonful soda in one cup milk, one and one-half cup raisins, one and one-half teaspoonful each of cloves, alspice, and three teaspoonfuls cinnamon.

CHEAP SUBSTITUTE FOR COFFEE. - Take two quarts of wheat bran, and one teatwo quarts of wheat brain, and one tea-cup of molasses, or syrup. Stir together till thoroughly mixed. Let it dry grad-ually in a moderate oven. It will be when dry in small lumps, about the size of coffee grains. Brown this like common coffee, and use about the same proportions. No grinding is necessary. Dyspepties find this beverage agreeable, and more nutritious than parched rye, wheat,

LETTUCE IN WINTER.—It is said that lettuce can be produced in Winter in from twenty-four to forty-eight hours by taking a box filled with rich earth, in which one-third part of slaked lime had been mixed, and watering the earth with ong brandy for twenty-four hours. and sowing in the usual way. We are assured, but will not vouch for the fact, hat a good sized head of lettuce may be btained in the time mentioned.

Down on Moth Traps .- J. H. Martin, "I am a bee-keeper, and always found the so-called moth-traps the greatest curse the bee-keeper can introduce into his apiary. Moths certainly do congregate in them, and a very little neglect makes the congregation too large for or-dinary apiaries to survive. It is impos-

As soon South. potash dissolved in rain water. as the foaming ceases, the boiling is to be stopped, and six pounds of finely and yellow ochre are introduced and red around; after which the mass is lowed. placed in dishes and allowed to become hard. For use, one pound is to be diluted in two and a half measures of boiling water, so as to form a homogeneous broth, and well stirred. This is to neous broth, and well stirred. This is to be applied by means of a brush upon the floor, and when perfectly dry is to be rubbed down and polished by means of a rough, coarse sheepskin. This preparation is said to give a fine luster, and does not lose its color, while at the same time it is very cheap.

Let a very out to set the definition of the conduct of the officials previous ly acquitted.

A BILL before the Illinois Legislature abolishes the Grand Jury system, and imposes the duties upon the State's externess. time it is very cheap.

Bohlang Potatoes.—I am anxious to

add my experience to that of others about boiling potatoes. The subject is one that cannot be discussed too much, because there in orbits are not not be discussed too much. because there is nothing upon our table betaer than a well-cooked potatoe, and nothing less palatable than if badly cooked; and yet how seldom do we find a dish of properly-cooked potatoes, even in families who are good livers. When

lukewarm water; then taking seed which had previously been softened by soaking each week by the New York city police.

deceased soldiers.

Some of the railroads of Illinois have paid more this Winter to clear the snow from their tracks than they originally

dinary apparies to survive. It is impossible to keep moth worms from the hive. The moth will ay its eggs upon the alighting board and upon the blossoms daily visited by the bees. The eggs stick to the bee and are carried into the very centre of the hive. The only safety and the very best moth-trap is to keep the swarm strong. Wood and glass and almost every other substance has been tortured into hundreds of patent hives. But any farmer with a little ingenuity can make a good plain movable comb-hive."

A PATENTED FREPARATION for ornament
The impossible to keep moth worms from the hive. The only safety and of the preliminary conditions of peace by 546 yeas, against 107 nays.

The Dr. Same person pays as much for a dozen small as for a dozen large eggs—getting in the one instance from one-third to one-half less (actual weight) for his national bank circulation \$352,575,000, and for public deposits \$15,889,500.

The British schooners Investigator and Grace were seized at Eastport, Me., for violation of the Coasting laws.

MARTHA CLARK, a factory of dozen large eggs—getting in the one instance from one-third to one-half less (actual weight) for his national bank circulation \$352,575,000, and for public deposits \$15,889,500.

The U. S. Treasurer holds in trust for national bank circulation \$352,575,000, and for public deposits \$15,889,500.

The British schooners Investigator and Grace were seized at Eastport, Me., for violation of the Coasting laws.

MARTHA CLARK, a factory of the small ones. Some retailers do; but the retailer pays the commission marked on it than for small ones.

MARTHA CLARK, a factory of dozen for the large than for the small one one-half less (actual weight) for his national bank circulation \$352,575,000, and for public deposits \$1,899,500.

The U. S. Treasurer holds in trust for matched the very large eggs—getting in the one instance from one-third to one-half less (actual weight) for his national bank circulation \$352,575,000, and the very large eggs—getting in the one instance from one-thir A PATENTED PREPARATION for ornamenting floors is made by immersing eleven and a half pounds of finely divided wax in a boiling solution of six pounds of potash dissolved in rain water. As soon

cooked; and yet now sentent do we have a dish of properly-cooked potatoes, even in families who are good livers. When they come to the table smoking hot with their "jackets" on all bursting with the floury inside, it is a sight to make a day spepting good-natured, and never will fail to turn a sullen face into wreathing smiles. Then let me say a few words about cooking this vegetable, and tell the way in which I have been most successful. To boil potatoes, let them lie in cold water six hours, at least, before boiling (twelve hours, for very old potatoes is not too long). Then put them in a little water, a little salted, and the water at should be kept at a moderate botil lithey are done, which should be taken not to let them boil a moment after they are done, which should be taken not to let them boil a moment after they are done, which should be taken not to let them boil a moment after they are done, as it will render them watery. An excellent plant to make old potatoes mealy is to turn to make old potatoes mealy is to turn to make old potatoes mealy is to turn to make old potatoes mealy is to turn. to make old potatoes mealy is to turn them into a cloth and rapidly shake them about, or take them one at a time in a cloth and slightly press them. The larger potatoes should be put into the larger potatoes should be put into the pot before the smaller ones, that they pot before the smaller of justice.
